

About School of Agriculture

The 2020-founded School of Agriculture strives for academic and scientific excellence. The school offers bachelor's degree programs in agriculture, agricultural engineering, and master's degree programs in agribusiness management. In accordance with the Indian Council of Agricultural Research's (ICAR) requirements, the school has created dynamic and targeted curricula to produce skilled workers for academics, agro-based industries, and extension-oriented applications.

World Milk Day: A Tribute to Nutrition and Sustainable Dairy Farming

World Milk Day 2026 was celebrated at Swami Vivekananda University to highlight the importance of milk in ensuring nutrition, health, and sustainable livelihoods. The event recognized the invaluable contributions of dairy farmers and promoted awareness of dairy's role in food security and agricultural development. The celebration inspired students to

appreciate the significance of milk for a healthier future.

Inspired by Nature, For Climate, For Our Future

Celebrating **World Environment Day** by emphasizing the importance of tree plantation and environmental conservation. Students, faculty, and staff actively participated in plantation drives, reaffirming their commitment to sustainability, biodiversity, and a cleaner environment. The celebration inspired collective responsibility towards protecting nature and building a greener, healthier future for generations to come.

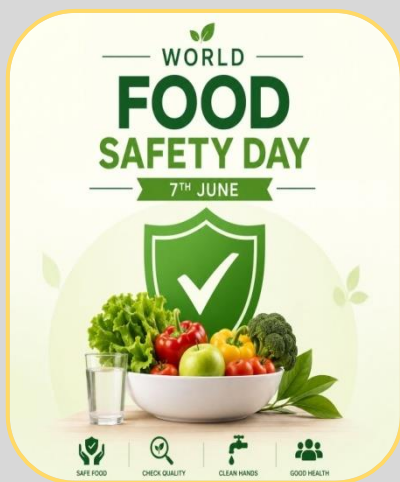

Also the **University** organized a campus-wide tree plantation programme under the leadership of the Hon'ble Vice-Chancellor, along with the Heads of various Departments, faculty members, staff, and students. A wide variety of saplings and indigenous green plants were planted across the university campus to promote environmental

sustainability and enhance the green landscape. The initiative reflected the University's commitment to biodiversity conservation, ecological balance, and climate resilience.

Ensuring Safe Food for a Healthier Future

On 7th June, University observed **World Food Safety Day 2026** to raise awareness about the importance of safe and nutritious food. The celebration emphasized that food safety is a shared responsibility, ensuring health, food security, and sustainable development.

Students and faculty highlighted the importance of maintaining food safety at every stage—from farm to fork—through good hygiene, quality standards, and responsible food handling practices. The event inspired everyone to adopt safe food practices and contribute towards building a healthier and safer future for all.
