Report on "Innovation & Entrepreneurship Outreach Program in Schools/ Community"

Title of the Session: "Innovation & Entrepreneurship Outreach Program in Schools/ Community"

Organized By: Institution's Innovation Council (IIC), Swami Vivekananda University, Kolkata

Mode of Delivery: Off-line

No. of Participants: 87

Duration: 3 Hours

Date: 27th August, 2026

Venue/Location: Future Scholar's Academy, Affiliated to CBSE, Baduria

Objectives:

The primary objective of the **Innovation & Entrepreneurship Outreach Program in Schools/Community** was to create awareness among school students about the importance of innovation, creativity, entrepreneurship, and problem-solving. The program aimed to encourage students to observe real-life problems in their surroundings, think creatively, and develop innovative solutions. It also sought to motivate students to develop an entrepreneurial mindset and understand how innovative ideas can be transformed into practical solutions that can create social and economic value.

Theme:

The theme of the program was **"Fostering Innovation and Entrepreneurship among Young Minds."** The session focused on developing curiosity, creativity, critical thinking, and an entrepreneurial attitude among students. Through interactive discussions, students were encouraged to identify problems around them and explore innovative and practical solutions. The program emphasized that innovation can begin with simple ideas and that students can contribute to society by developing solutions to everyday challenges.

Outcome:

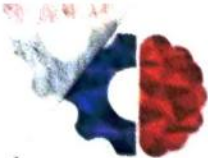

The program successfully enhanced students' awareness and understanding of innovation and entrepreneurship. Students gained insights into the process of identifying problems, generating ideas, and developing possible solutions. The interactive session also encouraged them to confidently share their innovative ideas and discuss the challenges they had identified. The program helped develop their creative thinking, problem-solving abilities, communication skills, and confidence, while motivating them to explore innovation and entrepreneurship as avenues for their future development.

Session Highlights:

Mr. Dipak Sarkar from the Department of Mechanical Engineering and **Mr. Amitava Bhowmick** from the Department of Education, Swami Vivekananda University, Kolkata,

Institution's Innovation Council (IIC),
Swami Vivekananda University, Kolkata

Institution's Innovation Council
Swami Vivekananda University

visited Future Scholar's Academy, Baduria to conduct the outreach program. Mr. Dipak Sarkar delivered an engaging session on **innovation and entrepreneurship**, explaining their importance and relevance in addressing real-world challenges. He interacted with the students and encouraged them to share their innovative ideas, problems they had observed in their surroundings, and possible solutions. The discussion created an interactive learning environment where students actively participated, expressed their thoughts, and explored how their ideas could be developed into practical and useful innovations. Mr. Amitava Bhowmick also supported the interaction and engagement with the students throughout the program.

Glimpse of the event:

General Participants Feedback:

The participants provided positive feedback about the program and appreciated the opportunity to interact directly with university faculty members. Students found the discussion on innovation and entrepreneurship interesting and informative, particularly the opportunity to present and discuss

their own ideas and solutions. Many students expressed that the session encouraged them to think creatively and look at everyday problems from a different perspective. The interactive nature of the program made the session engaging and helped students gain confidence in expressing their innovative thoughts.

Recommendations:

It is recommended that similar **innovation and entrepreneurship outreach programs** be organized regularly in schools to continuously nurture creativity and entrepreneurial thinking among students. Future programs may include hands-on activities, design-thinking exercises, innovation challenges, idea-pitching sessions, and demonstrations of student projects to provide greater practical exposure. Schools may also encourage students to maintain an **innovation idea bank** where they can document problems, ideas, and proposed solutions. Continued collaboration between schools and Swami Vivekananda University can further support mentoring, guidance, and development of promising student ideas into practical projects.

Signature of the Convenor with University Seal

Convenor:

Dr. Ranjan Kumar,
Convenor, IIC Cell

Associate Professor & Head, Dept. of Mechanical Engineering,
