Meeting Details		
Meeting Name: **Board of Studies**	Venue: **SVU Campus**	Date: 16/12/2024
Convenor: **Dr. Tanmoy Sarkar**	Start time: 11 AM	End time: 1 PM

Attendees
Dr. Tanmoy Sarkar (Chairman, BOS)
Prof. (Dr.) Swapan Kumar Datta (Advisor)
Prof. (Dr.) Champak Kumar Kundu (External Member from Academics)
Prof. (Dr.) Mahadev Pramanick (External Member from Academics)
Prof. (Dr.) Dhananjoy Dutta (External Member from Academics)
Dr. Sudip Sengupta (Member)
Dr. Avishek Chatterjee (Member)
Dr. Suprabuddha Kundu (Member)
Dr. Ria Mukhopadhyay (Member)
Dr. Anirneeta De (Member)
Mr. Tanmoy Majhi (Member)
Mr. Rakesh Das (Member)
Mr. Parijat Bhattacharya (Member)
Ms. Sayani Bhowmick (Member)
Mr. Mahafuzar Rahaman (Member)

Agenda
❖ Finalization of syllabus and course curriculum of M.Sc (Ag) in Agronomy ❖ Approval of mode of examination. ❖ Approval of Question pattern and Marks distribution.

Dr. Tanmoy Sarkar, HOD, School of Agriculture discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 10th Board of Studies (BOS) Meeting

Agenda 1: Finalization of syllabus and course curriculum of M.Sc (Ag) in Agronomy
Proposition: The syllabus under the course of M.Sc (Ag) in Agronomy was proposed for approval.
Resolution: The board unanimously approved the syllabus and course curriculum.

Agenda 2: Approval of Mode of examination
Proposition: Offline mode of examination for continuous assessment, end-term (theory and practical wherever it was required in the current semester course along with the ongoing first, third and fifth semester was proposed.
Resolution: The board unanimously approved the mode of examination.

Agenda 3: Approval of Question pattern and Marks distribution
Proposition:
Question pattern:
Continuous assessment:
Term-paper assignments were assigned to the students for their individual performance.
Mid-term examination:
Two midterm examination (one written and one presentation mode). The question papers of total 40 marks (each). The time duration was 1.5 hours.
End-term theory examination:
There were three parts in the question paper: (i) 10 MCQs of 10 Marks, (ii) 4 questions of 5 marks each and (iii) 2 questions of 15 marks each; total 60 and duration of examination 150 minutes.
End-term practical question paper:
The question paper contained three groups: Group A included 30 Marks practical assessment and Group B included 10 marks practical copy and group C included 20 marks of viva voce. Total Marks 60 and duration of examination 120 minutes
Marks distribution:
Finally total marks will be made on a scale of 100, where percent sharing of different evaluation components are as follows:

a. External theory (50%)
b. Internal Theory + Practical (50%)
c. Courses with Theory and Practical
   Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)
d. Courses with only Theory
   Mid-term Exam (40%) + Assignment (10%)
e. Courses with only Practical:
   (100%) Internal

Finally total marks will be made on a scale of 100, where percent sharing of different evaluation components are as follows:

Continuous assessment (5)
Mid-term (30)
End-term Practical (15)
End-term Theory (50)
Total (100)

Resolution: The proposal was approved by the board members. The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Vice Chancellor
Swami Vivekananda University

Dr. Tanmoy Sarkar, HOD, School of Agriculture discussed the following agenda in presence of all the Board of Studies members.

Minutes of 11th Board of Studies (BOS) Meeting

Agenda 1: Confirmation of module-wise 6th Dean Committee Syllabus for B.Sc (Ag.)

Proposition: The Board proposed to adopt the restructured syllabus as per the recommendations of the 6th Deans' Committee under NEP-2020. The syllabus includes a four-year program with multiple entry and exit options (UG-Certificate after 1st year, UG-Diploma after 2nd year, and UG Degree after 4th year). The curriculum emphasizes foundation, core, advanced, and specialization courses, along with skill enhancement, internship, online/MOOCs, elective courses, and new-age subjects such as Artificial Intelligence and Robotics.

Resolution: The Board unanimously approved the adoption of the syllabus as per the 6th Deans' Committee framework.

Agenda 2: Approval for mode of class conduction

Proposition: Offline mode of class conduction was proposed.

Resolution: The Board approved offline mode of class conduction as recommended by the 6th Deans' Committee, however, combining traditional classroom teaching with online/digital resources to enhance accessibility, inclusivity, and quality of education can be adopted based on online/MOOCs.

Agenda 3: Approval of question pattern and marks distribution

Proposition: The following examination and evaluation system was proposed as per the 6th Deans' Committee:

Question pattern:

First semester

Continuous assessment:
Term-paper assignments were assigned to the students for their individual performance.

Mid-term examination:
Two midterm examination. The question papers of total 40 marks (each). The time duration was 1.5 hours.

End-term theory examination:
There were three parts in the question paper: (i) 10 MCQs of 10 Marks, (ii) 4 questions of 5 marks each and (iii) 2 questions of 15 marks each; total 60 and duration of examination 150 minutes.

End-term practical question paper:
The question paper contained three groups: Group A included 30 Marks practical assessment and Group B included 10 marks practical copy and group C included 20 marks of viva voce. Total Marks 60 and duration of examination 120 minutes

Second semester
The same question pattern will be followed in second semester also.

Third Semester onwards

Continuous assessment:
Term-paper assignments were assigned to the students for their individual performance.

Mid-term examination:
Two midterm examination. The question papers of total 30 marks (each). The time duration was 1 hours.

End-term theory examination:

Vice Chancellor
Swami Vivekananda University

There were three parts in the question paper: (i) 15 MCQs of 15 Marks, (ii) 5 questions of 5 marks each and (iii) 2 questions of 15 marks each; total 70 and duration of examination 180 minutes.

End-term practical question paper:
The question paper contained three groups: Group A included 40 Marks practical assessment and Group B included 10 marks practical copy and group C included 20 marks of viva voce. Total Marks 70 and duration of examination 180 minutes.

Marks distribution

Finally total marks will be made on a scale of 100, where percent sharing of different evaluation components are as follows:

Examination
a. External theory (50%)
b. Internal Theory + Practical (50%)
c. Courses with Theory and Practical
Mid-term Exam (30%) + Assignment (5%) in practical oriented courses + Practical (15%)
d. Courses with only Theory
Mid-term Exam (40%) + Assignment (10%)
e. Courses with only Practical:
(100%) Internal

Finally total marks will be made on a scale of 100, where percent sharing of different evaluation components are as follows:

Continuous assessment (5)
Mid-term (30)
End-term Practical (15)
End-term Theory (50)
Total (100)

Resolution: The Board approved the evaluation and grading framework as per the 6th Deans' Committee recommendations, replacing the earlier question pattern and marks distribution.
The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Agenda of BOS Committee Meeting

- Introduction of a 4-year Undergraduate honors course for the students of UG Biotechnology Semester II (National Education Policy).
- Revision and restructuring of the syllabus of the undergraduate course according to the National Education Policy.

Syllabus for UG Biotechnology SEM II

Category	Subject	Credit
Major	Mammalian Physiology	3+1
Minor	Cell Biology	3+1
Interdisciplinary subject	Life Skills Education	3
Ability Enhancement Courses	Modern Indian Language	2
Skill Enhancement Courses	General Microbiology	3
Value Added Course	Health, Well Being and Yoga	4
Internship	Internship at reputed research institute/ at industry	2

Course Name: Mammalian Physiology
Credits: 3+1
Allotted Hrs. 60

Module-I **[10H]**

Digestion and Respiration: Digestion: Mechanism of digestion & absorption of carbohydrates, Proteins, Lipids and nucleic acids. Composition of bile, Saliva, Pancreatic, gastric and intestinal juice Respiration: Exchange of gases, Transport of O_2 and CO_2, Oxygen dissociation curve, Chloride shift.

Module-II **[10H]**

Circulation: Composition of blood, Plasma proteins & their role, blood cells, Haemopoisis, Mechanism of coagulation of blood. Mechanism of working of heart: Cardiac output, cardiac cycle, Origin & conduction of heart beat.

Vice Chancellor
Swami Vivekananda University

Module-III **[10H]**

Muscle physiology and osmoregulation: Structure of cardiac, smooth & skeletal muscle, threshold stimulus, All or None rule, single muscle twitch, muscle tone, isotonic and isometric contraction, Physical, chemical & electrical events of mechanism of muscle contraction. Excretion: modes of excretion, Ornithine cycle, Mechanism of urine formation.

Module-IV **[10H]**

Nervous and endocrine coordination: Mechanism of generation & propagation of nerve impulse, structure of synapse, synaptic conduction, saltatory conduction, Neurotransmitters. Mechanism of action of hormones (insulin and steroids) Different endocrine glands– Hypothalamus, pituitary, pineal, thymus, thyroid, parathyroid and adrenals, hypo & hyper-secretions.

Module-V **[20H]**

1. Finding the coagulation time of blood
2. Determination of blood groups
3. Counting of mammalian RBCs
4. Determination of TLC and DLC
5. Demonstration of action of an enzyme
6. Determination of Hemoglobin

Course Name: Cell Biology
Credits: 3+1
Allotted Hrs. 60

Module-I: **[10H]**

Cell: Introduction and classification of organisms by cell structure, cytosol, compartmentalization of eukaryotic cells, cell fractionation. Cell Membrane and Permeability: Chemical components of biological membranes, organization and Fluid Mosaic Model, membrane as a dynamic entity, cell recognition and membrane transport.

Module-II: **[10H]**

Membrane Vacuolar system, cytoskeleton and cell motility: Structure and function of microtubules, Microfilaments, Intermediate filaments. Endoplasmic reticulum: Structure, function including role in protein segregation. Golgi complex: Structure, biogenesis and functions including role in protein secretion.

Vice Chancellor
Swami Vivekananda University

Module-III: **[10H]**

Lysosomes: Vacuoles and micro bodies: Structure and functions Ribosomes: Structures and function including role in protein synthesis. Mitochondria: Structure and function, Genomes, biogenesis. Chloroplasts: Structure and function, genomes, biogenesis Nucleus: Structure and function, chromosomes and their structure.

Module-IV: **[10H]**

Extracellular Matrix: Composition, molecules that mediate cell adhesion, membrane receptors for extra cellular matrix, macromolecules, regulation of receptor expression and function. Signal transduction. Cancer: Carcinogenesis, agents promoting carcinogenesis, characteristics and molecular basis of cancer.

Module-V: **[20H]**

1. Study the effect of temperature and organic solvents on semi permeable membrane.
2. Demonstration of dialysis.
3. Study of plasmolysis and de-plasmolysis.
4. Cell fractionation and determination of enzyme activity in organelles using sprouted seed or any other suitable source.
5. Study of structure of any Prokaryotic and Eukaryotic cell.
6. Microtomy: Fixation, block making, section cutting, double staining of animal tissues like liver, oesophagus, stomach, pancreas, intestine, kidney, ovary, testes.
7. Cell division in onion root tip/ insect gonads.
8. Preparation of Nuclear, Mitochondrial & cytoplasmic fractions.

Course Name: General Microbiology
Credits: 3
Allotted Hrs. 45

Module-I **[15H]**

Fundamentals, History and Evolution of Microbiology. Classification of microorganisms: Microbial taxonomy, criteria used including molecular approaches, Microbial phylogeny and current classification of bacteria. Microbial Diversity: Distribution and characterization Prokaryotic and Eukaryotic cells, Morphology and cell structure of major groups of microorganisms e.g., Bacteria, Algae, Fungi, Protozoa and Unique features of viruses.

Module-II **[7H]**

Cultivation and Maintenance of microorganisms: Nutritional categories of micro- organisms, methods of isolation, Purification and preservation.

Vice Chancellor
Swami Vivekananda University

Module-III **[8H]**

Microbial growth: Growth curve, Generation time, synchronous batch and continuous culture, measurement of growth and factors affecting growth of bacteria. Microbial Metabolism: Metabolic pathways, amphi-catabolic and biosynthetic pathways Bacterial Reproduction: Transformation, Transduction and Conjugation. Endospores and sporulation in bacteria.

Module-IV **[15H]**

Control of Microorganisms: By physical, chemical and chemotherapeutic Agents Water Microbiology: Bacterial pollutants of water, coliforms and non coliforms. Sewage composition and its disposal. Food Microbiology: Important microorganism in food Microbiology: Moulds, Yeasts, bacteria. Major food born infections and intoxications, Preservation of various types of foods. Fermented Foods.

Agenda
1. Introduction of a 4-year Undergraduate honors course for the students of UG Biotechnology Semester III (National Education Policy 2020).

Dr Pritha Pal, HOD, Department of Biotechnology and Microbiology, School of Life Sciences, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 5th Board of Studies (BOS) Meeting

Agenda: Introduction of a 4-year Undergraduate honors course for the students of UG Biotechnology Semester III (National Education Policy 2020).

Proposition: Introduction of a 4-year Undergraduate Honors Course

Resolution: The board resolves to introduce a 4-year Undergraduate Honors course for UG Biotechnology Semester III students, aligning with the National Education Policy 2020, to enhance interdisciplinary learning and research opportunities.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

UG Biotechnology, Semester III – NEP Syllabus

Category	Subject Name	Subject Code	Subject Credit
Major	Genetics	BBT3011	3
	Genetics Lab	BBT3011	1
	Molecular Biology	BBT3012	3
	Molecular Biology Lab	BBT3012	1
Minor	General Chemistry	BBT3021	3
	General Chemistry Lab	BBT3021	1
Skill Enhancement Course	SEC: Biotechnology & Human Welfare	BBT3051	3
Ability Enhancement Course	AEC: Communicative English	AEC3041	2
Interdisciplinary Course	IDC: Educational Research	ED3031	3
	Internship		2

Course Name: Genetics
Course Code: BBT3011

Module-I: [12H]
Introduction: Historical developments in the field of genetics. Organisms suitable for genetic experimentation and their genetic significance. Cell Cycle: Mitosis and Meiosis: Control points in cell-cycle progression in yeast. Role of meiosis in life cycles of organisms. Mendelian genetics: Mendel's experimental design, monohybrid, di-hybrid and tri hybrid crosses, Law of segregation & Principle of independent assortment. Verification of segregates by test and back crosses, Chromosomal theory of inheritance, Allelic interactions: Concept of dominance, recessiveness, incomplete dominance, co-dominance, semi-dominance, pleiotropy, multiple allele, pseudo-allele, essential and lethal genes, penetrance and expressivity.

Module-II: [18H]
Non allelic interactions: Interaction producing new phenotype complementary genes, epistasis (dominant & recessive), duplicate genes and inhibitory genes. Chromosome and genomic organization: Eukaryotic nuclear genome nucleotide sequence composition – unique & repetitive DNA, satellite DNA. Centromere and telomere DNA sequences, middle repetitive sequences- VNTRs & dinucleotide repeats, repetitive transposed sequencesSINEs & LINEs, middle repetitive multiple copy genes, noncoding DNA. Genetic organization of prokaryotic and viral genome. Structure and characteristics of bacterial and eukaryotic chromosome, chromosome morphology, concept of euchromatin and heterochromatin. packaging of DNA molecule into chromosomes, chromosome banding pattern, karyotype, giant chromosomes, one gene one polypeptide hypothesis, concept of cistron, exons, introns, genetic code, gene function.

Module-III: [15H]
Chromosome and gene mutations: Definition and types of mutations, causes of mutations, Ames test for mutagenic agents, screening procedures for isolation of mutants and uses of mutants, variations in chromosomes structure - deletion, duplication, inversion and translocation (reciprocal and Robertsonian), position effects of gene expression, chromosomal aberrations in human beings, abonormalities– Aneuploidy and Euploidy. Sex determination and sex linkage: Mechanisms of sex determination, Environmental factors and sex determination, sex differentiation, Barr bodies, dosage compensation, genetic balance theory, Fragile-X-syndrome and chromosome, sex influenced dominance, sex limited gene expression, sex linked inheritance.

Vice Chancellor
Swami Vivekananda University

Module-IV: [15H]

Genetic linkage, crossing over and chromosome mapping: Linkage and Recombination of genes in a chromosome crossing over, Cytological basis of crossing over, Molecular mechanism of crossing over, Crossing over at four strand stage, Multiple crossing overs Genetic mapping. Extra chromosomal inheritance: Rules of extra nuclear inheritance, maternal effects, maternal inheritance, cytoplasmic inheritance, organelle heredity, genomic imprinting. Evolution and population genetics: In breeding and out breeding, Hardy Weinberg law (prediction, derivation), allelic and genotype frequencies, changes in allelic frequencies, systems of mating, evolutionary genetics, natural selection.

Course Name: Genetics Lab.
Course Code: BBT3011

1. Permanent and temporary mount of mitosis.
2. Permanent and temporary mount of meiosis.
3. Mendelian deviations in dihybrid crosses
4. Demonstration of - Barr Body -Rhoeo translocation. 5. Karyotyping with the help of photographs
6. Pedigree charts of some common characters like blood group, color blindness and PTC tasting.
7. Study of polyploidy in onion root tip by colchicine treatment.

Learning outcomes

1. This course offers heredity of living organisms involving alleles, genes and chromosomes.
2. This course makes you expertise in lot of techniques related to cell division and inheritance biology.

Suggested Reading

1. Gardner, E.J., Simmons, M.J., Snustad, D.P. (2006). Principles of Genetics. VIII Edition John Wiley & Sons.
2. Snustad, D.P., Simmons, M.J. (2009). Principles of Genetics. V Edition. John Wiley and Sons Inc.
3. Klug, W.S., Cummings, M.R., Spencer, C.A. (2009). Concepts of Genetics. IX Edition. Benjamin Cummings.
4. Russell, P. J. (2009). Genetics- A Molecular Approach. III Edition. Benjamin Cummings.
5. Griffiths, A.J.F., Wessler, S.R., Lewontin, R.C. and Carroll, S.B. IX Edition. Introduction to Genetic Analysis, W. H. Freeman & Co.

Course Name: Molecular Biology
Course Code: BBT3012

Module-I: [15H]

DNA structure and replication: DNA as genetic material, Structure of DNA, Types of DNA, Replication of DNA in prokaryotes and eukaryotes: Semiconservative nature of DNA replication, Bi-directional replication, DNA polymerases, The replication complex: Pre-primming proteins, primosome, replisome, Rolling circle replication, Unique aspects of eukaryotic chromosome replication, Fidelity of replication.

Vice Chancellor
Swami Vivekananda University

Module-II: [10H]
DNA damage, repair and homologous recombination: DNA damage and repair: causes and types of DNA damage, mechanism of DNA repair: Photoreactivation, base excision repair, nucleotide excision repair, mismatch repair, translesion synthesis, recombinational repair, nonhomologous end joining. Homologous recombination: models and mechanism.

Module-III: [17H]
Transcription and RNA processing: RNA structure and types of RNA, Transcription in prokaryotes: Prokaryotic RNA polymerase, role of sigma factor, promoter, Initiation, elongation and termination of RNA chains Transcription in eukaryotes: Eukaryotic RNA polymerases, transcription factors, promoters, enhancers, mechanism of transcription initiation, promoter clearance and elongation RNA splicing and processing: processing of pre-mRNA: 5' cap formation, polyadenylation, splicing, rRNA and tRNA splicing.

Module-IV: [18H]
Regulation of gene expression and translation: Regulation of gene expression in prokaryotes: Operon concept (inducible and repressible system), Genetic code and its characteristics, Prokaryotic and eukaryotic translation: ribosome structure and assembly, Charging of tRNA, aminoacyl tRNA synthetases, Mechanism of initiation, elongation and termination of polypeptides, Fidelity of translation, Inhibitors of translation., Posttranslational modifications of proteins.

Course Name: Molecular Biology Lab
Course Code: BBT3012

1. Preparation of solutions for Molecular Biology experiments.
2. Isolation of chromosomal DNA from bacterial cells.
3. Isolation of Plasmid DNA by alkaline lysis method.
4. Agarose gel electrophoresis of genomic DNA & plasmid DNA
5. Preparation of restriction enzyme digests of DNA samples
6. Demonstration of AMES test or reverse mutation for carcinogenicity

Learning outcomes

1. This course offers molecular biological processes in living organisms and the regulation of gene expression.
2. This course makes you expertise in lot of techniques related to Molecular Biology experiments.

Suggested Reading

1. Karp, G. (2010). Cell and Molecular Biology: Concepts and Experiments. VI Edition. John Wiley & Sons. Inc.

3. Becker, W.M., Kleinsmith, L.J., Hardin. J. and Bertoni, G. P. (2009). The World of the Cell. VII Edition. Pearson Benjamin Cummings Publishing, San Francisco.
4. Watson, J. D., Baker T.A., Bell, S. P., Gann, A., Levine, M., and Losick, R., (2008) Molecular Biology of the Gene (VI Edition.). Cold Spring Harbour Lab. Press, Pearson Pub.

Vice Chancellor
Swami Vivekananda University

Course Name: General Chemistry
Course Code: BBT3021

Module I: Chemical Bonding [20H]
General characteristics of ionic bonding. Energy considerations in ionic bonding, lattice energy and solvation energy and their importance in the context of stability and solubility of ionic compounds. Statement of Born-Landé equation for calculation of lattice energy, Born-Haber cycle and its applications. Concept of resonance and resonating structures in various inorganic and organic compounds.
VB Approach: Shapes of some inorganic molecules and ions on the basis of VSEPR and hybridization with suitable examples of linear, trigonal planar, square planar, tetrahedral, trigonal bipyramidal and octahedral arrangements.

Module II: Stereochemistry [15H]
Conformations with respect to ethane, butane and cyclohexane. Interconversion of Wedge Formula, Newmann, Sawhorse and Fischer representations. Concept of chirality (upto two carbon atoms). Configuration: Geometrical and Optical isomerism; Enantiomerism, Diastereomerism and Meso compounds). Threo and erythro; D and L; cis – trans nomenclature; CIP Rules: R/ S (for upto 2 chiral carbon atoms) and E / Z Nomenclature (for upto two C=C systems).

Module III: Basic Organic Chemistry [15H]
Physical Effects, Electronic Displacements: Inductive Effect, Electromeric Effect, Resonance and Hyperconjugation. Cleavage of Bonds: Homolysis and Heterolysis. Structure, shape and reactivity of organic molecules: Nucleophiles and electrophiles. Reactive Intermediates: Carbocations, Carbanions and free radicals. Strength of organic acids and bases: Comparative study with emphasis on factors affecting pK values. Aromaticity: Benzenoids and Hückel's rule.

Module IV: Introduction to Green Chemistry [10H]
What is green chemistry? Needs and goals of green chemistry. Limitations/ Obstacles in the pursuit of the goals of green chemistry.

Course Name: General Chemistry Lab
Course Code: BBT3021

1. Estimation of water of crystallization in Mohr's salt by titrating with KMnO4.
2. Estimation of Fe (II) ions by titrating it with K2Cr2O7 using internal indicator.
3. Estimation of Cu (II) ions iodometrically using Na2S2O3.
4. Detection of extra elements (N, S, Cl, Br, I) in organic compounds (containing up to two extra elements)
5. Preparation and characterization of nanoparticles of gold using tea leaves.
6. Preparation of biodiesel from vegetable/ waste cooking oil.

Learning outcomes

1. This course offers general characteristics of chemical bonding, stereochemistry and organic reactions.
2. This course makes you expertise in quantitative estimation of various functional chemical groups.

Vice Chancellor
Swami Vivekananda University

Suggested Reading

Meeting Details		
Meeting Name: **Board of Studies**	Venue: **NND Block, Room No. 206**	Date: **30.05.2024**
Convenor: **Dr Pritha Pal**	Start time: **10:00 AM**	End time: **2:00 PM**

Attendees
Dr. Pritha Pal (Chairman, BoS)
Prof. Nimai Chandra Saha, Principal, Bidhan Nagar College (External Expert from Academics)
Dr. Arijit Bhattacharya, HoD, Department of Microbiology, Adamas University (External Expert from Academics)
Prof. Kousik Pramanick, Department of Life Sciences, Presidency University (External Expert from Academics)
Dr Srijan Haldar (Member)
Dr. Semanti Ghosh (Member)
Dr Priyajit Banerjee (Member)
Dr Sabyasachi Ghosh (Member)
Dr Debjit De (Invited Member)
Dr Subhasis Sarkar (Invited Member)
Dr Bidisha Ghosh (Invited Member)
Dr Priyankar Pal (Invited Member)

Agenda
1. Revision and restructuring of the syllabus of the postgraduate course (Annexure I) according to the CBCS regulations.

Dr Pritha Pal, HOD, Department of Biotechnology, School of Life Sciences, discussed the following agenda in the presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 5th Board of Studies (BOS) Meeting

Agenda: Revision and restructuring of the syllabus of the post graduate course (Annexure I) according to the National Education Policy.

Proposition: Revision and Restructuring of the Syllabus

Resolution: The board resolves to revise and restructure the post graduate syllabus (Annexure I) in accordance with the National Education Policy, ensuring contemporary relevance and global competency.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

Prepared By

Dr Pritha Pal
Assistant Professor & HOD, Department of Biotechnology, School of Life Sciences, Swami Vivekananda University

Attendance:

Member	*Signature*

Topics for Project/Dissertation for SEM-III & IV

1. Mushroom Hybrid Production & Cultivation Technology
2. Biofuel Production
3. Water Recycling and Irrigation
4. Microbial Technology
5. Bioprocess Technology
6. Enzymology
7. Metabolic Engineering
8. Plant Biotechnology
9. Molecular Breeding
10. Molecular Genetics
11. Economically Important Microbes and Applications
12. Industrial & Food Biotechnology
13. Animal Biotechnology
14. Nanobiotechnology
15. Cancer Genetics
16. Plant Diversity and Medicinal Applications
17. Plant Tissue Culture & Nursery Management
18. Bioengineering
19. Industrial Microbiology

Vice Chancellor
Swami Vivekananda University

20. Waste Management
21. Microbial Diversity
22. Entrepreneurship Development

Important features: Mandatory

1) Internal assessment and evaluation of each course will be made as per the University Standard.

Detail Syllabus of Semester - I

Course Name: Biomolecules
Course Code: MBTC101
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[4H]**

Concept of Chemical bonding: Forces involved in biological molecules, electrostatic, hydrophobic, H-bonding, van der wal's.

Module-II **[16H]**

Structure and Functions of Biomolecules and Macromolecules: Carbohydrates: mono, di- and polysaccharides. Lipids: classification; structure and function, their role in biological membranes. Proteins: chemistry of amino acids and peptides, chemical synthesis of peptides, Primary Secondary, Tertiary and Quaternary Structure of proteins; ∝-helix, β-sheet and collagen structure helix-coil transition, Ramachandran plots, amino acid sequences, allosteric interactions, cooperative ligand binding in Oxygen transporters,Hill equation, Protein folding. Nucleic acids: Watson-Crick model of DNA; sugar puckerings, stacking; B-; A-and ZDNA ; denaturation kinetics of DNA , Cot curves; structure of tRNA and ribosomes, Supercoiling of DNA and its influence on structure, Nucleosomal structure.

Module-III **[4H]**

Separation and purification of biomolecules and macromolecules: ion exchange, gel filtration, affinity chromatography, TLC, HPLC, GC, electrophoresis, electro-focusing.

Course Name: Biomolecules Lab
Course Code: MBTC191
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Determination of pH using digital pH meter
2. Molarity, normality calculation and buffer preparation
3. Qualitative and/or Quantitative estimation of carbohydrate
4. Qualitative and/or Quantitative estimation of proteins
5. Qualitative and/or Quantitative estimation of lipids
6. Qualitative and/or Quantitative estimation of Nucleic Acids
7. Saponification value
8. SDS-PAGE

Learning outcome:

1. Students will learn about the structural details of various important

Vice Chancellor
Swami Vivekananda University

2. Students will learn about different methods for the qualitative as well as quantitative analysis of biomolecules.

Course Name: Cell Biology
Course Code: MBTC102
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[5H]**

Membrane : membrane constituents- phospholipids, glycolipids, cholesterol, membrane proteins; receptors and phospholipases; Phospholipid bilayer- structure, asymmetry, fluid mozaic model of random diffusion of membrane components, domains in membranenatural and artificial membranes passive movements of solutes; membrane cytoskeleton.

Module-II **[10H]**

Transport: membrane transport of small molecules, carrier proteins and active membrane transport; ion channels; intracellular compartments and protein sorting; compartmentalization of cells;.transport of proteins into mitochondria and chloroplasts; peroxisomes; the endoplasmic reticulum. membrane anchorage of proteins. Vescicular traffic in the secretary and endocytic pathway; transport from the ER through the Golgi apparatus; transport from the Trans Golgi Network; Transport from Plasma membrane via Endosomes; endocytosis;transcytosis; transport from the Trans Golgi Network to the cell surface; Exocytosis; the molecular mechanisms of vesicular transport and maintenance of compartmental diversity.

Module-III **[2H]**

Cell signaling: signaling via G-protein-linked cell surface receptors; signaling via Enzyme-linked cell surface.

Module-IV **[2H]**

Cytoskeleton: The nature of cytoskeleton; Intermediate Filaments; Microtubules; Cilia and Centrioles.

Module-V **[2H]**

Cell cycle and cell division- general strategies of the cell cycle; yeast and molecular genetics of cell- cycle control; cell-division control in multicellular animals .

Module-VI **[3H]**

Methods of studying the cell surface: re-constitutional studies; fluorescence assisted methods e.g. flow cytometry; membrane active peptides;

Programme Structure 2021

(As per UGC CBCS Template)

Course Name: Cell Biology Lab
Course Code: MBTC192
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Subcellular fractionations of tissue by centrifugation,
2. Microscopy: Bright field, Phase Contrast & Fluorescence.
3. Animal tissue culture,
4. Cell counting,
5. Cell viability,
6. Cell cycle by flow cytometer,
7. Immunofluorescence by florescence microscope and confocal microscope

Learning outcome:

1. Students will learn about various cellular aspects of different living organisms.
2. Students will learn different techniques to study the cellular organization of the biotic components of life.

Course Name: MolecularBiology
Course Code: MBTC103
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[4H]**

DNA synthesis and their processing: General features and enzymology; detailed mechanisms of initiation, elongation and termination; experiments underlying each step and role of individual factors; telomerases: mechanism of replication, maintenance of integrity and role in cancer,

Module-II **[8H]**

DNA repair and recombination: factors affecting DNA bases, identification and molecular characterization of repair enzymes in photoreactivation, excision, recombination, and SOS pathways. recombination and transposition, models for homologous recombination- the Holliday, Meselson-Radding and RecBCD pathways and their experimental supports; meiotic recombination- mechanism, the double-stranded DNA breaks; site-specific recombination and transposition).

Module-III **[8H]**

RNA synthesis and their processing: RNA polymerase subunits, different sigma factors- related to stress, viral infections etc., initiation, elongation and terminat independent) of RNA synthesis; anti-termination, attenuation and

Vice Chancellor
Swami Vivekananda University

transnational apparatus on the process of transcription; eukaryotic promoters, enhancers, transcription factors, RNA polymerases; various protein motifs involved in DNA-protein interactions during transcription.

Module-IV **[4H]**

Protein synthesis and their processing: formation of initiation complex, initiation factors and regulation, elongation and elongation factors, termination, aminoacylation of tRNA, tRNA-identity, aminoacyl tRNA synthetase, and translational proof-reading, translational inhibitors, post-translational modification of proteins.

Learning outcome:

1. Students will learn about the central dogma of life, which are the main aspects of metabolism.
2. Students will learn about the molecular mechanism of synthesis of nucleic acids and proteins.

Course Name: Biophysical Chemistry & Instrumentation
Course Code: MBTC104
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[8H]**

Thermodynamics: extensive and intensive variables; mathematical description of a system with two or more variables, exact and partial differential; first law of thermodynamics, isothermal process, entropy and second law of thermodynamics, reversible and irreversible process, free energy and chemical potential; Gibb's free energy; Application of thermodynamics in biological systems.

Module-II **[8H]**

Spectroscopy Techniques: Principles and application following spectroscopy in biological systems: Absorption Spectroscopy (UV-visible), Fluorescence and Phosphorescence, Circular Dichroism (CD), Infrared spectroscopy (IR), Resonance Raman spectroscopy; Electron spin resonance (ESR),

Module-III **[8H]**

Instrumentation: Liquid Scintillation counter; pH meter; Ultracentrifuges, optical microscopy; phase, ultraviolet and interference microscope-their applications in cell biology; fluorescence microscope, confocal microscope, fluorescence activated cell sorter (FACS). Electron microscopy, scanning electron microscope, application of electron microscopy in cell and molecular biology; embedding and section cutting.

Learning outcome:

1. Students will learn about various techniques and instrumenta

Vice Chancellor
Swami Vivekananda University

application-based methods.

2. Students will learn about different applications of thermodynamics in biological systems.

Course Name: Enzymes & Reaction Kinetics

Vice Chancellor
Swami Vivekananda University

Course Code: MBTS101
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[4H]**

Introduction: Nomenclature, classification, general properties isoenzyme, active site, substrate, coenzyme, cofactor.

Module-II **[12H]**

Enzyme kinetics: single and two substrate kinetics, deviation from linear kinetics; ligand binding studies; rapid kinetics; association and dissociation constants; use of isotopes in enzyme kinetics mechanism analysis; effect of pH, temperature and isotopically labeled substrates on enzyme activity;

Module-III **[4H]**

Enzyme regulation: allosteric model, substrate induced conformational change in enzyme.

Module-IV **[4H]**

Enzyme inhibitors: competitive, un-competitive and non-competitive inhibitors.

Course Name: Enzymes & Reaction Kinetics Lab
Course Code: MBTS191
Contact: 2P
Credits: 2
Contact Hours: 48 Hours

1. Qualitative tests for enzyme detection
2. Effects of pH on enzyme activity
3. Effects of temperature on enzyme activity
4. Determination of Unknown enzyme concentration
5. Determination of optimum enzyme concentration to identify V_{max}
6. Determination of Km
7. Determination of Effects of inhibitors on enzyme
8. Determination of Effects Heavy metals on enzyme activity

Learning outcome:

1. Students will learn about different mechanism of enzyme kinetics.
2. Students will learn different regulatory mechanisms and modification systems related to enzyme activities and functions.

Vice Chancellor
Swami Vivekananda University

M.Sc. in Biotechnology

Programme Structure 2021

(As per UGC CBCS Template)

Course Name: Microbiology
Course Code: MBTS102
Contact: 2L

Credits: 2
Contact Hours: 24 Hours

Module-I **[6H]**

Microbial world: Discovery and importance of microorganism in Biotechnology Role of microorganisms in transformation of organic matter and in the causation of diseases. Distribution and classification of bacteria, fungi, anaerobes, cyan bacteria and protozoa. Cultivation, propagation and preservation of microorganisms, sterilization and disinfectants.

Module-II **[4H]**

Methods in Microbiology: Pure culture techniques; Theory and practice of sterilization, principles of Microbial nutrition: Construction of culture media. Maintenance of microbial cultures of biotechnological importance. Causes of culture degeneration.

Module-III **[4H]**

Microbial Growth: The definition of growth, mathematical expression of growth, growth curve, measurement of growth and growth yields; Synchronous growth; continuous culture; growth as affected environmental factors.

Module-IV **[4H]**

Bacterial cell structure and fine structure: Structure-function Cell walls of eubacteria (peptidoglycan) and related molecules, Outer-membrane of Gramnegative bactreria, Cell wall and cell membrane synthesis, Flagella and motility, Cell inclusions like endospores capsules, slime layer pili. Quorum sensing and biofilm formation.

Module-V **[2H]**

Microbial Taxonomy: New approach to bacterial taxonomy and classification including ribotyping and rRNA sequencing.

Module-VI **[2H]**

Host-Parasite Relationships: Normal micro flora of skin: oral cavity, gastrointestinal tract. Entry of pathogens into the host; Colonization and factors predisposing to infections, Types of toxic (Exo-Endo-Entero-) and their structure, Mode of actions.

Module-VII **[2H]**

Chemotherapeutic Antibiotics: Antimicrobial agents, Sulfa drugs. Antibiotics Penicillin and cephalosporins. Board-spectrum antibiotics, mode of action of important antibiotics. Resistance to antibiotics.

Course Name: Microbiology Lab
Course Code: MBTS192
Contact: 2P
Credits: 2
Contact Hours: 48 Hours

Vice Chancellor
Swami Vivekananda University

1. Preparation of liquid and solid media for growth of microorganism,
2. Isolation and maintenance of organism by plating, streaking and serial dilution methods,
3. Slant and stab cultures,
4. Storage of microorganism.
5. Isolation of pure cultures,
6. Growth curve,
7. Microscopic examination of bacteria, yeast and molds,
8. Gram stain,
9. Assay of Antibiotics,
10. Microbiological analysis of drinking water.

Learning outcome:

1. Students will learn about the different microorganisms and their classification.
2. Students will learn about various techniques to study the characteristics of various microorganisms.

Course Name: Seminar-I
Course Code: MBTS181
Contact: 4P
Credits: 4
Contact Hours: 48 Hours

Students will present PowerPoint presentation of any topic having good impact to improve their presentation skills.

	Total			**24**	**600**

Detail Syllabus of Semester - II

Course Name: Genetics
Course Code: MBTC201
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[2H]**

Mendelian principles: Dominance, segregation, independent assortment. Mendel's experiments, monohybrid and dihybrid cross; sexual vis-a-vis sexual reproduction; applications of chi square test; deviation from Mendelian segregation; linkage

Module-II **[1H]**

Concept of gene: Allele, multiple alleles, pseudoallele, complementation tests

Module-III

Vice Chancellor
Swami Vivekananda University

Extensions of Mendelian principles: Codominance, incomplete dominance, gene interactions, pleiotropy, genomic imprinting, penetrance and expressivity, phenocopy, linkage and crossing over, sex linkage, sex limited and sex influenced characters.

Module-IV **[3H]**
Gene mapping methods: Linkage maps, tetrad analysis, mapping with molecular markers, mapping by using somatic cell hybrids, development of mapping population in plants.

Module-V **[1H]**
DNA polymorphism in mapping; structure and function; polygenic inheritance.

Module-VI **[2H]**
Extra chromosomal inheritance: Inheritance of Mitochondrial and chloroplast genes, maternal inheritance.

Module-VII **[1H]**
Microbial genetics: Methods of genetic transfers – transformation, conjugation, transduction and sex-duction, mapping genes by interrupted mating, fine structure analysis of genes.

Module-VIII **[2H]**
Human genetics: Pedigree analysis, lod score for linkage testing, karyotypes, genetic disorders, DNA polymorphism in mapping; structure and function; polygenic inheritance.

Module-IX **[1H]**
Quantitative genetics: Polygenic inheritance, heritability and its measurements, QTL mapping.

Module-X **[2H]**
Mutation: Types, causes and detection, mutant types – lethal, conditional, biochemical, loss of function, gain of function, germinal verses somatic mutants, insertional mutagenesis.

Module-XI **[2H]**
Structural and numerical alterations of chromosomes: Deletion, duplication, inversion, translocation, ploidy and their genetic implications.

Module-XII **[4H]**
Techniques of studying Bacteriophages-virulent phage(T4) and Temperate phage (phage lambda). Important aspects of life cycles; phage genome and gene mapping; host parasite relationship, immunity and repression; site specific recombination (lambda and PI), Transposable phage (Phage Mu), genetic organization and transposition , Mu as a genetic tool.

Course Name: Genetics Lab
Course Code: MBTC291
Contact: 4P

Vice Chancellor
Swami Vivekananda University

Credits: 2
Contact Hours: 48 Hours

1. Conjugation,
2. Transaction,
3. Transposome

Learning outcome:

1. Students will learn about the different laws and principles of genetics.
2. Students will learn about the genetic mechanism of different mutations.

Course Name: Metabolism
Course Code: MBTC202
Contact: 2L

Credits: 2
Contact Hours: 24 Hours

Module-I **[3H]**
Carbon cycle, bioenergetics and metabolism.

Module-II **[7H]**
Carbohydrate metabolism: glycolysis, the citric acid cycle, the glyoxylate cycle, electron transport, oxidative phosphorylation and regulation of ATP production, the Cori Cycle, gluconeogenesis, glycogen metabolism and metabolism of different sugars.

Module-III **[7H]**
Membranes –its structure and role in ATP generation oxidative degradation of fatty acids and amino acids in animal tissues correlation between carbohydrate, amino acids and fatty and degradation,

Module-VI **[7H]**
Metabolism of nitrogen compounds protein turnover, metabolic regulation of enzymes, nitrogen fixation - mechanisms and control he nitrogen cycle as the source of cellular biosynthetic intermediates.

Course Name: Metabolism Lab
Course Code: MBTC292
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Estimation of cholesterol from blood,
2. Estimation of glucose from blood serum,

Vice Chancellor
Swami Vivekananda University

3. Alkaline phosphatase assay from blood serum,
4. Estimation of liver function test enzyme assay enzyme (SGPT & SGOT).

Learning outcome:

1. Students will learn about the metabolism of different important biomolecules.
2. Students will learn to estimate various biomolecules by different techniques.

Course Name: Recombinant DNA Technology
Course Code: MBTC203
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Vice Chancellor
Swami Vivekananda University

Module-I **[7H]**

Principles and methods of recombinant DNA technology- hybridization, cloning, sequencing, polymerase chain reaction, genome projects; gene manipulations; cloning in E.coli, plasmids, bacteriophages and cosmid vectors, cloning strategies, genomic and cDNA library; expression of cloned genes in E. coli, products made in E. coli by genetic engineering;

Module-II **[7H]**

Cloning in yeast: transformation in yeast, yeast vector development: Yep, YRp, YCp and YIp, 2m plasmid, yeast artificial chromosome (YAC), retrovirus like vector (Ty) in yeast/shuttle vector; features of yeast promoter and expression of cloned genes; yeast 2-hybrid system; plasmid shuffling to explore interactive domains of multimeric proteins; the cassette model for mating type switches and silencing of genes.

Module-III **[10H]**

Genetic engineering of plants: transformation of plants, manipulating gene expression in plants, selectable markers and reporter genes, Agrobacterium tumefaciens; Genetic elements present on the Ti plasmid, genetic engineering of the Ti plasmid, vectors used to introduce foreign DNA into plant cells- binary cloning vector, disarmed Ti plasmid, cointegrate cloning vector; comparison of methods for transfer of DNA to plants, manipulation of gene expression in plants; production of transgenic plants without reporter or marker genes

Course Name: Recombinant DNA Technology Lab
Course Code: MBTC293
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Isolation of plasmid DNA,
2. Transformation, restriction enzyme digestion, ligation ,
3. Southern blotting,
4. Northern blotting,
5. Overexpression of proteins,
6. PCR analysis,
7. Protein - DNA interactions.

Learning outcome:

1. Students will learn about the various aspects of recombinant DNA technology like cloning, sequencing etc.
2. Students will learn various techniques used to carry out the major biomolecule based reactions.

Course Name: Biostatistics

Vice Chancellor
Swami Vivekananda University

SWAMI VIVEKANANDA UNIVERSITY

Telinipara, Barasat-Barrackpore Road, Bara Kanthalia, WB - 700121

School of Life Sciences

M.Sc. in Biotechnology

Programme Structure 2021

(As per UGC CBCS Template)

Course Code: MBTC204
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[8H]**

Probability and statistics; population, variables, collection, tabulation and graphical representation of data, frequency distribution, central tendency and skewness, binomial,

Module-II **[8H]**

Poisson and Gaussian distributions, additive and multiplicative laws of probability, concept and correlation; regression;

Module-III **[8H]**

Methods of least squares; chi-square tests, random number generation- testing and use; probability density and cumulative distribution function; systematic and random sampling.

Learning outcome:

1. Students will learn various methods of statistics required to implement in the field of biology.
2. Students will learn the quantitative analysis of experimental data through biostatistical methods.

Course Name: Ecology and Environmental Studies
Course Code: MBTS201
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[4H]**

Introduction to environmental studies: Multidisciplinary nature of environmental studies; Scope and importance; Concept of sustainability and sustainable development.

Module-II **[3H]**

Ecology and Ecosystems: Concept of ecology and ecosystem, Structure and function of ecosystem; Energy flow in an ecosystem; food chains, food webs; Basic concept of population and community ecology; ecological succession. Characteristic features of the following: a) Forest ecosystem b) Grassland ecosystem c) Desert ecosystem d) Aquatic ecosystems (ponds, streams, lakes, wetlands, rivers, oceans, estuaries).

Vice Chancellor
Swami Vivekananda University

Module-III [5H]

Biodiversity and Conservation: Levels of biological diversity: genetic, species and ecosystem diversity; Biogeographic zones of India; Biodiversity patterns and global biodiversity hot spots, India as a mega-biodiversity nation; Endangered and endemic species of India,Threats to biodiversity: Habitat loss, poaching of wildlife, man-wildlife conflicts, biological invasions; Conservation of biodiversity: In-situ and Ex-situ conservation of biodiversity. Ecosystem and biodiversity services: Ecological, economic, social, ethical, aesthetic and Informational value.

Module-IV [3H]

Environmental Pollution:

Environmental pollution: concepts and types, Air, water, soil, noise and marine pollution-causes, effects and controls, Concept of hazards waste and human health risks • Solid waste management: Control measures of Municipal, biomedical and e-waste.

Module-V [4H]

Environmental Policies and Practices: Climate change, global warming, ozone layer depletion, acid rain and their impacts on human communities and agriculture Environment Laws: Wildlife Protection Act; Forest Conservation Act. Water (Prevention and control of Pollution) Act; Air (Prevention & Control of Pollution) Act; Environment Protection Act; Biodiversity Act. International agreements: Montreal Protocol, Kyoto protocol and climate negotiations; Convention on Biological Diversity (CBD). Protected area network, tribal populations and rights, and human wildlife conflicts in Indian context

Course Name: Immunology
Course Code: MBTS202
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I [8H]

Blood & Blood cells, Bone Marrow, Reticulo-Endothelial system & ABO Blood groups. Tissue fluid, Lymph, Lymphatics, Lymph nodes and Spleen. Cardiovascular System (Heart, ECG, Blood Pressure, Sino - Aortic mechanism, Regional & Capillary circulation.

Module-II [12H]

Immunoglobins, organization and expressions of Ig genes; B cell maturation, activation and differentiation; MHC/ HLA; antigen processing and presentation; T-cells, T-cell receptors, T-cell maturation, activation and differentiation; cytokines; cell mediated and humoral effector responses, auto immunity, immunodeficiency diseases, transplantation immunology, cancer and immune system.

Module-III [4H]

Monoclonal and polyclonal antibodies, monoclonal antibody technique.

Vice Chancellor
Swami Vivekananda University

SWAMI VIVEKANANDA UNIVERSITY

Telinipara, Barasat-Barrackpore Road, Bara Kanthalia, WB - 700121

School of Life Sciences

M.Sc. in Biotechnology

Programme Structure 2021

(As per UGC CBCS Template)

Course Name: Immunology Lab
Course Code: MBTS292
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Blood film preparation and identification of cells,
2. Determination of blood groups,
3. Immuno-electrophoresis,
4. Western Blotting (Immuno-blotting),
5. Immunostaining/Immunofluorescence,
6. ELISA,
7. Immunodiagnostics (using commercial kits)

Learning outcome:

1. Students will learn about various aspects of immune system and their mechanism of action.
2. Students will learn different techniques of immunology to study antigen-antibody inerations.

Course Name: Seminar-II
Course Code: MBTS281
Contact: 4P
Credits: 4
Contact Hours: 48 Hours

Students will present PowerPoint presentation of any topic having good impact to improve their presentation skills.

Detail Syllabus of Semester - III

Course Name: Genomics
Course Code: MBTC301
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[8H]**

Genomics: genetic and physical maps, physical mapping and map-based cloning, choice of mapping population, simple sequence repeat loci, southern and fluorescence in situ hybridization for genome analysis, chromosome microdissection,

Module-II **[8H]**

Molecular markers in genome analysis; RAPD and AFLP analysis, molecular markers linked to disease resistant genes, application of RFLP in forensic, disease prognosis, genetic counseling, pedigree, varietal etc. Genome sequencing: genome sizes, organelle genomes, genomic libraries, strategies for genome sequencing, packaging, transfectionand recovery of clones, application of sequence information for identification of defective genes.

Module-III **[8H]**

Pharmacogenetics, genetics of globin triplet repeat disorders, cancer genetics; immunogenetics; mapping of human genome; somatic cell genetics; DNA polymorphism in mapping; structure and function; biochemical genetics; polygenic inheritance, Microarray.

Course Name: Genomics Lab
Course Code: MBTC391
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. analyze assembly of sequences
2. analysis of sequences from already sequenced genomes to annotate promoter, ORF, analyse putative promoters
3. show them yeast two hybrid screen
4. arrangement with established facility to learn the process of sequencing and annotation

Learning outcome:

1. Students will learn about various aspects of genomics and its a
2. Students will learn about different techniques for proper analy

Vice Chancellor
Swami Vivekananda University

genome.

Course Name: Proteomics and Protein Engineering
Course Code: MBTC302
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[10H]**

Proteomics: Sample preparation, Gel-based proteomics - two-dimensional gel electrophoresis (2-DGE), two-dimensional fluorescence difference in-gel electrophoresis (DIGE), Staining methods, PF-2D, Tandem FPLC, Mass spectroscopy: basic principle, ionization sources, mass analyzers, different types of mass spectrometers (MALDI-TOF Q-TOF, LC-MS) Multidimensional proteomics: SELDI-TOF. Quantitative proteomics - stable isotope labeling by amino acids in cell culture (SILAC), isotope-coded affinity tag (ICAT), isobaric tagging for relative and absolute quantitation (iTRAQ); Label-free proteomics., Nuclear magnetic resonance spectroscopy (NMR), basic principles, chemical shift, spin-spin interaction, NOE, 2D-NMR, NOESY, COSEY.

Module-II **[6H]**

X-ray Crystallography: Principle of X-ray diffraction, scattering vector, structure factor, phase problem, reciprocal lattice and Ewald sphere, Miller indices, Zone axes, crystal lattice, Lane Equations, Bragg's law, special properties of protein crystals, model building, refinement and R-factor.

Module-III **[8H]**

Protein Engineering: Protein sources, Industrial and medical application of proteins, different expression of proteins for large scale purifications, protein engineering strategy, rational and random mutagenesis. Applications of protein engineering protein in Chemical and Medical Industries: Generation of heat stable, pH stable enzymes, application in vaccine development, drug development, sensor development.

Course Name: Proteomics and Protein Engineering Lab
Course Code: MBTC392
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Protein electrophoresis-1D+2D,
2. HPLC,
3. FPLC,
4. MALDI-TOF & LC-MS

Learning outcome:

Vice Chancellor
Swami Vivekananda University

1. Students will learn about different aspects of proteomics and its applications.
2. Students will learn about various techniques for protein estimation.

Course Name: Biological Imaging
Course Code: MBTE301A
Contact: 4L
Credits: 4
Contact Hours: 48 Hours

Module-I **[10H]**

Widefield fluorescent microscopy: One of the most basic techniques for live-cell imaging is widefield fluorescent microscopy. Standard inverted research grade microscopes can yield valuable results if you are imaging adherent cells, large regions of interest (such as organelles) or very thin tissue sections (less than 5 micrometer). In widefield, a CCD camera is usually used to capture images and the epi-fluorescence illumination source can be a mercury lamp, xenon lamp, LED's, etc. Each of light sources require carefully matched interference filters for specific excitation and emission wavelengths of your fluorophore of interest. With widefield microscopy, your specimen is only exposed to excitation light for relatively short time periods as the full aperture of emission light is collected by the objectives. Widefield fluorescence microscopy can be used in combination with other common contrast techniques such as phase contrast and differential interference contract (DIC) microscopy. This combination is useful when performing live-cell imaging to examine general cell morphology or viability while also imaging regions of interest within cells.

Module-II **[10H]**

Confocal laser scanning microscopy (CLSM): CLSM has ability to eliminate out-of-focus light and information. It is also possible to obtain optical serial sections from thicker specimens. A conjugate pinhole in optical path of confocal microscope prevents fluorescence from outside of focal plane from being collected by photomultiplier detector or imaged by camera. In CLSM, a single pinhole (and single focused laser spot) is scanned across specimen by scanning system. This spot forms a reflected epi-fluorescence image back on original pinhole. When specimen is in focus, fluorescent light from it passes through pinhole to detector. Any out-of-focus light is defocused at pinhole and very little of this signal passes through to detector meaning that background fluorescence is greatly reduced. The pinhole acts as a spatial filter for emission light from the specimen.

Module-III **[10H]**

Spinning disc confocal microscopy (SDCM): This method utilises a 'Nipkow Disc' which is a mechanical opaque disc which has a series of thousands of drilled or etched pinholes arranged in a spiral pattern. Each illuminated pinhole on disc is imaged by microscope objective to a diffraction-limited spot on region of interest on specimen. The emission from fluorophores passes back though Nipkow disc pi observed and captured by a CCD camera. The effect of spinning

Vice Chancellor
Swami Vivekananda University

thousands of points on specimen are simultaneously illuminated. Using SDCM to examine a specimen means that real-time imaging (30-frames-per-second or faster) can be achieved, which is extremely useful if you are looking at dynamic changes within living cells over a wide spectrum of time-scales.

Module-IV **[8H]**

Light-sheet fluorescence microscopy (LSFM, or SPIM): This method enables one to perform live-cell imaging on whole embryos, tissues and cell spheroids in vivo in a gentle manner with high temporal resolution and in three dimensions. One is able to track cell movement over extended periods of time and follow development of organs and tissues on a cellular level. The next evolution of light-sheet fluorescence microscopy, termed lattice light-sheet microscopy as developed by Eric Betzig (Nobel Prize Laureate 2014 for PALM super-resolution microscopy) will even allow live-cell imaging with super-resolved in vivo cellular localization capabilities.

Module-V **[6H]**

Super-resolved fluorescence microscopy: Super-Resolution in a Standard Microscope: From Fast Fluorescence Imaging to Molecular Diffusion Laws in Live Cells; Photoswitching Fluorophores in Super Resolution Fluorescence Microscopy; Image Analysis for Single-Molecule Localization Microscopy Deconvolution of Nanoscopic Images; Super-Resolution Fluorescence Microscopy of the Nanoscale Organization in cells; Correlative Live-Cell and SuperResolution Microscopy and Its Biological Applications; SAX Microscopy and Its Application to Imaging of 3D-Cultured Cells; Quantitative Super-Resolution Microscopy for Cancer Biology and Medicine.

Module-VI **[4H]**

Re-scan confocal microscopy: Structured Illumination Microscopy; Correlative Nanoscopy: AFM Super-Resolution (STED/STORM); Stochastic Optical Fluctuation Imaging.

Learning outcome:

1. Students will learn about various imaging techniques for characterization of biomolecules.
2. Students will learn various methods for studying morphology and other details of various biomolecules.

Course Name: Computational Biology
Course Code: MBTE301B
Contact: 4L
Credits: 4
Contact Hours: 48 Hours

Module-I

Introduction to computational biology basics and biological datab

Vice Chancellor
Swami Vivekananda University

biology and medicine; Overview of biological databases, nucleic acid & protein databases, primary, secondary, functional, composite, structural classification database, Sequence formats & storage, Access databases, Extract and create sub databases, limitations of existing databases.

Module-II **[8H]**

Pairwise and multiple sequence alignments: Local alignment, Global alignment, Scoring matrices - PAM, BLOSUM, Gaps and penalties, Dot plots. Dynamic programming approach: Needleman and Wunsch Algorithm, Smith and Waterman Algorithm, Hidden Markov Model: Viterbi Algorithm. Heuristic approach: BLAST, FASTA. Building Profiles,Profile based functional identification.

Module-III **[12H]**

Genome analysis: Polymorphisms in DNA sequence, Introduction to Next Generation Sequencing technologies, Whole Genome Assembly and challenges, Sequencing and analysis of large genomes, Gene prediction, Functional annotation, Comparative genomics, Probabilistic functional gene networks, Human genome project, Genomics and crop improvement. Study available GWAS, ENCODE, HUGO projects, extract and build sub databases; Visualization tools including Artemis and Vista for genome comparison; Functional genomics case studies.

Module-IV **[4H]**

Structure visualization: Retrieving and drawing structures, Macromolecule viewing platforms, Structure validation and correction, Structure optimization, Analysis of ligand-protein interactions; Tools such as PyMol or VMD.

Module-V **[8H]**

Molecular modelling: Significance and need, force field methods, energy, buried and exposed residues; side chains and neighbours; fixed regions; hydrogen bonds; mapping properties onto surfaces; RMS fit of conformers and protein chains, assigning secondary structures; sequence alignment: methods, evaluation, scoring; protein curation: backbone construction and side chain addition; different types of protein chain modelling: ab initio, homology, hybrid, loop; Template recognition and alignments; Modelling parameters and considerations; Model analysis and validation; Model optimization; Substructure manipulations, annealing, protein folding and model generation; loop generating methods; loop analysis; Analysis of active sites using different methods in studying protein–protein interactions.

Module-VI **[6H]**

Structure-based drug development: Molecular docking: Types and principles, Semi-flexible docking, Flexible docking; Ligand and protein preparation, Macromolecule and ligand optimization, Ligand conformations, Clustering, Analysis of docking results and validation with known information. Extraprecision docking platforms. Use of Small-molecule libraries, Natural compound libraries for virtual high throug

Vice Chancellor
Swami Vivekananda University

Module-VII **[4H]**

Ligand-based drug development: Quantitative structure activity relationships; Introduction to chemical descriptors like 2D, 3D and Group-based; Radar plots and contribution plots and Activity predictions, Pharmacophore modeling, Pharmacophore-based screenings of compound library, analysis and experimental validation.

Learning outcome:

1. Students will learn various structure-function study of various biomolecules.
2. Students will learn different bioinformatic tools to perform sequence analysis and phylogenetic tree analysis.

Course Name: Drug Discovery & Development
Course Code: MBTE302A
Contact: 4L
Credits: 4
Contact Hours: 48 Hours

Module-I **[10H]**

Target identification and molecular modelling: Identification of target or drug leads associated with a particular disease by a number of different techniques including combinations of molecular modeling, combinatorial libraries and high-throughput screening (HTS); Conceptualizing the automation of the HTS process and the importance of bioinformatics and data processing in identification of lead compounds; Rational drug design, based on understanding the three-dimensional structures and physicochemical properties of drugs and receptors; Modelling drug/ receptor interactions with the emphasis on molecular mechanisms, molecular dynamics simulations and homology modelling; Conformational sampling, macromolecular folding, structural bioinformatics, receptor-based and ligand-based design and docking methods, in silico screening of libraries, semi-empirical and ab-initio methods, QSAR methods, molecular diversity, design of combinatorial libraries of drug-like molecules, macromolecular and chemical databases.

Module-II **[8H]**

Lead optimization: Identification of relevant groups on a molecule that interact with a receptor and are responsible for biological activity; Understanding structure activity relationship; Structure modification to increase potency and therapeutic index; Concept of quantitative drug design using Quantitative structure–activity relationship models (QSAR models) based on the fact that the biological properties of a compound are a function of its physicochemical parameters such as solubility, lipophilicity, electronic effects, ionization, stereochemistry, etc.; Bioanalytical assay development in support of in vitro and in vivo studies (LC/MS/MS, GC/MS and ELISA).

Module-III

Preclinical development: Principles of drug absorption, dru

Vice Chancellor
Swami Vivekananda University

distribution - intestinal absorption, metabolic stability, drug-drug interactions, plasma protein binding assays, metabolite profile studies, Principles of toxicology, Experimental design for preclinical and clinical PK/PD/TK studies, Selection of animal model; Regulatory guidelines for preclinical PK/ PD/TK studies; Scope of GLP, SOP for conduct of clinical & non clinical testing, control on animal house, report preparation and documentation Integration of non-clinical and preclinical data to aid design of clinical studies.

Module-IV **[6H]**

Drug manufacturing: Requirements of GMP implementation, Documentation of GMP practices, CoA, Regulatory certification of GMP, Quality control and Quality assurance, concept and philosophy of TQM, ICH and ISO 9000; ICH guidelines for Manufacturing, Understanding Impurity Qualification Data, Stability Studies.

Module-V **[6H]**

Clinical trial design: Objectives of Phase I, II, III and IV clinical studies, Clinical study design, enrollment, sites and documentation, Clinical safety studies: Adverse events and adverse drug reactions, Clinical PK, pharmacology, drug-drug interaction studies, Statistical analysis and documentation.

Module-VI **[10H]**

Fundamentals of regulatory affairs and bioethics: Global Regulatory Affairs and different steps involved, Regulatory Objectives, Regulatory Agencies; FDA guidelines on IND and NDA submissions, Studies required for IND and NDA submissions for oncology, HIV, cardiovascular indications, On-label vs. off-label drug use GCP and Requirements of GCP Compliance, Ethical issues and Compliance to current ethical guidelines, Ethical Committees and their set up, Animal Ethical issues and compliance.

Learning outcome:

1. Students will learn about various aspects of drug discovery and development.
2. Students will study various clinical trial designs and clinical safety designs.

Course Name: Environmental Biotechnology
Course Code: MBTE302B
Contact: 4L
Credits: 4
Contact Hours: 48 Hours

Module-I **[10H]**

Introduction to environment: Introduction to environment; pollution and its control; pollution indicators; waste management: domestic, industrial, solid and hazardous wastes; strain improvement; Biodiversity and its conservation; Role
in geochemical cycles; microbial energy metabolism, microbial gr
elementary chemostat theory, relevant microbiological processes, mi

Vice Chancellor
Swami Vivekananda University

Module-II **[8H]**

Bioremediation: Bioremediation: Fundamentals, methods and strategies of application (biostimulation, bioaugmentation) – examples, bioremediation of metals (Cr, As, Se, Hg), radionuclides (U, Te), organic pollutants (PAHs, PCBs, Pesticides, TNT etc.), technological aspects of bioremediation (in situ, ex situ).

Module-III **[8H]**

Role of microorganism- isms in bioremediation: Application of bacteria and fungi in bioremediation: White rot fungi vs specialized degrading bacteria: examples, uses and advantages vs disadvantages; Phytoremediation: Fundamentals and description of major methods of application (phytoaccumulation, phytovolatilization, rhizofiltration phytostabilization).

Module-IV **[10H]**

Biotechnology and agriculture: Bioinsecticides: Bacillus thuringiensis, Baculoviruses, uses, genetic modifications and aspects of safety in their use; Biofungicides: Description of mode of actions and mechanisms (e.g. Trichoderma, Pseudomonas fluorescens); Biofertilizers: Symbiotic systems between plants – microorganisms (nitrogen fixing symbiosis, mycorrhiza fungi symbiosis), Plant growth promoting rhizobacteria (PGPR) – uses, practical aspects and problems in application.

Module-V **[12H]**

Biofuels: Environmental Biotechnology and biofuels: biogas; bioethanol; biodiesel; biohydrogen; Description of the industrial processes involved, microorganisms and biotechnological interventions for optimization of production; Microbiologically enhanced oil recovery (MEOR); Bioleaching of metals; Production of bioplastics; Production of biosurfactants: bioemulsifiers; Paper production: use of xylanases and white rot fungi.

Learning outcome:

1. Students will learn various biotechnological application related to environment.
2. Students will study different principles of important processes related to environment like biodegradation, biofuels etc.

Course Name: Summer Project
Course Code: MBTS381
Contact: 8P
Credits: 4
Contact Hours: 96 Hours

Students will submit the project proposal and synopsis to the de
project coordinator. Initial classes will be on selection of topic

Vice Chancellor
Swami Vivekananda University

template for project proposal writing etc. Students may start actual lab/theory work in due course.

Course Name: Seminar-III
Course Code: MBTS382
Contact: 8P
Credits: 4
Contact Hours: 48 Hours

Students will present PowerPoint presentation of any topic having good impact to improve their presentation skills.

Detail Syllabus of Semester - IV

Course Name: Medical Biotechnology, IPR, Bio-safety and Bioethics
Course Code: MBTC401
Contact: 4L

Credits: 4
Contact Hours: 48 Hours

Module-I **[10H]**

Disease diagnosis-probe: PCR, LCR immunological assay. Detection of genetic, Neurogenetic disorders involving Metabolic and Movement disorders. Treatmentproducts from recombinant and non-recombinant organisms, Interferons, Antisense therapy, cell penetrating peptides, Gene therapy, Types of gene therapy, somatic virus germline gene therapy, mechanism of gene therapy, Immunotherapy, Detection of mutations in neoplastic diseases MCC, SSCP, DGGE, PTTC.

Module-II **[8H]**

Animal Biotechnology: Development Biology; fertilization and organogenesis, Stem cells; potency and differentiation, different signaling for development, Morphogenesis in different model systems, Cloning; Transgenic and knockout systems. Animal cell Culture methods.

Module-III **[12H]**

Virology: Classification and modes of propagation; bacterial, plant and animal viruses: morphology and ultrastructure; assay of viral particles, cell culture;viral enzymes, nucliec acids, DNA viruses: Herpes, Hepatitis B, Adeno virus; RNA viruses: Polio, VSV, Influenza, Retroviruses: Structure, life cycle, transformation; TMV, Baculoviruses,; Response to viral infections: slow and persistent infections, Antiviral agents, Interferons.

Module-IV **[6H]**

Economics, Biosafety. Patent rights and Special Topics Biotechnology R & D and industry: Business aspects of biotechnology, research and market place, Finance and human resources: Intellectual property right: patents, R & D partnership, license agreement and joint venture

Module-V **[12H]**

Innovation Management: Technology transfer tools, Industry-Academia collaborations, Bio-incubators, Bio-accelerators, Finishing schools.; Bioethics: Role of bioethics in research. Prevention and management of plagiarism, fabrication/manipulation of data conflict of interest, socio-cultural and behavioral conflicts duri research. Authorship & patenting/commercial rights and conflict

Vice Chancellor
Swami Vivekananda University

governing research related to animals and humans. Biosafety: Prevention and management of chemical and biological hazards associated with research. Evaluation and interpretation of data sheets, labels etc. for pre-assessment of biological and chemical hazards.

Learning outcome:

1. Students will learn different principles of bioethics and biosafety.
2. Students will learn various methods of disease diagnosis and management.

Course Name: Bioprocess Engineering & Microbial Technology
Course Code: MBTC402
Contact: 4L
Credits: 4
Contact Hours: 48 Hours

[14H]

Module-I

Introduction to Bioprocess Engineering: Bioreactors and membrane Bioreactors and Membrane Bioreactors, Isolation Preservation and Maintenance of Industrial Microorganisms, Kinetics of microbial growth and death, Media and medial sterilization for Industrial Fermentation, Air quality Management and Air sterilization, Types of fermentation processes. Analysis of batch, Fedbatch and continuous bioreactors, stability of microbial reactors, analysis of mixed microbial populations, specialized bioreactors (pulsed fluidized, photobioreactors etc). Fermentation kinetic and monitoring, Measurement and control of bioprocess parameters.

[20H]

Module-II

Downstream processing: Introduction, Removal of microbial cells and solid matter, foam reparation, precipitation, filtration, centrifugation, cell disruptions, liquid-liquid extraction, chromatography, membrane process. Drying and crystallization, Effluent treatment D.O.C. and C.O.D. treatment and disposal of effluents. Whole cell Immobilization and their Industrial Applications, Immobilized enzymes in aqueous and non-aqueous media, bioconversion and Biotransformation. Industrial Production of chemicals: Alcohol (ethanol). Acids (citric, acetic and gluconic), Solvents (glycerol, acetone, butanon), Antibiotics (penicillin, streptomycinl, tetracy6cline), microlodes, anticancer antibiotic, Amino acids (lysine, glutamic acid), Single Cell Protein, single Cell Lipids. Use of microbes in mineral beneficiation and oil recovery. Introduction to Food technology elementary idea of canning and packin-Fat-Based Edible products, Sterilization and Pasteurization of food Products. Fast-based Nutraceuticals Technology of Typical Food/ food products (bread, cheese, idli, Agro-products (oilseeds) Food preservation, Food colors, Flavors, and Antioxidants. Introduction to Bioprocesses Technology, Hydrogenation, Oxidation, Esterification, Polymerization. Introduction of Microbial Biotechnology-Fine Chemicals (e.g. Biosurfactants, Sp
chemicals (Fatty acids, Glycerol, Methol-petrochemicals-perfum

Vice Chancellor
Swami Vivekananda University

and pharmaceuticals.

Module-III **[14H]**

Biology of Industrial Microorganisms: (Saccharomyces, Aspergillus, penicillia, spore forming bacteria etc); Idea of Fermentation, Cell growth, Regulation of Metabolism, Substrate Assimilation/Product Secretion.; Different fermentative system; Batch and Continuous Process, Fermentor Design, Surface and submerged liquid substrate fermentation; Solid Substrate Fermentations, Fermentation raw materials, Downstream processing, Bio-mass production (alcohol, lactic acid, cheese making, bread making, soya based foods, meat fermentation, vinegar, industrial chemical, bio-polymer, bioinsecticides, food additive (amino acids, nucleosides, vitamins, fats and oils), health care products (antibiotics, steroids, vaccines), Production of Industrial solvents (alcohol, acetone, butanol etc.); Industrial Enzymes (amylase, proteases, lipases), concepts of immobilized enzymes.

Learning outcome:

1. Students will learn about different principles and methods of bioprocess control and engineering.
2. Students will learn various mechanisms and principles of microbial technology.

Course Name: Plant Biotechnology
Course Code: MBTS401
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I **[6H]**

Plant cell tissue and organ cultures: Introduction to cell and tissue culture techniques; tot potency; Morphogenesis in vitro; Organogenesis and somatic embryogenesis; Micropropagation and clonal propagation. Synthetic seeds; Germplasm preservation in vitro; Production of haploids and triploids (anther, microspore and endosperm culture); Protoplast culture and somatic hybridization; nuclear and cytoplasmic hybrids. Somaclonal variation in plant cell culture and regenerated plants; Cryopreservation and germplasm conservation

Module-II **[10H]**

Transgenic plant technology: Gene transfer (vertical) by classical methods; horizontal gene transfer; methods of genetic transformation in plants; methods of nuclear transformation; Organelle transformation; advantages; Direct transformation of plant systems using physical methods; Agrobacterium mediated p
manipulating gene expression in plants, selectable markers

Vice Chancellor
Swami Vivekananda University

Agrobacterium tumefaciens; Genetic elements present on the Ti plasmid, genetic engineering of the Ti plasmid, vectors used to introduce foreign DNA into plant cellsbinary cloning vector, disarmed Ti plasmid, cointegrate cloning vector; comparison of methods for transfer of DNA to plants, manipulation of gene expression in plants; production of transgenic plants without reporter or marker genes.

[8H]

Module-III

Application of plant transformation for productivity and performance: Herbicide resistance; Insect resistance; Bt genes; long shelf life of fruits and flowers; molecular farming, benefits and risks; Transgene stability and gene silencing, Strategies to avoid gene silencing and improve gene expression in transgenic plants; ethics and plant genetic engineering; metabolic engineering and industrial products; plant secondary metabolites, control mechanisms and manipulations of phenylpropanoid pathway; alkaloids etc.

Course Name: Plant Biotechnology Lab
Course Code: MBTS491
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Basic techniques in plant cell, tissue and organ culture;
2. Excised embryo culture;
3. Organogenesis and somatic embryogenesis.
4. Stages of micro propagation.
5. Callus and cell suspension culture;
6. Isolation and culture of protoplasts;
7. Basic techniques in genetic transformation in plants;
8. Transformation with wild type and disarmed strains of Agrobacterium.

Learning outcome:

1. Students will learn different principles of plant transformation and its applications.
2. Students will learn different techniques of plant biotechnology.

Course Name: Bioinformatics
Course Code: MBTS402
Contact: 2L
Credits: 2
Contact Hours: 24 Hours

Module-I

Concept of homology, paralogy, orthology, analogy and xenology

Vice Chancellor
Swami Vivekananda University

Module-II **[8H]**

Comparison of sequences of biological macromolecules – Pairwise alignment: local and global alignment; Concept of indel, affine gap penalty; Database search algorithm, significance of hits, Karlin Altschul equation; Multiple sequence alignment, concept of consensus, interpretation with regular expression, concept of protein profile and PSSM, algorithm of PSI-BLAST

Module-III **[6H]**

Concept of tree, reading and interpreting phylogenetic trees, distance-based and character-based methods for the construction of phylogenetic trees, judging strength of clades (with BS or PP values) in a tree.

Module-IV **[4H]**

Kyte-Doolittle plot and Hopp-Woods plot- prediction of localization of a protein, prediction of TMD

Module-V **[4H]**

Secondary, tertiary and quaternary structure prediction –concept of propensity in ChouFasman method; Homology modeling, threading and ab initio method; Docking – rigid and flexible, protein-protein and protein-ligand.

Course Name: Bioinformatics Lab
Course Code: MBTS492
Contact: 4P
Credits: 2
Contact Hours: 48 Hours

1. Pairwise alignment- local and global alignment using Smith-Waterman and Needleman-Wunsch algorithm respectively. Comparison of the results with reference to percentage identity, percentage gaps.
2. Comparison of the different BLOSUM matrices.
3. Cross dot plot to identify regions of similarity/identity and self-dot plot to identify repeats.
4. Two BLAST searches - one using a house keeping protein and another using a rare protein and comparison of the results.
5. Study of the CATH and SCOP database to write a report followed by classification of a given protein.
6. Hydropathy plot of a globular and a membrane protein followed by a comparison of the two plots
7. Identification of consensus sequence through multiple sequence alignment
8. Using the multiple sequence alignment for the construction of phylogenetic tree

Vice Chancellor

Agenda
1. Introduction of a 4-year Undergraduate honors course for the students of UG Biotechnology Semester IV (National Education Policy 2020).

Dr Pritha Pal, HOD, Department of Biotechnology, School of Life Sciences, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda: Introduction of a 4-year Undergraduate honors course for the students of UG Biotechnology Semester IV (National Education Policy 2020).

Proposition: Introduction of a 4-year Undergraduate Honors Course

Resolution: The board resolves to introduce a 4-year Undergraduate Honors course for UG Biotechnology Semester II students, aligning with the National Education Policy 2020, to enhance interdisciplinary learning and research opportunities.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Date: 04/12/2024
Enclosure: Course Structure and Detailed NEP syllabus

Vice Chancellor
Swami Vivekananda University

UG Biotechnology, Semester IV – NEP Syllabus

Category	Subject Name	Subject Code	Subject Credit
Major	Immunology	BBT4011	3
	Immunology Lab		1
	Recombinant DNA Technology	BBT4012	3
	Recombinant DNA Technology Lab		1
Minor	Bioinformatics	BBT4021	3
	Bioinformatics Lab		1
Skill Enhancement Course	SEC: Drug Designing & Development	BBT4051	3

Course Name: Immunology
Course Code: BBT4011

Module-I: [20H]
Immune Response - An overview, components of mammalian immune system, molecular structure of Immuno-globulins or Antibodies, Humoral & Cellular immune responses, Tlymphocytes & immune response (cytotoxic T-cell, helper T-cell, suppressor T-cells), T-cell receptors, genome rearrangements during B-lymphocyte differentiation, Antibody affinity maturation class switching, assembly of T-cell receptor genes by somatic recombination.

Module-II: [15H]
Regulation of immunoglobulin gene expression – clonal selection theory, allotypes & idiotypes, allelic exclusion, immunologic memory, heavy chain gene transcription, genetic basis of antibody diversity, hypotheses (germ line & somatic mutation), antibody diversity.

Module-III: [13H]
Major Histocompatibility complexes – class I & class II MHC antigens, antigen processing. Immunity to infection – immunity to different organisms, pathogen defense strategies, avoidance of recognition. Autoimmune diseases, Immunodeficiency-AIDS.

Module-IV: [12H]
Vaccines & Vaccination – adjuvants, cytokines, DNA vaccines, recombinant vaccines, bacterial vaccines, viral vaccines, vaccines to other infectious agents, passive & active immunization. Introduction to immunodiagnostics – RIA, ELISA.

Course Name: Immunology
Course Code: BBT4011

1. Differential leucocytes count
2. Total leucocytes count
3. Total RBC count
4. Haemagglutination assay
5. Haemagglutination inhibition assay
6. Separation of serum from blood
7. Double immunodiffusion test using specific antibody and antigen.
8. ELISA.

Vice Chancellor
Swami Vivekananda University

Learning outcomes

1. This course offers immunological processes in living organisms and the regulation of immunoglobulin gene expression.
2. This course makes you expertise in lot of techniques related to immune assay experiments.

Course Name: Recombinant DNA Technology
Course Code: BBT4012

Module-I: [15H]

Molecular tools and applications- restriction enzymes, ligases, polymerases, alkaline phosphatase. Gene Recombination and Gene transfer: Transformation, Episomes, Plasmids and other cloning vectors (Bacteriophage-derived vectors, artificial chromosomes), Microinjection, Electroporation, Ultrasonication, Principle and applications of Polymerase chain reaction (PCR), primer-design, and RT- (Reverse transcription) PCR.

Module-II: [20H]

Restriction and modification system, restriction mapping. Southern and Northern hybridization. Preparation and comparison of Genomic and cDNA library, screening of recombinants, reverse transcription. Genome mapping, DNA fingerprinting, Applications of Genetic Engineering Genetic engineering in animals: Production and applications of transgenic mice, role of ES cells in gene targeting in mice, Therapeutic products produced by genetic engineering-blood proteins, human hormones, immune modulators and vaccines (one example each).

Module-III: [10H]

Random and site-directed mutagenesis: Primer extension and PCR based methods of site directed mutagenesis, Random mutagenesis, Gene shuffling, production of chimeric proteins, Protein engineering concepts and examples (any two).

Module-IV: [15H]

Genetic engineering in plants: Use of Agrobacterium tumefaciens and A. rhizogenes, Ti plasmids, Strategies for gene transfer to plant cells, Direct DNA transfer to plants, Gene targeting in plants, Use of plant viruses as episomal expression vectors.

Course Name: Recombinant DNA Technology Lab
Course Code: BBT4012

1. Isolation of chromosomal DNA from plant cells
2. Isolation of chromosomal DNA from E. coli
3. Qualitative and quantitative analysis of DNA using spectrophotometer
4. Plasmid DNA isolation
5. Restriction digestion of DNA
6. Making competent cells
7. Transformation of competent cells.
8. Demonstration of PCR.

Learning outcomes

1. This course offers knowledge on various techniques related to Genetic engineering.

Vice Chancellor
Swami Vivekananda University

2. This course makes you expertise in molecular tools and applications related to recombinant technology.

Suggested Reading

1. Brown TA. (2006). Gene Cloning and DNA Analysis. 5th edition. Blackwell Publishing, Oxford, U.K.
2. Clark DP and Pazdernik NJ. (2009). Biotechnology-Applying the Genetic Revolution. Elsevier Academic Press, USA.
3. Glick, B.R., Pasternak, J.J. (2003). Molecular Biotechnology- Principles and Applications of recombinant DNA. ASM Press, Washington
4. Primrose SB and Twyman RM. (2006). Principles of Gene Manipulation and Genomics, 7th edition. Blackwell Publishing, Oxford, U.K.
5. Sambrook J, Fritsch EF and Maniatis T. (2001). Molecular Cloning-A Laboratory Manual. 3rd edition. Cold Spring Harbor Laboratory Press.

Course Name: Bioinformatics
Course Code: BBT4021

Module-I: [10H]
History of Bioinformatics. The notion of Homology. Sequence Information Sources, EMBL, GENBANK, Entrez, Unigene, Understanding the structure of each source and using it on the web.

Module-II: [20H]
Protein Information Sources, PDB, SWISSPROT, TREMBL, Understanding the structure of each source and using it on the web. Introduction of Data Generating Techniques and Bioinformatics problem posed by them- Restriction Digestion, Chromatograms, Blots, PCR, Microarrays, Mass Spectrometry.

Module-III: [20H]
Sequence and Phylogeny analysis, Detecting Open Reading Frames, Outline of sequence Assembly, Mutation/Substitution Matrices, Pairwise Alignments, Introduction to BLAST, using it on the web, Interpreting results, Multiple Sequence Alignment, Phylogenetic Analysis.

Module-IV: [10H]
Searching Databases: SRS, Entrez, Sequence Similarity Searches-BLAST, FASTA, Data Submission. Genome Annotation: Pattern and repeat finding, Gene identification tools.

Course Name: Bioinformatics Lab
Course Code: BBT4021

1. Sequence information resource
2. Understanding and use of various web resources: EMBL, Genbank, Entrez, Unigene, Protein information resource (PIR)
3. Understanding and using: PDB, Swissprot, TREMBL
4. Using various BLAST and interpretation of results.
5. Retrieval of information from nucleotide databases.
6. Sequence alignment using BLAST.

Vice Chancellor
Swami Vivekananda University

7. Multiple sequence alignment using ClustalW.

Learning outcomes

1. This course offers knowledge on various tools and Databases related to Bioinformatics.
2. This course makes you expertise in molecular phylogeny and sequence comparison.

Suggested Reading:

1. Ghosh Z. and Bibekanand M. (2008) Bioinformatics: Principles and Applications. Oxford University Press.
2. Pevsner J. (2009) Bioinformatics and Functional Genomics. II Edition. WileyBlackwell.
3. Campbell A. M., Heyer L. J. (2006) Discovering Genomics, Proteomics and Bioinformatics. II Edition. Benjamin Cummings.

Course Name: SEC: Drug Designing & Development
Course Code: BBT4051

Module I [10H]

Introduction to The Drug Discovery/Development: Drug Discovery, Drug Development, Source of Drugs.

Module II [15H]

Approaches to New Drug Discovery: Drugs Derived from Natural Products, Existing Drugs as a Source for New Drug Discovery, Using Disease Models as Screens for New Drug Leads, Physiological Mechanisms: the Modern "Rational Approach" to Drug Design.
Approaches to Lead Optimization:

1. Bioisosteric replacement
2. Conformation restriction
   a. Increase selectivity, b. Increase affinity
3. Pharmacophore
4. Molecular dissection
5. Metabolic stabilization

Module III [10H]

Enzymes as Targets of Drug Design: Enzyme kinetics, Enzyme inhibition and activation, Approaches to the Rational Design of Enzyme Inhibitors.

Module IV [10H]

Receptors as Targets of Drug Design: Receptor Theory, Receptor Complexes and Allosteric Modulators, Second and Third Messenger Systems, Molecular Biology of Receptors, Receptor Models and Nomenclature, Receptor Binding Assays, Lead Compound Discovery of Receptor agonists and antagonists.

Module V [10H]

Prodrug Design and Applications: Definition, Applications, Prodrug Design Considerations, Prodrug Forms of Various Functional Groups, Ester prodrugs of compounds containing –COOH or –OH, Prodrugs of compounds containing amides Drug release and activation mechanisms:

1. Simple one-step activation
2. Cascade release/activation systems

Vice Chancellor
Swami Vivekananda University

Learning outcomes

1. This course offers general characteristics of drug designing and drug discovery.
2. This course makes you expertise in Rational Design of Enzyme Inhibitors, Computer-aided drug designing methods.

Vice Chancellor
Swami Vivekananda University

SWAMI VIVEKANANDA UNIVERSITY
SCHOOL OF LIFE SCIENCE
DEPARTMENT OF BIOTECHNOLOGY

Meeting Name: **Board of Studies**	Venue: **NND Block, Room No. 206**	Date: **06.06.2025**
Convenor: **Dr Pritha Pal**	Start time: **10:00 AM**	End time: **2:00 PM**

Attendees	
Dr. Pritha Pal (Chairman, BoS)	
Prof. Nimai Chandra Saha, Director, School of Life Sciences	
Dr. Subhajit Saha, Department of Zoology, University of Burdwan (External Expert from Academics)	
Dr. Arijit Bhattacharya, HoD, Department of Microbiology, Adamas University (External Expert from Academics)	
Prof. Kousik Pramanick, Department of Life Sciences, Presidency University (External Expert from Academics)	
Dr. Semanti Ghosh(Member)	
Dr. Priyajit Banerjee(Member)	
Dr. Debjit De(Member)	
Dr. Priyankar Pal(Member)	
Dr. Bidisha Ghosh (Member)	Bidisha Ghosh.
Dr. Samudra Pal(Member)	
Dr.Subhasis Sarkar (Invited Member)	Subhasis Sarkar.

Agenda
1. Revision and restructuring of the syllabus of the postgraduate course (Annexurel) according to the CBCS regulations.

Dr Pritha Pal, HOD, Department of Biotechnology and Microbiology, School of Life Sciences, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda: Revision and restructuring of the syllabus of the postgraduate course (Annexure I) according to the Choice Based Credit System Policy.
Proposition: Revision and Restructuring of the Syllabus
Resolution: The board resolves to revise and restructure the postgraduate syllabus (Annexure I) in accordance with the Choice Based Credit System Policy, ensuring contemporary relevance and global competency.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Prepared By

Dr Pritha Pal
Assistant Professor & HOD, Department of Biotechnology, School of Life Sciences, Swami Vivekananda University

Agenda of BOS Committee Meeting

- Introduction of a 4-year Undergraduate honors course for the students of UG Microbiology Semester II (National Education Policy).
- Revision and restructuring of the syllabus of the undergraduate course according to the National Education Policy.

Syllabus for UG Microbiology SEM II

Category	Subject	Credit
Major	Biochemistry (MBY2012)	3+1
Minor	Medical Microbiology & Immunology (MBY2022)	3+1
Interdisciplinary subject	Life Skills Education	3
Ability Enhancement Courses	Modern Indian Language	2
Skill Enhancement Courses	Microbial Physiology & Metabolism (MBY2052)	3
Value Added Course	Health, Well Being and Yoga	4
Internship	Internship at reputed research institute/ at industry	2

Course Name: Biochemistry
Course Code: MBY2012
Course Type: Major
Credits: 3+1

Biochemistry (Theory)

Module-I: [8H] Bioenergetics: First and second laws of Thermodynamics. Definitions of Gibb's Free Energy, enthalpy, and Entropy and mathematical relationship among them, Standard free energy change and equilibrium constant Coupled reactions and additive nature of standard free energy change, Energy rich compounds: Phosphoenolpyruvate, 1,3- Bisphosphoglycerate, Thioesters, ATP

Module-II: [12H] Carbohydrates: Families of monosaccharides: aldoses and ketoses, trioses, tetroses, pentoses, and hexoses. Stereo isomerism of monosaccharides, epimers, Mutarotation and anomers of glucose. Furanose and pyranose forms of glucose and fructose, Haworth projection formulae for glucose; chair and boat forms of glucose, Sugar derivatives, glucosamine, galactosamine, muramic

Prajna Mandal
22/
Vice Chancellor
Swami Vivekananda University

acid, N- acetyl neuraminic acid, Disaccharides; concept of reducing and non-reducing sugars, occurrence and Haworth projections of maltose, lactose, and sucrose, Polysaccharides, storage polysaccharides, starch and glycogen. Structural Polysaccharides, cellulose, peptidoglycan and chitin and properties. Saponification Structural lipids. Phosphoglycerides: Building blocks, General structure, functions and properties. Structure of phosphatidylethanolamine and phosphatidylcholine, Sphingolipids: building blocks, structure of sphingosine, ceramide. Special mention of sphingomyelins, cerebrosides and gangliosides Lipid functions: cell signals, cofactors, prostaglandins, Introduction of lipid micelles, monolayers, bilayers

Module-III: [12H] Lipids: Definition and major classes of storage and structural lipids. Storage lipids. Fatty acids structure and functions. Essential fatty acids. Triacyl glycerols structure, functions and properties. Saponification Structural lipids. Phosphoglycerides: Building blocks, General structure, functions and properties. Structure of phosphatidylethanolamine and phosphatidylcholine, Sphingolipids: building blocks, structure of sphingosine, ceramide. Special mention of sphingomyelins, cerebrosides and gangliosides Lipid functions: cell signals, cofactors, prostaglandins, Introduction of lipid micelles, monolayers, bilayers.

Module-IV: [12H] Proteins: Functions of proteins, Primary structures of proteins: Amino acids, the building blocks of proteins. General formula of amino acid and concept of zwitterion. Titration curve of amino acid and its Significance, Classification, biochemical structure and notation of standard protein amino acids Ninhydrin reaction.Natural modifications of amino acids in proteins hydrolysine, cystine and hydroxyproline, Non protein amino acids: Gramicidin, beta-alanine, D-alanine and D-glutamic acid Oligopeptides: Structure and functions of naturally occurring glutathione and insulin and synthetic aspartame, Secondary structure of proteins: Peptide unit and its salient features. The alpha helix, the beta pleated sheet and their occurrence in proteins, Tertiary and quaternary structures of proteins. Forces holding the polypeptide together. Human haemoglobin structure, Quaternary structures of proteins.

Module-V: [12H] Enzymes: Structure of enzyme: Apoenzyme and cofactors, prosthetic group-TPP, coenzyme NAD,metal cofactors, Classification of enzymes, Mechanism of action of enzymes: active site, transition state complex and activation energy. Lock and key hypothesis, and Induced Fit hypothesis. Significance of hyperbolic, double reciprocal plots of enzyme activity, Km, and allosteric mechanism Definitions of terms – enzyme unit, specific activity and turnover number, Multienzyme complex: pyruvate dehydrogenase; isozyme: lactate dehydrogenase, Effect of pH and temperature on enzyme activity. Enzyme inhibition: competitive- sulfa drugs; non-competitive-heavy metal salts

Module-VI: [4H] Vitamins: Classification and characteristics with suitable examples, sources and importance

Biochemistry (Lab).

1. Properties of water, Concept of pH and buffers, preparation of buffers and Numerical problems to explain the concepts
2. Numerical problems on calculations of Standard Free Energy Change and Equilibrium constant

Prajna Mandal
22/1/24
Vice Chancellor
Swami Vivekananda University

3. Standard Free Energy Change of coupled reactions.
4. Qualitative/Quantitative tests for carbohydrates, reducing sugars, non reducing sugars
5. Qualitative/Quantitative tests for lipids and proteins
6. Study of protein secondary and tertiary structures with the help of models
7. Study of enzyme kinetics – calculation of Vmax , Km, Kcat values
8. Study effect of temperature, pH and Heavy metals on enzyme activity
9. Estimation of any one vitamin

Course Name: Medical Microbiology and Immunology
Course Code: MBY2022
Course Type: Minor
Credits: 3+1

Medical Microbiology and Immunology (Theory)

Module-I: [8H] Normal microflora of the human body and host pathogen interaction: Normal microflora of the human body: Importance of normal microflora, normal microflora of skin, throat, gastrointestinal tract, urogenital tract Host pathogen interaction: Definitions - Infection, Invasion, Pathogen, Pathogenicity, Virulence, Toxigenicity, Carriers and their types, Opportunistic infections, Nosocomial infections. Transmission of infection,

Module-II: [5H] Sample collection, transport and diagnosis: Collection, transport and culturing of clinical samples and their identification characteristics

Module-III: [3H]
Bacterial diseases: List of diseases of various organ systems and their causative agents.

Module-IV: [3H]
Viral diseases: List of diseases of various organ systems and their causative agents.

Module-V: [2H] Protozoan diseases: List of diseases of various organ systems and their causative agents.

Module-VI: [2H] Fungal diseases: Brief description of various types of mycoses.

Module-VII: [7H] Antimicrobial agents: General characteristics and mode of action: Antibacterial agents: Five modes of action with one example each: Inhibitor of nucleic acid synthesis; Inhibitor of cell wall synthesis; Inhibitor of cell membrane function; Inhibitor of protein synthesis; Inhibitor of metabolism Antifungal agents: Mechanism of action of Amphotericin B, Griseofulvin Antiviral agents: Mechanism of action of Amantadine, Acyclovir, Azidothymidine

Module-VIII: [7H] Immune Cells and Organs: Structure, Functions and Properties of: Immune Cells – Stem cell, T cell, B cell, NK cell, Macrophage, Neutrophil, Eosinophil, Basophil, Mast cell, Dendritic cell; and Immune Organs – Bone Marrow, Thymus, Lymph Node, Spleen

Module-IX: [7H] Antigens and Antibodies: Characteristics of an antigen (Foreignness, Molecular

Prajna Mandal
Vice Chancellor
Swami Vivekananda University

size and Heterogeneity); Haptens; Epitopes (T & B cell epitopes), Adjuvants, Structure, Types and Functions of antibodies.

Module-X: [6H] Generation of Immune Response: Primary and Secondary Immune Response; Generation of Humoral Immune Response (Plasma and Memory cells); Generation of Cell Mediated Immune Response

Module-XI: [5H] Immunological Disorders and Tumor Immunity: Types of Autoimmunity and Hypersensitivity with examples; Immunodeficiencies - Animal models (Nude and SCID mice).

Module-XII: [5H] Immunological Techniques: Principles of Precipitation, Agglutination, Immunodiffusion, Immunoelectrophoresis, ELISA, ELISPOT

Medical Microbiology and Immunology (Lab)

1. Identify bacteria on the basis of cultural, morphological and biochemical characteristics: IMViC, TSI, nitrate reduction, urease production and catalase tests
2. Study of composition and use of important differential media for identification of bacteria: EMB Agar, McConkey agar, Mannitol salt agar, Deoxycholate citrate agar, TCBS
3. Study of bacterial flora of skin by swab method
4. Perform antibacterial sensitivity by Kirby-Bauer method
5. Identification of human blood groups.
6. To perform Total Leukocyte Count of the given blood sample.
7. To perform Differential Leukocyte Count of the given blood sample.
8. To separate serum from the blood sample (demonstration).
9. To perform immunodiffusion by Ouchterlony method.

Course Name: Microbial Physiology and Metabolism
Course Code: MBY2052
Course Type: SEC
Credits: 3

Microbial Physiology and Metabolism (Theory)

Module-I: [12H] Microbial Growth and Effect of Environment on Microbial Growth: Definitions of growth, measurement of microbial growth, Batch culture, Continuous culture, generation time and specific growth rate, synchronous growth, diauxic growth curve Microbial growth in response to environment -Temperature (psychrophiles, mesophiles, thermophiles, extremophiles, thermodurics, psychrotrophs), pH (acidophiles, alkaliphiles), solute and water activity (halophiles, xerophiles, osmophilic), Oxygen (aerobic, anaerobic, microaerophilic, facultative aerobe, facultative anaerobe),barophilic. Microbial growth in response to nutrition and energy – Autotroph/Phototroph, heterotrophy, Chemolithoautotroph, Chemolithoheterotroph, Chemoheterotroph, Chemolithotroph, photolithoautotroph, Photoorganoheterotroph.

Prajna Mandal

School of Life Sciences
B.Sc. (Honours) in ~~Biotechnology~~ Microbiology Programme
Structure 2021 (As per UGC CBCS Template)

Module-II: [10H] Nutrient uptake and Transport: Passive and facilitated diffusion Primary and secondary active transport, concept of uniport, symport and antiport Group translocation Iron uptake.

Module-III: [16H] Chemoheterotrophic Metabolism - Aerobic Respiration: Concept of aerobic respiration, anaerobic respiration and fermentation Sugar degradation pathways i.e. EMP, ED, Pentose phosphate pathway TCA cycle Electron transport chain: components of respiratory chain, comparison of mitochondrial and bacterial ETC, electron transport phosphorylation, uncouplers and inhibitors

Module-IV: [6H] Chemoheterotrophic Metabolism- Anaerobic respiration and fermentation: Anaerobic respiration with special reference to dissimilatory nitrate reduction (Denitrification; nitrate /nitrite and nitrate/ammonia respiration; fermentative nitrate reduction) Fermentation - Alcohol fermentation and Pasteur effect; Lactate fermentation (homofermentative and heterofermentative pathways), concept of linear and branched fermentation pathways

Module-V: [10H] Chemolithotrophic and Phototrophic Metabolism: Introduction to aerobic and anaerobic chemolithotrophy with an example each. Hydrogen oxidation (definition and reaction) and methanogenesis (definition and reaction) Introduction to phototrophic metabolism - groups of phototrophic microorganisms, anoxygenic vs. oxygenic photosynthesis with reference to photosynthesis in green bacteria, purple bacteria and cyanobacteria.

Module-VI: [6H] Nitrogen Metabolism - an overview: Introduction to biological nitrogen fixation Ammonia assimilation Assimilatory nitrate reduction, dissimilatory nitrate reduction, denitrification.

UG Microbiology, Semester III – NEP Syllabus

Category	Subject Name	Subject Code	Subject Credit
Major	Bacteriology	MBY3011	3
	Bacteriology Lab	MBY3011	1
	Virology	MBY3012	3
	Virology Lab	MBY3012	1
Minor	Cell Biology	MBY3021	3
	Cell Biology Lab	MBY3021	1
Skill Enhancement Course	SEC: Industrial & Food Microbiology	MBY3051	3
Ability Enhancement Course	AEC: Communicative English	AEC3041	2
Interdisciplinary Course	IDC: Educational Research	ED3031	3
	Internship		2

Course Name: Bacteriology
Course Code: MBY3011

Module-I: [14H]
Cell organization: Cell size, shape and arrangement, glycocalyx, capsule, flagella, endoflagella, fimbriae and pili. Cell-wall: Composition and detailed structure of Gram- positive and Gram-negative cell walls, Archaebacterial cell wall, Gram and acid fast staining mechanisms, lipopolysaccharide (LPS), sphaeroplasts, protoplasts, and L-forms. Effect of antibiotics and enzymes on the cell wall. Cell Membrane: Structure, function and chemical composition of bacterial and archaeal cell membranes. Cytoplasm: Ribosomes, mesosomes, inclusion bodies, nucleoid, chromosome and plasmids, Endospore: Structure, formation, stages of sporulation.

Module-II: [5H]
Bacteriological techniques: Pure culture isolation: Streaking, serial dilution and plating methods; cultivation, maintenance and preservation/stocking of pure cultures; cultivation of anaerobic bacteria, and accessing non-cultural bacteria.

Module-III: [6H]
Microscopy: Bright Field Microscope, Dark Field Microscope, Phase Contrast Microscope, Fluorescence Microscope, Confocal microscopy, Scanning and Transmission Electron Microscope.

Module-IV: [8H]
Growth and nutrition: Nutritional requirements in bacteria and nutritional categories; Culture media: components of media, natural and synthetic media, chemically defined media, complex media, selective, differential, indicator, enriched and enrichment media Physical methods of microbial control: heat, low temperature, high pressure, filtration, desiccation, osmotic pressure, radiation Chemical methods of microbial control: disinfectants, types and mode of action.

Module-V: [3H]
Reproduction in Bacteria: Asexual methods of reproduction, logarithmic representation of bacterial populations, phases of growth, calculation of generation time and specific growth rate.

Vice Chancellor
Swami Vivekananda University

Module-VI: [8H]
Bacterial Systematics: Aim and principles of classification, systematics and taxonomy, concept of species, taxa, strain; conventional, molecular and recent approaches to polyphasic bacterial taxonomy, evolutionary chronometers, rRNA oligonucleotide sequencing, signature sequences, and protein sequences. Differences between eubacteria and archaebacteria.

Module-VII: [16H]
Important archaeal and eubacterial groups: Archaebacteria: General characteristics, phylogenetic overview, genera belonging to Nanoarchaeota (Nanoarchaeum), Crenarchaeota (Sulfolobus, Thermoproteus) and Euryarchaeota [Methanogens (Methanobacterium, Methanocaldococcus), thermophiles (Thermococcus, Pyrococcus, Thermoplasma), and Halophiles (Halobacterium, Halococcus)] Eubacteria: Morphology, metabolism, ecological significance and economic importance of following groups: Gram Negative: Non proteobacteria: General characteristics with suitable examples Alpha proteobacteria: General characteristics with suitable examples Beta proteobacteria: General characteristics with suitable examples Gamma proteobacteria: General characteristics with suitable examples Delta proteobacteria: General characteristics with suitable examples Epsilon proteobacteria: General characteristics with suitable examples Zeta proteobacteria: General characteristics with suitable examples Gram Positive: Low G+C (Firmicutes): General characteristics with suitable examples High G+C (Actinobacteria): General characteristics with suitable examples Cyanobacteria: An Introduction.

Course Name: Bacteriology Lab.
Course Code: MBY3011

1. Preparation of different media: synthetic media BG-11, Complex Media- Nutrient agar, McConkey agar, EMB agar.
2. Simple staining
3. Negative staining
4. Gram's staining
5. Acid fast staining-permanent slide only.
6. Capsule staining
7. Endospore staining.
8. Isolation of pure cultures of bacteria by streaking method.
9. Preservation of bacterial cultures by various techniques.
10. Estimation of CFU count by spread plate method/pour plate method. 11. Motility by hanging drop method.

Learning outcomes: After completion of Bacteriology, the student will learn about the

1. Identification of cells and cellular organelles
2. Staining Techniques
3. Microscopy
4. Nutrient media preparation
5. Culturing and growth of microbes
6. Pure culture isolation
7. Reproduction and growth kinetics
8. Taxonomical analysis
9. Microbialdiversity

Vice Chancellor
Swami Vivekananda University

9. Cappucino J and Sherman N. (2010). Microbiology: A Laboratory Manual. 9th edition. Pearson Education Limited.

Course Name: Virology
Course Code: MBY3012

Module-I:[12H]
Nature and Properties of Viruses: Introduction: Discovery of viruses, nature and definition of viruses, general properties, concept of viroids, virusoids, satellite viruses and Prions. Theories of viral origin Structure of Viruses: Capsid symmetry, enveloped and non-enveloped viruses Isolation, purification and cultivation of viruses Viral taxonomy: Classification and nomenclature of different groups of viruses

Module-II: [10H]
Bacteriophages: Diversity, classification, one step multiplication curve, lytic and lysogenic phages (lambda phage) concept of early and late proteins, regulation of transcription in lambda phage

Module-III: [20H]
Viral Transmission, Salient features of viral nucleic acids and Replication: Modes of viral transmission: Persistent, non-persistent, vertical and horizontal Salient features of viral Nucleic acid : Unusual bases (TMV,T4 phage), overlapping genes (ϕX174, Hepatitis B virus), alternate splicing (HIV), terminal redundancy (T4 phage), terminal cohesive ends (lambda phage), partial double stranded genomes (Hepatitis B), long terminal repeats (retrovirus), segmented (Influenza virus), and non-segmented genomes (picornavirus), capping and tailing (TMV) Viral multiplication and replication strategies: Interaction of viruses with cellular receptors and entry of viruses. Replication strategies of viruses as per Baltimore classification (phi X 174, Retroviridae, Vaccinia, Picorna) , Assembly, maturation and release of virions

Module-IV: [6H]
Viruses and Cancer: Introduction to oncogenic viruses Types of oncogenic DNA and RNA viruses: Concepts of oncogenes and proto-oncogenes

Vice Chancellor
Swami Vivekananda University

Module-V: [8H]
Prevention & control of viral diseases: Antiviral compounds and their mode of action Interferon and their mode of action General principles of viral vaccination

Module-VI: [4H]
Applications of Virology: Use of viral vectors in cloning and expression, Gene therapy and Phage display.

Course Name: Virology Lab
Course Code: MBY3012

1. Study of the structure of important animal viruses (rhabdo, influenza, paramyxo hepatitis B and retroviruses) using electron micrographs
2. Study of the structure of important plant viruses (caulimo, Gemini, tobacco ring spot, cucumber mosaic and alpha-alpha mosaic viruses) using electron micrographs
3. Study of the structure of important bacterial viruses (ϕX 174, T4, λ) using electron micrograph.
4. Isolation and enumeration of bacteriophages (PFU) from water/sewage sample using double agar layer technique
5. Studying isolation and propagation of animal viruses by chick embryo technique
6. Study of cytopathic effects of viruses using photographs
7. Perform local lesion technique for assaying plant viruses.

Learning outcomes: Learning outcomes: After completion of Bacteriology, the student will learn about the

1. General properties of viruses
2. Identification and cultivation of viral particles
3. Taxonomic analysis
4. Viral replication and transfection
5. Viral diversity and infection strategies
6. Virus in oncogenic activation
7. Viral control
8. Medical application of virology

Vice Chancellor
Swami Vivekananda University

Course Name: Cell Biology
Course Code: MBY3021

Module-I: [10H]
Structure and organization of Cell: Cell Organization – Eukaryotic (Plant and animal cells) and prokaryotic Plasma membrane: Structure and transport of small molecules Cell Wall: Eukaryotic cell wall, Extra cellular matrix and cell matrix interactions, Cell- Cell Interactions - adhesion junctions, tight junctions, gap junctions, and plasmodesmata (only structural aspects) Mitochondria, chloroplasts and peroxisomes Cytoskeleton: Structure and organization of actin filaments, association of actin filaments with plasma membrane, cell surface protrusions, intermediate filaments, microtubules

Module-II: [5H]
Nucleus: Nuclear envelope, nuclear pore complex and nuclear lamina Chromatin – Molecular organization Nucleolus

Module-III: [20H]
Protein Sorting and Transport: Ribosomes, Endoplasmic Reticulum – Structure, targeting and insertion of proteins in the ER, protein folding, processing and quality control in ER, smooth ER and lipid synthesis, export of proteins and lipids Golgi Apparatus – Organization, protein glycosylation, protein sorting and export from Golgi Apparatus Lysosomes

Module-IV: [10H]
Cell Signaling: Signaling molecules and their receptors Function of cell surface receptors Pathways of intra-cellular receptors – Cyclic AMP pathway, cyclic GMP and MAP kinase pathway

Module-V: [15H]
Cell Cycle, Cell Death and Cell Renewal: Eukaryotic cell cycle and its regulation, Mitosis and Meiosis Development of cancer, causes and types Programmed cell death Stem cells Embryonic stem cell, induced pleuripotent stem cells.

Course Name: Cell Biology Lab.
Course Code: MBY3021

1. Study a representative plant and animal cell by microscopy.
2. Study of the structure of cell organelles through electron micrographs
3. Cytochemical staining of DNA – Feulgen
4. Demonstration of the presence of mitochondria in striated muscle cells/ cheek epithelial cell using vital stain Janus Green B
5. Study of polyploidy in Onion root tip by colchicine treatment.
6. Identification and study of cancer cells by photomicrographs.
7. Study of different stages of Mitosis.
8. Study of different stages of Meiosis.

Learning outcomes: After completion of Bacteriology, the student will learn about the

1. Cellular structure and intracellular organization
2. Transport of macromolecules (protein)
3. How cells communicate
4. Cell cycle and its effect on cancer development

Vice Chancellor
Swami Vivekananda University

5. Microscopic identification of different stages of cell cycle

Meeting Name: **Board of Studies**	Venue: **NND Block, Room No. 206**	Date: **30.05.2024**
Convenor: **Dr Pritha Pal**	Start time: **10:00 AM**	End time: **2:00 PM**

Attendees
Dr. Pritha Pal (Chairman, BoS)
Prof. Nimai Chandra Saha, Vice Chancellor, University of Burdwan (External Expert from Academics)
Dr. Arijit Bhattacharya, HoD, Department of Microbiology, Adamas University (External Expert from Academics)
Prof. Kousik Pramanick, Department of Life Sciences, Presidency University (External Expert from Academics)
Dr Srijan Haldar (Invited Member)
Dr. Semanti Ghosh (Invited Member)
Dr Priyajit Banerjee (Member)
Dr Sabyasachi Ghosh (Invited Member)
Dr Debjit De (Invited Member)
Dr Subhasis Sarkar (Member)
Dr Bidisha Ghosh (Invited Member)
Dr Priyankar Pal (Invited Member)

Agenda
1. Revision and restructuring of the syllabus of the postgraduate course (Annexure I) according to the CBCS regulations.

Dr Pritha Pal, HOD, Department of Microbiology, School of Life Sciences, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda: Revision and restructuring of the syllabus of the post graduate course (Annexure I) according to the National Education Policy.

Proposition: Revision and Restructuring of the Syllabus

Resolution: The board resolves to revise and restructure the post graduate syllabus (Annexure I) in accordance with the National Education Policy, ensuring contemporary relevance and global competency.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

Prepared By

Dr Pritha Pal

Assistant Professor & HOD, Department of Microbiology, School of Life Sciences, Swami Vivekananda University

Agenda
1. Introduction of a 4-year Undergraduate honors course for the students of UG Microbiology Semester IV (National Education Policy 2020).

Dr Pritha Pal, HOD, Department of Microbiology, School of Life Sciences, discussed the following agenda in the presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 6th Board of Studies (BOS) Meeting

Agenda: Introduction of a 4-year Undergraduate honors course for the students of UG Microbiology Semester IV (National Education Policy 2020).

Proposition: Introduction of a 4-year Undergraduate Honors Course

Resolution: The board resolves to introduce a 4-year Undergraduate Honors course for UG Microbiology Semester II students, aligning with the National Education Policy 2020, to enhance interdisciplinary learning and research opportunities.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

UG Microbiology, Semester IV – NEP Syllabus

Category	Subject Name	Subject Code	Subject Credit
Major	Microbial Genetics	MBY4011	3
	Microbial Genetics Lab		1
	Recombinant DNA Technology	MBY4012	3
	Recombinant DNA Technology Lab		1
	Bioinformatics	MBY4021	3
	Bioinformatics Lab		1
Minor	Bioethics & Bio Safety	MBY4051	4
Total			**16**

Course Name: Microbial Genetics
Course Code: MBY4011

Module-I: [18H]
Genome Organization and Mutations: Genome organization: E. coli, Saccharomyces, Tetrahymena Mutations and mutagenesis: Definition and types of Mutations; Physical and chemical mutagens; Molecular basis of mutations; Functional mutants (loss and gain of function mutants); Uses of mutations Reversion and suppression: True revertants; Intra- and inter-genic suppression; Ames test; Mutator genes.

Module-II: [10H]
Plasmids: Types of plasmids – F plasmid, R Plasmids, colicinogenic plasmids, Ti plasmids, linear plasmids, yeast- 2 μ plasmid, Plasmid replication and partitioning, Host range, plasmid-incompatibility, plasmid amplification, Regulation of copy number, curing of plasmids.

Module-III: [12H]
Mechanisms of Genetic Exchange: Transformation - Discovery, mechanism of natural competence Conjugation - Discovery, mechanism, Hfr and F' strains, Interrupted mating technique and time of entry mapping Transduction - Generalized transduction, specialized transduction, LFT & HFT lysates, Mapping by recombination and cotransduction of markers.

Module-IV: [8H]
Phage Genetics: Features of T4 genetics, Genetic basis of lytic versus lysogenic switch of phage lambda.

Module-V: [12H]
Transposable elements: Prokaryotic transposable elements – Insertion Sequences, composite and non-composite transposons, Replicative and Non replicative transposition, Mu transposon Eukaryotic transposable elements - Yeast (Ty retrotransposon), Drosophila (P elements), Maize (Ac/Ds) Uses of transposons and transposition.

Course Name: Microbial Genetics Lab.
Course Code: MBY4011

1. Preparation of Master and Replica Plates
2. Study the effect of chemical (HNO_2) and physical (UV) mutagens on bacterial cells

Vice Chancellor
Swami Vivekananda University

3. Study survival curve of bacteria after exposure to ultraviolet (UV) light
4. Isolation of Plasmid DNA from E. coli
5. Study different conformations of plasmid DNA through Agaraose gel electrophoresis.
6. Demonstration of Bacterial Conjugation
7. Demonstration of bacterial transformation and transduction 8. Demonstration of AMES test.

Learning outcomes: After completion of Bacteriology, the student will learn about the

1. Genetic mutations and mutagens
2. Development of genetic variation in microbes
3. Plasmid biology
4. Phage genetics
5. Transposons: the jumping genes

Suggested Reading:

1. Klug WS, Cummings MR, Spencer, C, Palladino, M (2011). Concepts of Genetics, 10th Ed., Benjamin Cummings
2. Krebs J, Goldstein E, Kilpatrick S (2013). Lewin's Essential Genes, 3rd Ed., Jones and Bartlett Learning
3. Pierce BA (2011) Genetics: A Conceptual Approach, 4th Ed., Macmillan Higher Education Learning
4. Watson JD, Baker TA, Bell SP et al. (2008) Molecular Biology of the Gene, 6th Ed., Benjamin Cummings

Course Name: Recombinant DNA Technology
Course Code: MBY4012

Module-I: [2H]
Introduction to Genetic Engineering: Milestones in genetic engineering and biotechnology.

Module-II: [20H]
Molecular Cloning- Tools and Strategies: Cloning Tools; Restriction modification systems: Types I, II and III. Mode of action, nomenclature, applications of Type II restriction enzymes in genetic engineering DNA modifying enzymes and their applications: DNA polymerases. Terminal deoxynucleotidyl transferase, kinases and phosphatases, and DNA ligases Cloning Vectors: Definition and Properties Plasmid vectors: pBR and pUC series Bacteriophage lambda and M13 based vectors Cosmids, BACs, YACs Use of linkers and adaptors Expression vectors: E. coli lac and T7 promoter-based vectors, yeast YIp, YEp and YCp vectors, Baculovirus based vectors, mammalian SV40-based expression vectors.

Module-III: [16H]
Methods in Molecular Cloning: Transformation of DNA: Chemical method, Electroporation, Gene delivery: Microinjection, electroporation, biolistic method (gene gun), liposome and viral-mediated delivery, Agrobacterium - mediated delivery DNA, RNA and Protein analysis: Agarose gel electrophoresis, Southern - and Northern - blotting techniques, dot blot, DNA microarray analysis, SDS-PAGE and Western blotting.

Module-IV: [10H]

Vice Chancellor
Swami Vivekananda University

DNA Amplification and DNA sequencing: PCR: Basics of PCR, RT-PCR, Real-Time PCR Sanger's method of DNA Sequencing: traditional and automated sequencing Primer walking and shotgun sequencing.

Module-V: [6H]

Construction and Screening of Genomic and cDNA libraries: Genomic and cDNA libraries: Preparation and uses, screening of libraries: Colony hybridization and colony PCR, Chromosome walking and chromosome jumping.

Module-VI: [6H]

Applications of Recombinant DNA Technology: Products of recombinant DNA technology: Products of human therapeutic interest - insulin, hGH, antisense molecules. Bt transgenic - cotton, brinjal, Gene therapy, recombinant vaccines, protein engineering and site directed mutagenesis.

Course Name: Recombinant DNA Technology Lab
Course Code: MBY4012

1. Preparation of competent cells for transformation
2. Demonstration of Bacterial Transformation and calculation of transformation efficiency.
3. Digestion of DNA using restriction enzymes and analysis by agarose gel electrophoresis
4. Ligation of DNA fragments
5. Cloning of DNA insert and Blue white screening of recombinants.
6. Interpretation of sequencing gel electropherograms
7. Designing of primers for DNA amplification
8. Amplification of DNA by PCR
9. Demonstration of Southern blotting.

Learning outcomes: Learning outcomes: After completion of Bacteriology, the student will learn about the

1. Introduction to rDNA technology
2. Tools for rDNA technologies
3. Cloning strategies
4. PCR techniques
5. Gene therapy

Suggested Reading

1. Brown TA. (2010). Gene Cloning and DNA Analysis. 6th edition. Blackwell Publishing, Oxford, U.K.
2. Clark DP and Pazdernik NJ. (2009). Biotechnology: Applying the Genetic Revolution. Elsevier Academic Press, USA
3. Primrose SB and Twyman RM. (2006). Principles of Gene Manipulation and Genomics, 7th edition. Blackwell Publishing, Oxford, U.K.
4. Sambrook J and Russell D. (2001). Molecular Cloning-A Laboratory Manual. 3rd edition. Cold Spring Harbor Laboratory Press
5. Wiley JM, Sherwood LM and Woolverton CJ. (2008). Prescott, Harley and Klein's Microbiology. McGraw Hill Higher Education
6. Brown TA. (2007). Genomes-3. Garland Science Publishers
7. Primrose SB and Twyman RM. (2008). Genomics: Applications in human biology. Blackwell Publishing, Oxford, U.K.

Vice Chancellor
Swami Vivekananda University

Course Name: Bioinformatics
Course Code: MBY4021

Module-I: [8H]
Introduction to Computer Fundamentals: RDBMS - Definition of relational database Mode of data transfer (FTP, SFTP, SCP), advantage of encrypted data transfer.

Module-II: [14H]
Introduction to Bioinformatics and Biological Databases: Biological databases – nucleic acid, genome, protein sequence and structure, gene expression databases, Database of metabolic pathways, Mode of data storage - File formats - FASTA, Genbank and Uniprot, Data submission & retrieval from NCBI, EMBL, DDBJ, Uniprot, PDB.

Module-III: [16H]
Sequence Alignments, Phylogeny and Phylogenetic trees: Local and Global Sequence alignment, pairwise and multiple sequence alignment. Scoring an alignment, scoring matrices, PAM & BLOSUM series of matrices Types of phylogenetic trees, Different approaches of phylogenetic tree construction - UPGMA, Neighbour joining, Maximum Parsomony, Maximum likelihood.

Module-IV: [10H]
Genome organization and analysis: Diversity of Genomes: Viral, prokaryotic & eukaryotic genomes Genome, transcriptome, proteome, 2-D gel electrophoresis, Maldi Toff spectroscopy Major features of completed genomes: *E. coli*, *S. cerevisiae*, *Arabidopsis*, Human.

Module-V: [12H]
Protein Structure Predictions: Hierarchy of protein structure - primary, secondary and tertiary structures, modeling Structural Classes, Motifs, Folds and Domains Protein structure prediction in presence and absence of structure template Energy minimizations and evaluation by Ramachandran plot Protein structure and rational drug design.

Course Name: Bioinformatics Lab.
Course Code: MBY4021

1. Introduction to different operating systems - UNIX, LINUX and Windows 2. Introduction to bioinformatics databases (any three): NCBI/PDB/DDBJ, Uniprot, PDB
3. Sequence retrieval using BLAST
4. Sequence alignment & phylogenetic analysis using clustalW & phylip
5. Picking out a given gene from genomes using Genscan or other softwares (promoter region identification, repeat in genome, ORF prediction). Gene finding tools (Glimmer, GENSCAN), Primer designing, Genscan/Genetool.
6. Protein structure prediction: primary structure analysis, secondary structure prediction using psi-pred, homology modeling using Swissmodel. Molecular visualization using jmol, Protein structure model evaluation (PROCHECK).
7. Prediction of different features of a functional gene.

Learning outcomes: Application of computational biology

Vice Chancellor
Swami Vivekananda University

Suggested Reading

1. Saxena Sanjay (2003) A First Course in Computers, Vikas Publishing House
2. Pradeep and Sinha Preeti (2007) Foundations of Computing, 4th ed., BPB Publications
3. Lesk M.A. (2008) Introduction to Bioinformatics. Oxford Publication, 3rd International Student Edition
4. Rastogi S.C., Mendiratta N. and Rastogi P. (2007) Bioinformatics: methods and applications, genomics, proteomics and drug discovery, 2nd ed. Prentice Hall India Publication
5. Primrose and Twyman (2003) Principles of Genome Analysis & Genomics. Blackwell.

Course Name: Bioethics & Bio Safety
Course Code: MBY4051

Module-I: [8H]
Biosafety: Introduction; biosafety issues in biotechnology; Biological Safety Cabinets & their types; Primary Containment for Biohazards; Biosafety Levels of Specific Microorganisms

Module-II: [12H]
Biosafety Guidelines: Biosafety guidelines and regulations (National and International); GMOs/LMOs- Concerns and Challenges; Role of Institutional Biosafety Committees (IBSC), RCGM, GEAC etc. for GMO applications in food and agriculture; Environmental release of GMOs; Risk Analysis; Risk Assessment; Risk management and communication; Overview of International Agreements - Cartagena Protocol.

Module-III: [4H]
AERB/RSD/RES guidelines for using radioisotopes in laboratories and precautions.

Module-IV: [12H]
Introduction to Intellectual Property: Patents, Types, Trademarks, Copyright & Related Rights, Industrial Design and Rights, Traditional Knowledge, Geographical Indications - importance of IPR – patentable and non patentables – patenting life – legal protection of biotechnological inventions – World Intellectual Property Rights Organization (WIPO).

Module-V: [12H]
Grant of Patent and Patenting Authorities: Types of patent applications: Ordinary, PCT, Conventional, Divisional and Patent of Addition; An introduction to Patent Filing Procedures; Patent licensing and agreement; Patent infringement- meaning, scope, litigation, case studies, Rights and Duties of patent owner.

Module-VI: [12H]
Agreements and Treaties: GATT, TRIPS Agreements; Role of Madrid Agreement; Hague Agreement; WIPO Treaties; Budapest Treaty on international recognition of the deposit of microorganisms; UPOV & Brene conventions; Patent Co-operation Treaty (PCT); Indian Patent Act 1970 & recent amendments.

Learning outcomes:

1. Safety guidelines to carry out biological experiments

Vice Chancellor
Swami Vivekananda University

2. Bioethics
3. Intellectual property rights

Suggested Reading:

1. Bare Act, 2007.Indian Patent Act 1970 Acts & Rules, Universal Law Publishing Co. Pvt. Ltd., New Delhi.
2. Kankanala C (2007). Genetic Patent Law & Strategy, 1st Edition, Manupatra Information Solution Pvt. Ltd. New Delhi.
3. Mittal, D.P. (1999). Indian Patents Law, Taxmann, Allied Services (p) Ltd.
4. Singh K K (2015). Biotechnology and Intelectual Property Rights: Legal and Social Impliocations, Springer India.
5. Goel D & Prashar S (2013). IPR, Biosafety and Bioethics. Pearson
6. Senthil Kumar Sadhasivam and Mohammed Jaabir, M. S. 2008. IPR, Biosafety and biotechnology Management. Jasen Publications, Tiruchirappalli, India.

Agenda
1. Introduction of a 4-year Undergraduate honors course for the students of UG Microbiology Semester VI (National Education Policy 2020).

Dr Pritha Pal, HOD, Department of Biotechnology and Microbiology, School of Life Sciences, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda: Introduction of a 4-year Undergraduate honors course for the students of UG Microbiology Semester VI - National Education Policy, 2020.

Proposition: Introduction of a 4-year Undergraduate Honors Course

Resolution: The board resolves to introduce a 4-year Undergraduate Honors course for UG Microbiology Semester VI students, aligning with the National Education Policy 2020, to enhance interdisciplinary learning and research opportunities.

The minutes are issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Agenda

- Introduction of New Value-Added Audit Courses beyond the Course Curriculum
- Employability/Entrepreneurship/skill development centric curriculum Implementation.
- Revision of Syllabus: Modification of name of courses & course codes in the existing M.Tech & Diploma course Curriculum.
- To discuss and approve the panel of end term question paper moderator.
- Revision of open Elective Course Content of the Diploma V semester curriculum.
- Revision of Syllabus: Deletion of few Courses from the B.Tech (CIVIL Engineering) existing curriculum.
- Introduction of PhD Course work syllabus.

Dr. Abir Sarkar, HOD,Civil Engineering Department as the Chairman of the Board of Studies, commenced the meeting by extending a warm welcome and introducing the external members to the internal members. He expressed his gratitude for their willingness to join the Board of Studies. The meeting then proceeded to discuss the agenda wise discussion.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting(2022-2023)

Agenda 1:Introduction of New Value-Added Audit Courses beyond the Course Curriculum

Proposition: Introducing value-added audit courses beyond the traditional curriculum opens up an exhilarating prospect to enrich students' educational journey and bolster their employability. These courses, designed to impart practical skills, industry insights, and hands-on experiences, position our institution at the forefront of addressing the dynamic demands of the job market. They play a pivotal role in equipping our students with the necessary tools to thrive in their future careers. With meticulous planning, collaborative efforts, and continuous evaluation, we can guarantee the seamless integration and sustained success of these value-added audit courses within our academic framework.

Resolution: The industry responded favorably to the overall framework, recognizing its value and relevance. Consequently, the board has authorized the development of the detailed syllabus.

Agenda 2: Employability/Entrepreneurship/skill development centric curriculum Implementation.

Proposition: In response to the challenges posed by the shrinking job market, the Department has suggested introducing supplementary courses focused on employability, entrepreneurship, and skill development for B.Tech Civil Engineering students. These additional courses aim to bolster students' capabilities in entrepreneurship and software proficiency, recognizing the importance of diversifying skill sets to improve their prospects in the evolving job market.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 3: Revision of Syllabus: Modification of name of courses & course codes in the existing B.Tech, M.Tech & Diploma course Curriculum.

Proposition: A new Courses and Course Coding Scheme is being introduced for all courses in Civil Engineering Programs to be followed from AY2021-22. The new Codes are embedded in the Course Structure.

Resolution: The Course Structure with new course codes was approved.

Agenda 4: Revision of open Elective Course Content of the Diploma V semester curriculum.

Proposition: By fostering collaboration and continuously evaluating our methods, we can develop a flexible and responsive educational framework that equips students to tackle challenges such as disaster mitigation effectively. This approach ensures that our curriculum remains relevant and adaptive to the evolving needs of the workforce and society.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 5:

Proposition: the board can effectively discuss and approve the panel of end-term question paper moderators, ensuring the integrity and quality of the assessment process.

Resolution: The industry responded positively to the overall suggested framework, recognizing its value and alignment with industry standards. Consequently, the board has given approval to proceed with the approval of the panel of end-term question paper moderators. This endorsement underscores the importance of maintaining high-quality assessment standards and ensuring fairness in the evaluation process. With this green light, we can move forward confidently in finalizing the panel, thereby contributing to the integrity and credibility of our academic assessments.

Vice Chancellor
Swami Vivekananda University

Agenda 6: Revision of Syllabus (Inclusion of four courses from the B.Tech CSE(H) department) existing curriculum

Proposition: The agenda is to discuss the revision of the syllabus specifically focusing on the inclusion of four courses from the existing B.Tech CSE(H) department curriculum. The aim is to enhance the overall curriculum by incorporating relevant and contemporary topics that align with industry trends and student interests. The proposed courses are expected to provide students with a more comprehensive and well-rounded education. This proposal seeks approval to initiate the revision process, which may involve faculty members, subject matter experts, and industry professionals. The goal is to ensure that the curriculum remains up-to-date, relevant, and aligned with the evolving needs of the computer science field.

Resolution: The board unanimously agreed and welcomed the change

Agenda 7: Introduction of PhD Coursework syllabus

Proposition: The pursuit of a Doctor of Philosophy (PhD) degree represents the highest level of academic achievement and signifies a deep commitment to advanced research and scholarship within a specific field. Traditionally, PhD programs have been heavily emphasized independent research, often with minimal coursework requirements. However, there is a growing recognition of the benefits of incorporating structured coursework into PhD programs to provide students with a more comprehensive and well-rounded education. This proposal outlines the rationale and framework for the introduction of a PhD coursework syllabus.

Resolution: The coursework syllabus is accepted and implemented

The minute is issued in concurrence with the Registrar, Swami Vivekananda University and the Chairperson of BoS.

Agenda

- Finalization of Four years **UG (B-Tech in Civil Engineering)** syllabus as National Education Policy (NEP), 2020 guidelines.
- Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination,
- Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination.
- Practical approach for Entrepreneurship and skill development centric curriculum Implementation.
- Revision of Syllabus: Deletion of few Courses from the Diploma (civil engineering) in existing curriculum.

Dr. Abir Sarkar, HOD,Civil Engineering Department as the Chairman of the Board of Studies, commenced the meeting by extending a warm welcome and introducing the external members to the internal members. He expressed his gratitude for their willingness to join the Board of Studies. The meeting then proceeded to discuss the agenda wise discussion.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting(2023-2024)

Agenda 1: Finalization of Four years UG (B-Tech in Civil Engineering) syllabus as National Education Policy (NEP), 2020 guidelines

Proposition: Convenor of the meeting put the detailed four years draft syllabus of Under Graduate courses vide Bachelor of Civil Engineering as per National Education Policy (**NEP**), 2020 guidelines. Convenor also described the subject selection pattern, coding system of each subjects and distribution of credit pattern before the committee members.

Resolution: After detailed discussion and incorporating necessary changes, as advised by the expert members, the Draft syllabus (**Agenda-1**) has been unanimously accepted and approved as well by the committee. The committee has praise for preparing the robust syllabus as per the need of the modern times. (**Annex-1**)

Agenda 2: Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023:

Proposition: The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

Resolution: After detailed discussion the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee. (Annex-II)

Agenda 3: Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination:

Proposition: The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderato and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

Resolution: After detailed discussion the draft list of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee.

Agenda 4: Practical approach for Entrepreneurship and skill development centric curriculum Implementation

Proposition: Thrust should be given to basic knowledge about the civil engineering related subjects and their applications. Extensive technical sessions and orientation programs by the Industry Experts are need to encourage minimizing the knowledge gap. Priority should be placed on enhancing understanding of fundamental concepts in civil engineering and their practical applications. It is essential to organize comprehensive technical sessions and orientation programs led by industry experts to help bridge the knowledge gap. Industrial training or apprenticeship is required for a couple of days or months for the practical knowledge and field exposure of students to equip them today needs.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead for same.

Vice Chancellor
Swami Vivekananda University

Agenda 5: Revision of Syllabus: Deletion of few Courses from the Diploma (civil engineering) in existing curriculum.

Proposition: By this structured approach, the board can effectively navigate the process of revising the syllabus for the Diploma program, including the deletion of courses, while ensuring transparency, rigor, and stakeholder engagement.

Open the floor for discussion among board members. Encourage them to share their perspectives, concerns, and insights on the proposed deletions. Consider alternative viewpoints and explore potential implications of the proposed changes.

Resolution: The board unanimously agreed and welcomed the change.

Minutes of Board of Studies (BOS) Meeting(2025-2026)

Agenda 1:Introduction of New Value-Added Audit Courses beyond the Course Curriculum

Proposition: Introducing value-added audit courses beyond the traditional curriculum opens up an exhilarating prospect to enrich students' educational journey and bolster their employability. These courses, designed to impart practical skills, industry insights, and hands-on experiences, position our institution at the forefront of addressing the dynamic demands of the job market. They play a pivotal role in equipping our students with the necessary tools to thrive in their future careers. With meticulous planning, collaborative efforts, and continuous evaluation, we can guarantee the seamless integration and sustained success of these value-added audit courses within our academic framework.

Resolution: The industry responded favorably to the overall framework, recognizing its value and relevance. Consequently, the board has authorized the development of the detailed syllabus.

Agenda 2: Employability/Entrepreneurship/skill development centric curriculum Implementation.
Proposition: In response to the challenges posed by the shrinking job market, the Department has suggested introducing supplementary courses focused on employability, entrepreneurship, and skill development for B.Tech Civil Engineering students. These additional courses aim to bolster students' capabilities in entrepreneurship and software proficiency, recognizing the importance of diversifying skill sets to improve their prospects in the evolving job market.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 3: Revision of Syllabus: Modification of name of courses & course codes in the existing B.Tech, M.Tech & Diploma course Curriculum.
Proposition: A new Courses and Course Coding Scheme is being introduced for all courses in Civil Engineering Programs to be followed from AY2021-22. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Agenda 4: Revision of open Elective Course Content of the Diploma V semester curriculum.

Proposition: By fostering collaboration and continuously evaluating our methods, we can develop a flexible and responsive educational framework that equips students to tackle challenges such as disaster mitigation effectively. This approach ensures that our curriculum remains relevant and adaptive to the evolving needs of the workforce and society.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 5:

Proposition: the board can effectively discuss and approve the panel of end-term question paper moderators, ensuring the integrity and quality of the assessment process.

Resolution: The industry responded positively to the overall suggested framework, recognizing its value and alignment with industry standards. Consequently, the board has given approval to proceed with the approval of the panel of end-term question paper moderators. This endorsement underscores the importance of maintaining high-quality assessment standards and ensuring fairness in the evaluation process. With this green light, we can move forward confidently in finalizing the panel, thereby contributing to the integrity and credibility of our academic assessments.

Vice Chancellor
Swami Vivekananda University

Agenda 6: Revision of Syllabus: Deletion of few Courses from the B.Tech (CIVIL Engineering) existing curriculum.

Proposition: The agenda is to discuss the revision of the syllabus, specifically focusing on the deletion of certain courses from the existing B.Tech (Civil Engineering) curriculum. this structured approach, the board can effectively navigate the process of revising the syllabus and deleting courses from the B.Tech (Civil Engineering) curriculum while ensuring transparency, rigor, and stakeholder engagement. By providing students with opportunities to engage in hands-on research experiences, collaborate with faculty mentors, and contribute to cutting-edge research projects, we can empower them to become leaders and innovators in their chosen field.

Resolution: The board unanimously agreed and welcomed the change.

Agenda 7: Introduction of PhD Course work syllabus.

Proposition: The pursuit of a Doctor of Philosophy (PhD) degree represents the highest level of academic achievement and signifies a deep commitment to advanced research and scholarship within a specific field. Traditionally, PhD programs have heavily emphasized independent research, often with minimal coursework requirements. However, there is a growing recognition of the benefits of incorporating structured coursework into PhD programs to provide students with a more comprehensive and well-rounded education. This proposal outlines the rationale and framework for the introduction of a PhD coursework syllabus.

Resolution: The coursework syllabus is accepted and implemented.

Agenda 8: Finalization of list of Examiners, Scrutineers & Moderators for the current semester for Diploma, UG, PG program.

Proposition: The list of Examiners, Scrutineers, and Moderators for the current semester for Diploma, UG, and PG Programs has been prepared and reviewed in accordance with academic and departmental guidelines. The Board of Studies (BOS) is requested to approve the list, which includes qualified individuals based on their expertise, experience, and availability to ensure smooth conduct of examinations for the semester.

Resolution: List of Examiners, Scrutineers & Moderators for the current semester for Diploma, UG, PG, was approved by BOS Committee.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

4th Departmental Ad-Hoc BOS Committee Meeting

Dated: 10.04.2023

Agenda for **4th *Departmental Ad-Hoc BOS Committee Meeting:***

The Chairman of the board welcomed all the members of the board Meeting minutes

1. Members revised the curriculum and Proposed syllabus for B.Tech in Electronics and Communication Engineering according to the Choice Based Credit System (CBCS) format.
2. Members revised the curriculum and Proposed syllabus for M.Tech in Electronics and Communication Engineering mainly based on VLSI according to the CBCS curriculum.
3. Members revised the Proposed curriculum for PhD in Electronics and Communication Engineering
4. In the curriculum as per the Board members suggestions for incorporation of few New Subjects as well as some open and core electives Subjects' inclusions.
5. For the practical papers each paper may include practical contents. Theory paper in the same semester, Code names change accordingly.
6. Detail of the course done for the year 2023-24 are enclosed below

***Summary*:**

- Mrs. Shreya Adhikary initiated the meeting and briefed the objectives of BOS meeting as the chairman of the committee.
- Dr. Somali Sikder, Assistant Professor in the Department of Electronics and Communication Engineering, B. P. Poddar Institute of Management and Technology, shared the Proposed curriculum and syllabus for B Tech in Electronics and Communication Engineering, M Tech in Electronics and Communication Engineering.
- Dr. Angsuman Sarkar, Professor of the Department of Electronics and Communication Engineering, Kalyani Government Engineering College, is invited as the external subject expert and agreed with the proposed curriculum and syllabus for M.Tech are invited as the external subject expert and agreed with the proposed curriculum and syllabus for B Tech in Electronics and Communication Engineering, M Tech in Electronics and Communication Engineering.
- Dr. Bandana Barman Assistant Professor Department of Electronics & Communication Engineering Kalyani Government Engineering College, is invited as the external subject expert

Vice Chancellor
Swami Vivekananda University

and agreed with the proposed curriculum for PhD in Electronics and Communication Engineering with new basket of course work.

- Dr. Debasis Mondal, Assistant Professor, Department of Electronics and Communication Engineering, shared the documents containing the Question Paper format for 2020, 2021 and 2022 batch, List of paper setters for the end semester exam, List of external paper moderators, List of Examiners, and finalized scrutiny committee members.

Action taken:

- As suggested by Mrs. Shreya Adhikary, Co-ordinator, Department of Electronics and Communication Engineering, chairman of the committee, the new course will be started from June 2023. In the meeting, list of Subjects, Question Pattern, Exam timing all are decided.

Committee members:

1. Mrs. Shreya Adhikary, Co-ordinator, Department of Electronics and Communication Engineering, Swami Vivekananda University, Barrackpore.
2. Dr. Somali Sikder, Assistant Professor, Department of Electronics and Communication Engineering, B. P. Poddar Institute of Management and Technology
3. Dr. Bandana Barman Assistant Professor, Department of Electronics & Communication Engineering Kalyani Government Engineering College
4. Dr. Angsuman Sarkar, Professor, Department of Electronics and Communication Engineering, Kalyani Government Engineering College
5. Dr. Debasis Mondal, Department of Electronics and Communication Engineering, Swami Vivekananda University, Barrackpore.
6. Mr. Tomal Suvro Sannyashi, Department of Electronics and Communication Engineering, Swami Vivekananda University, Barrackpore.

Agenda

- Employability/Entrepreneurship/skill development centric curriculum Updation.
- Revision of Syllabus: Modification of name of courses & course codes in the existing B.Tech, M.Tech & Diploma course Curriculum.
- Revision of Course Content of the B.Tech, MTech & Diploma course curriculum.

Dr. Rituparna Mitra, HOD, Dept. of Electrical Engineering (EE), discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 4th Board of Studies (BOS) Meeting

Agenda 1: Employability/Entrepreneurship/skill development centric curriculum Updation.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on courses in focused on Employability/Entrepreneurship/skill development to enhance the possibility of developing entrepreneurship skills/software skill in B.Tech Electrical Engineering students.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 2: Revision of Syllabus: Modification of name of courses & course codes in the existing B.Tech, M.Tech & Diploma course Curriculum.
Proposition: A new Courses and Course Coding Scheme is being introduced for all courses in Electrical Engineering Programs to be followed from AY2022-23. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Agenda 3: Revision of Audit courses from existing MTech in Electrical Engineering with specialization with Power System & Power Electronics course curriculum.

Proposition: The revision of audit courses within the MTech program in Electrical Engineering with specialization in Power System and Power Electronics is crucial for staying abreast of technological advancements and industry demands. By aligning the curriculum with emerging trends, enhancing students' technical competencies, and fostering industry partnerships, we can ensure that graduates are well-equipped to excel in diverse roles within the manufacturing sector. Through collaborative efforts and ongoing evaluation, we can create a dynamic and responsive educational framework that prepares students for the challenges and opportunities of the future.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

Minutes of the Meeting / Resolution

Subject: Board of Studies meeting

Convened by: Mr. Sourav Saha		School / Department /Section: School of Computer Science and Dept. of CSE	
Date: 02/02/2024		Time: 2 p.m.	Minutes taken by: Dr. Ranjan Kumar Mondal, HOD
Venue: Block-6 Hall -1		Mode: Physical	Meeting No: 4
Members attended:			
Sl. No	**Name**	**Full affiliation**	**BoS position**
1	Prof. Amlan Chakraborty	Head, IT & Tech. InnovationCell Dept. of Higher Education, Govt. of West Bengal& Professor & Director, A.K. Choudhury School of I.T. University of Calcutta.	External Expert from Academia
2	Prof. J.K. Mandal	Professor, Department of Computer Science and Engineering (erstwhile Director, IQAC, University of kalyani	External Expert from Academia
3	Dr. Soumya Sen	Professor and Head, Computer Science and Engineering A.K. Choudhury School of I.T. University of Calcutta.	External Expert from Academia
4	Prof. SS Gupta	Professor, Dept. of CSE, Swami Vivekananda University	Invited Member
5	Dr Ranjan Kumar Mondal	HoD, Assistant Professor, Dept. of CSE, Swami Vivekananda University	Chairman
6	Sourav Saha	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
7	Subrata Nandi	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
8	Sumana Chakraborty	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
9	Sangita Bose	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
10	Sukriti Santra	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
11	Lipika Mukherjee Pal	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
12	Gautam Banerjee	Assistant Professor, Dept. of CSE, Swami Vivekananda University	Internal Member
Leave of absence granted to:			

Agenda List:

- The following curriculum and course structure are approved by the BOS, NEP 4 years Curriculum and Course structure of the following programs:
  - Bachelor of Computer Applications (BCA)
  - Bachelor of Advanced Networking and Cyber Security (ANCS)
  - Bachelor of Multimedia and Animation (MA)

Vice Chancellor
Swami Vivekananda University

- Approval of list of Paper setter, Moderators and Examiners for the forthcoming Even Semester 2024 Examination and Odd 2023 Examination (Post facto)

Resolution:

- The following curriculum and course structure are approved by the BOS, NEP 4 years Curriculum and Course structure
    - Bachelor of Computer Applications (BCA) **is Approved**
    - Bachelor of Advanced Networking and Cyber Security (ANCS) **is Approved**
    - Bachelor of Multimedia and Animation (MA) **is Approved**
- The list of moderators, paper setters, Examiners **are approved** the BoS after Examination Coordinator, Ms. Chakraborty placed this for kind approval.

Meeting Details		
Meeting Name: **Board of Studies**	Venue: **NND Block, Room No.309**	Date:**12/07/2023**
Convenor: **Dr. Manisha Maity**	Start time:**11:00 a.m**	End time:**2:00 p.m**

Attendees
Dr. Manisha Maity (Chairman, BoS)
Prof. Pubali Dhar (External Expert from Academics)
Dr. Anindita Ray Chakravarti (External Expert from Academics)
Prof. Bidyut Bandhopadhyay (External Expert from Academics)
Dr. Souvik Tewari (Member)
Dr. Rupali Dhara Mitra (Member)
Ms. Shreyasi Das (Member)
Dr. Moumita Dev (Member)
Dr. Jagannath Ghosh (Member)

Agenda
❖ Employability/Entrepreneurship/skill development centric curriculum Updation. ❖ Revision of Syllabus: Modification of name of courses & course codes in the existing B.Sc Curriculum. ❖ Revision of Course Content of the B.Sc. course curriculum.

Dr. Manisha Maity, HOD, Dept. of Food and Nutrition (F&N), discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 4th Board of Studies (BOS) Meeting

Agenda 1: Employability/Entrepreneurship/skill development centric curriculum Updation.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on courses in focused on Employability/Entrepreneurship/skill development to enhance the possibility of developing entrepreneurship skills in students.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 2: Revision of Syllabus: Modification of name of courses & course codes in the existing B.Sc course Curriculum.
Proposition: A new Courses and Course Coding Scheme of Major and SEC subjects are being introduced for B.Sc courses in Clinical Nutrition and Dietetics to be followed from AY2023-24. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Agenda 3: Revision of course curriculum: Modification of syllabus
Propositions: Several portions were added on the advice of the external members and also excluded unwanted parts

Agenda
❖ Confirmation of the Minutes of last Board of Studies meeting. ❖ Approval of consultancy work using departmental Centre for Advanced manufacturing laboratory. ❖ Discussion on training needs analysis of faculty and students ❖ Discussion on the required modifications on Vision, Mission of the departments & Program Educational Objectives (PEO)

Vice Chancellor
Swami Vivekananda University

Dr. Ranjan Kumar, Head, Dept. of Mechanical Engineering (ME), discussed the following agenda in presence of all the Board of Studies members.

Minutes of 4th Board of Studies (BOS) Meeting

Agenda 1: Confirmation of the Minutes of last Board of Studies meeting.
Resolution: The minutes of the last meeting held on 12/05/2022 was duly confirmed and approved.

Agenda 2: Approval of consultancy work using departmental Centre for Advanced manufacturing laboratory.
Proposition: Clearly define the scope of the consultancy project, including the specific services to be provided, the objectives of the project, and the expected outcomes. Ensure that the proposed work aligns with the capabilities and resources of the Advanced Manufacturing Laboratory.
Resolution: The board unanimously approves the engagement of consultancy services utilizing the Departmental Centre for Advanced Manufacturing Laboratory. This decision aligns with our strategic goals and will enhance our capabilities in research and development. We authorize the necessary resources and support for the successful execution of this initiative.

Agenda 3: Discussion on training needs analysis of faculty and students
Proposition: Non-credit skill enhancement courses like CNC training Courses will be introduced for B.Tech final and pre-final year students. Hands-on training on 3D Printing was also proposed. This was mooted based on feedback from the recruiters.
By addressing the training needs, faculty can develop the knowledge, skills, and confidence needed to create and deliver high-quality online courses through the MOOCs courses (like NPTEL/SWAYAM), thereby enhancing the overall learning experience for students and contributing to the success of the program.
Resolution: Action has been taken accordingly; students should be encouraged to enroll in CNC training Courses for enhancing their skill in placement perspective & faculty should be encouraged to enroll in MOOCs courses (like NPTEL/SWAYAM) for enhancing their teaching capability.
Agenda 4: Discussion on the required modifications on Vision, Mission of the departments & Program Educational Objectives (PEO)
Resolution: Head of the department notified the BOS about the proposed modifications in Vision, Mission of the departments & Program Educational Objectives (PEO) (Annexure-I) by the Departmental Committee (DC). All the BOS members express their satisfaction and approve the same to forward it to the VC office for further approval.

Need not required any changes for existing course curricular which has already been started from AY2021-22

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

Prepared By

Mr. Soumya Ghosh

Assistant Professor, Department of Mechanical Engineering, Swami Vivekananda University

Date: 11/07/2023

Vice Chancellor
Swami Vivekananda University

Annexure-I

Vision of the Department: To emerge as an excellent center of higher learning in Mechanical Engineering to develop professionals who are technically competent, ethical and capable of addressing the changing societal needs with credibility.

Mission of the Department:

1. To accomplish stimulating learning environment for students through quality teaching, research, and outreach activity by providing state of the art facilities, industry exposure, nurturing field for innovative ideas and guidance of dedicated faculty.
2. To develop real-time problem-solving skill for the challenges in core Mechanical engineering domain through value-based education.
3. To provide facilities for curricular & co-curricular activities necessary for development of overall personality of students.
4. To serve society through innovation and excellence in teaching and research.

Program Educational Objectives:

PEO1: Graduates will serve as mechanical engineer in various fields towards designing of systems, operation, and production.

PEO2: Graduates will strengthen professional practice by solving different industrial problems employing proper techniques & tools with social responsibility to reach global standards.

PEO3: Graduates will pursue higher study, research and lifelong learning.

Agenda

- Lab Exam: 5th Nov to 8th Nov 2024.
- Thesis/Dissertation Exam for M.Tech III semester candidates.
- Question Paper moderation
- Bosch Rexroth- Centre of excellence has been added to the department
- Theory exam schedule and preparation, syllabus completion.

Dr. Ranjan Kumar, Head, Dept. of Mechanical Engineering (ME), discussed the following agenda in presence of all the Board of Studies members.

Minutes of Board of Studies (BOS) Meeting

Agenda 1. Lab Exam: 5th Nov to 8th Nov 2024.

Resolution: The Board of Studies (BOS) resolves to schedule the laboratory examinations from 5th November to 8th November, 2024. This timeframe allows adequate opportunity for students to demonstrate their practical skills and knowledge in the respective subjects.

Agenda 2. Thesis/Dissertation Exam: 5th Nov to 8th Nov 2024.

Resolution: The BOS resolves to set the dates for thesis/dissertation examinations from 5th Nov to 8th Nov 2024. This period ensures ample time for students to finalize and defend their research work, facilitating a comprehensive assessment of their academic endeavours.

Agenda 3. Question Paper moderation

Resolution: The BOS approves to complete the moderation of question papers by 5th Nov, 2024. This ensures that all examination materials undergo thorough review and validation, maintaining the quality and integrity of the assessment process.

Agenda 4. Theory exam: 19th Nov to 21st Dec 2024.

Resolution: The BOS consented to conduct the theory examinations from 19th Nov to 22nd Dec 2024.

Agenda 5. Update with regard to Bosch Rexroth- Centre of Excellence

Resolution: "The Bosch Rexroth Centre of Excellence has been established in the department to foster industry-academia collaboration, promote advanced learning, and enhance research capabilities in the field of automation and hydraulics. This center will serve as a resource for students and faculty to gain practical skills, engages in industry-relevant projects, and contributes to innovation in mechanical and automation engineering."

Vice Chancellor
Swami Vivekananda University

These resolutions collectively signify the commitment of the Board of Studies to uphold academic standards,promote innovation in education, and cater to the evolving needs of students and industries.

Minutes of the Board of Studies Meeting of the Department of Psychology on April 28, 2023, via online mode regarding the **Term End Examination**, 2023

Meeting Link: https://meet.google.com/tss-ubcy-xqf

Date: 28.04.2023

Time: 4.00 PM

Agenda of the meeting:

- Finalization of the names of moderators for questions of the Term-End Examination of the even semester
- Recommendation and finalization of syllabus for Special Paper of Clinical & Forensic Psychology, Semester III & IV, M.Sc. in Applied Psychology

Members present

Sl No.	Name	Designation	Signature
1	Dr. Manisha Dasgupta, Associate Professor and Head, Department of Psychology, Calcutta University	External Member	2	Dr. Atanu Kumar Dogra, Assistant Professor, Department of Psychology, Calcutta University	External Member	2	Dr. Nilanjana Mitra, Assistant Professor and Head, Department of Psychology, SVU	Chairman	
3	Ms. Lina Sarkar, Assistant Professor & Co-ordinator, Department of Psychology, SVU	Convener	

Vice Chancellor
Swami Vivekananda University

4	Dr. Papia Mukherjee Pramanick, Assistant Professor and Exam Co-ordinator, Department of Psychology, SVU	Member	Papia Mukherjee (Pramanick)
5	Ms. Rudrani Mitra, Assistant Professor, Department of Psychology, SVU	Member	Rudrani Mitra
6	Ms. Madhurima Hazra, Assistant Professor, Department of Psychology, SVU	Member	Madhurima Hazra
7	Ms. Ishita Banerjee, Teaching Assistant, Department of Psychology, SVU	Member	Ishita Banerjee

Vice Chancellor
Swami Vivekananda University

Resolution of the Meeting

The meeting was presided over by the Head of the Department, who started off by outlining the agenda. The chairman recommended seven names for potential external members. Among them, five members were chosen by the external member based on their subject specialization. After a thorough discussion with all the members of the department, external member finalized subject-wise moderators and scrutineers for the smooth conduction of the question-making and evaluation process. (attached herewith)

Then, the syllabus for Special Paper of Clinical & Forensic Psychology, Semester III & IV, M.Sc. in Applied Psychology, was discussed and based on their recommendations the special paper of Clinical & Forensic Psychology was finalized.

The meeting ended with a vote of thanks to all.

List of Examiner(s), Scrutineer(s) etc. as recommended by the Board of Studies of the respective Department for the Odd Semester Examinations, 2023. (To be approved by the Hon'ble Vice Chancellor as per existing Examination Regulations)

Vice Chancellor
Swami Vivekananda University

Minutes of the 4th meeting of Board of Studies (Department of Psychology) held on 28.07.2023 at 6:00 P.M. in Online Mode.

Meeting Link: https://meet.google.com/kmr-vnay-eqy
Date: 28.07.2023
Time: 6:00 PM

In attendance -

1. Dr. Manisha Dasgupta, Associate Professor and Head, Department of Psychology, Calcutta University (External Member)
2. Dr. Ishita Chatterjee, Associate Professor, Department of Applied Psychology, Calcutta University. (External Member)
3. Dr. Atanu Kumar Dogra, Assistant Professor, Department of Psychology, Calcutta University. (External Member)
4. Dr. Nilanjana Mitra, Assistant Professor and Head, Department of Psychology, SVU (Chairman)
5. Ms. Lina Sarkar, Assistant Professor & Co-ordinator, Department of Psychology, SVU (Convener)
6. Dr. Papia Mukherjee (Pramanick), Assistant Professor, Department of Psychology, SVU (Internal Member)
7. Ms. Inshirah Ahmed, Assistant Professor, Department of Psychology, SVU (Internal Member)

Agenda of the meeting :

Alterations made in the new syllabus of B.Sc. in Psychology Major & Minor as per the National Education Policy (NEP 2020) guidelines.

Resolutions of the meeting :

- Overview of the syllabus was shown to the external members.
- Detailed syllabus of Major Papers for Semester I & II were shown respectively.
- Other departments' Minor Papers were decided.
- Major Papers were approved with omissions made in the practicum portion. One practical was removed from B.Sc Semester I.
- A paper on "Personality Fundamentals" in B.Sc. Semester V was changed to "Fundamentals of Personality"

Vice Chancellor
Swami Vivekananda University

- External members suggested changing the syllabus of the Skill Enhancement Course for Semester I & II both.
- Semester I - Skill Enhancement Course : Members suggested that introduction of case study and assessments will not be beneficial for the 1st semester as it requires hardcore understanding of disorders as well as some students may engage in malpractices by taking it as a diploma degree.
- Semester II - Skill Enhancement Course : same suggestions were given for this semester as well. Thus, the entire syllabus was changed.
- *New syllabus of Semester I* (Skill Enhancement Course) added is **Communication in Everyday Life : Psychological Perspectives.**

Minutes of the Board of Studies meeting of the Department of Psychology on 23.12.2023 via online mode regarding the following agenda:

Agenda of BOS Meeting:

1. Finalization of Four years UG semester II syllabus as per National Education Policy (NEP), 2020 guidelines.

2. Proposal of name change of the masters course program from M.Sc. in Applied Psychology to M.A./M.Sc. in Applied Psychology.

Meeting Link: meet.google.com/pac-hrqf-dox
Date: 23.12.2023
Time: 2.00 PM

Agenda 1:

Finalization of Four years UG semester II syllabus as per National Education Policy (NEP). 2020 guidelines.

Convenor of the meeting put the detailed draft syllabus of the semester II Undergraduate course B.Sc. in Psychology as per National Education Policy (NEP), 2020 guidelines.

External experts have advised some necessary changes and after a detailed discussion, the syllabus has been unanimously accepted and approved by the committee. The committee has praise for preparing the robust syllabus as per the need of the modern times.

Agenda 2:

Proposal of name change of the postgraduate course program from M.Sc. in Applied Psychology to M.A./M.Sc. in Applied Psychology.

Keeping in mind that the eligibility criteria for the postgraduate course program is graduation in any discipline; it is advised that the course name to be changed from just M.Sc. in Applied Psychology to M.A./M.Sc. in Applied Psychology from the upcoming new session. This change in course name has been unanimously accepted and approved by the committee.

After the fruitful discussion, the meeting ended with a vote of thanks to all.

Minutes of the Board of Studies Meeting of the Department of Psychology on April 23rd, 2024, via online mode regarding the Term End Examination, 2024

Meeting Link: meet.google.com/fac-hrqf-dox
Date: 23.04.2024
Time: 12.00 PM

Agenda of the meeting:

• Finalization of the names of external moderators for Term-End Examination of the even semester 2024.

Minutes of the Meeting:

The meeting was presided over by the Head of the Department, who started off by outlining the agenda. The chairman recommended seven names for potential external moderators, which are as follows:

Dr. Anindita Chaudhuri
Associate Professor, Dept. of Psychology, Calcutta University

Dr. Priyankar Singha
Assistant Professor, Dept. of Applied Psychology, Calcutta University

Dr. Soma Pramanik
Assistant Professor, Dept. of Psychology, St. Xavier's University, Kolkata

Dr. Moumita Mukherjee
Assistant Professor, Dept. of Psychology, St. Xavier's University, Kolkata

Dr. Arkita Pal
Assistant Professor, Unitedworld School of Liberal Arts (Psychology), Karnavati University

Vice Chancellor
Swami Vivekananda University

Ms. Aparajita Chakraborty
Assistant Professor, Department of Psychology, Amity University, Kolkata

Mr. Dipanjan Bagchi
Assistant Professor, Department of Psychology, Amity University, Kolkata

Amongst them, following five members were chosen by the external members based on their subject specialization and expertise:

Dr. Anindita Chaudhuri
Associate Professor, Dept. of Psychology, Calcutta University

Dr. Priyankar Singha
Assistant Professor, Dept. of Applied Psychology, Calcutta University

Dr. Moumita Mukherjee
Assistant Professor, Dept. of Psychology, St. Xavier's University, Kolkata

Dr. Soma Pramanik
Assistant Professor, Dept. of Psychology, St. Xavier's University, Kolkata

Dr. Arkita Pal
Assistant Professor, Unitedworld School of Liberal Arts (Psychology), Karnavati University

After a thorough discussion with all the members of the department, and the external members, the subject-wise moderators (both external and internal) and scrutineers were finalized for the smooth conduction of the question paper-making and evaluation process. (attached herewith)

After the fruitful discussion, the meeting ended with a vote of thanks to all.

Vice Chancellor
Swami Vivekananda University

List of Examiner(s), Scrutineer(s) etc. as recommended by the Board of Studies of the respective Department for the Even Semester Examinations, 2024. (To be approved by the Hon'ble Vice Chancellor as per existing Examination Regulations)

Agenda

- Implementation of **Choice Based Credit System** in M. Sc (Physics).
- Introduction of New Coding Scheme implemented in the M. Sc Physics Program.
- Implementation of **National Education Policy 2020** in UG (Physics).
- Revision of Physics syllabus: Modification of the name of courses and course codes in the existing B. Tech courses curriculum.
- Review of course content of the existing Physics syllabus of the B. Tech course curriculum.
- Review of the name of courses and course codes in the existing Physics syllabus of the Diploma course curriculum.
- Review of Physics course content of the Diploma course curriculum.

Dr. Subhabrata Mondal, Convenor of the meeting discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda 1: Implementation of Choice Based Credit System in M.Sc (Physics).

Proposition: The implementation of Choice Based Credit System (CBCS) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students' flexibility, choice, and interdisciplinary learning opportunities, CBCS empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 2: Introduction of New Coding Scheme implemented in the M.Sc Physics Program.

Proposition: A new Course Coding Scheme is being introduced in the University for the programs to be followed from AY2023-24. The new Codes are embedded in the Course Structure.

Resolution: The Course Structure with new course codes was approved.

Agenda 3: Implementation of National Education Policy 2020 in UG (Physics).

Proposition: The implementation of National Education Policy (NEP 2020) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students flexibility, choice, and interdisciplinary learning opportunities, NEP 2020 empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of NEP 2020 into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 4: Revision of Physics syllabus: Modification of the name of courses and course codes in the existing B. Tech courses curriculum.

Proposition: The existing syllabus of Physics of all the B. Tech courses have been reviewed and some of the names of courses and course codes have been modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 5: Review of course content of the existing Physics syllabus of the B. Tech course curriculum.

Proposition: The detailed Physics syllabus of the B. Tech courses have been reviewed and some portions were modified and some parts were excluded accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 6: Review of the name of courses and course codes in the existing Physics syllabus of the Diploma course curriculum.

Proposition: The existing name of courses and course codes of Physics syllabus of the Diploma course curriculum have been reviewed and modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 7: Review of Physics course content of the Diploma course curriculum.

Vice Chancellor
Swami Vivekananda University

Proposition: The detailed syllabus of Physics for the Diploma courses has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Vice Chancellor
Swami Vivekananda University

Dr. Subhabrata Mondal, Convenor of the meeting discussed the following agenda in presence of all the Board of Studies members.

Minutes of Board of Studies (BOS) Meeting

Vice Chancellor
Swami Vivekananda University

Agenda 1: Review of the name of courses and course codes in the existing Physic :h course curriculum.

Proposition: The name of courses and course codes in the existing Physics syllabus of the B. Tech course curriculum have been reviewed and necessary changes were made accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 2: Review of course content of the existing Physics syllabus of the B. Tech course curriculum.

Proposition: The detailed Physics syllabus of the B. Tech courses have been reviewed and some portions were modified, some new topics have been incorporated and some parts were excluded accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 3: Review of the name of courses and course codes in the existing Physics syllabus of the Diploma course curriculum.

Proposition: The name of courses and course codes in the existing Physics syllabus of the Diploma course curriculum have been reviewed and modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 4: Review of Physics course content of the Diploma course curriculum.

Proposition: The detailed syllabus of Physics for the Diploma courses has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 5: Review of Physics course content and course codes of the existing M. Sc. Physics syllabus.

Proposition: The course content and the course codes of the existing M. Sc. Physics syllabus has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 6: Review of Physics course content and course codes of the existing B. Sc. Physics syllabus.

Proposition: The course content and the course codes of the existing B. Sc. Physics syllabus has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Vice Chancellor
Swami Vivekananda University

Minutes of the Board of Studies meeting of the Department of Physics, School of Sciences, Swami Vivekananda University held on 2nd May, 2025 in the office of the Director, School of Science.

Agenda 1: To consider the recommendation of the Syllabus Committee regarding:

(a) The change of name of the existing 2-year, 4-semester M. Sc. course in Physics.

(b) The upgraded syllabus in conformity with the recommendation 1(a).

Discussion: The members of the Board of Studies deliberated on the above agenda and came to the following resolution:

Resolution 1(a): Resolved that as per the recommendation of the Syllabus Committee, the existing 2-year, 4-semester M. Sc. course in Physics be renamed as "M. Sc. in Physics and Semiconductor Physics" with the 2-year, 4-semester structure remaining the same.

(b) Resolved that the modified syllabus of the new course "M. Sc. in Physics and Semiconductor Physics" as prepared by the Syllabus Committee be approved with minor alteration.

Agenda 2: Miscellaneous.

Resolved that the above recommendation be submitted to the Academic Council/Higher Body for necessary approval and action such that the new course may be implemented from the coming academic session.

Rituparna Mondal

Subhabrata Mondal

DEPARTMENT OF PHYSIOTHERAPY

Meeting Details		
Meeting Name: **Board of Studies**	Venue: **SVU**	Date: **11/11/2023**
Convenor: **Prof. (Dr.) Subrata Kumar Dey**	Start time: **1:00 p.m**	End time: **4:00 p.m**

Attendees
Prof. (Dr.) Subrata Kumar Dey (Chairman, BoS)
Dr. Shazad Anwar (External Expert from Academics)
Dr. Satyen Bhattacharyya (External Expert from Academics)

Agenda

- Revision of **Choice Based Credit System** in BPT (Bachelor of Physiotherapy)
- Revision of Coding Scheme implemented in BPT Program
- Revision of Value-Added Courses beyond the Course Curriculum
- Employability/Entrepreneurship/skill development centric curriculum is rechecked.
- Revision of Syllabus: Modification of courses & course codes in the existing BPT course Curriculum.
- Revision of Course Content of the BPT course curriculum.
- Revision of Syllabus: Addition of few Courses in the existing BPT (Bachelor of Physiotherapy) curriculum.

Prof. (Dr.) Subrata Kumar Dey, Vice Chancellor, SVU, discussed the following agenda in presence of all the Board of Studies members.

Minutes of 4th Board of Studies (BOS) Meeting

Agenda 1: Revision of Choice Based Credit System in Bachelor of Physiotherapy

Proposition: The implementation of Choice Based Credit System (CBCS) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students' flexibility, choice, and interdisciplinary learning opportunities, CBCS empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.
Resolution: The board unanimously agreed and welcomed the change.

Agenda 2: Revision of Course Coding Scheme

Proposition: A new Course Coding Scheme is being introduced in the University for all programs to be followed from AY2022-23. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Scanned with A ...er
Vice Chancellor
Swami Vivekananda University

Agenda 3: Revision of New Value-Added Courses beyond the Course Curriculum

Proposition: The introduction of value-added courses beyond the course curriculum presents an exciting opportunity to enrich the educational experience and enhance the employability of our students. By offering practical skills, industry insights, and hands-on experiences, these courses align our institution with the evolving needs of the workforce and contribute to the success and competitiveness of our students in their future careers. Through careful planning, collaboration, and evaluation, we can ensure the successful implementation and ongoing success of value-added audit courses at our institution.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 4: Employability/Entrepreneurship/skill development centric curriculum is rechecked.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on courses in focused on Employability/Entrepreneurship/skill development to enhance the possibility of developing entrepreneurship skills/software skill in students.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 5: Revision of Syllabus: Modification of name of courses & course codes in the existing BPT course Curriculum.

Proposition: A new Courses and Course Coding Scheme is being introduced for all courses in BPT Programs to be followed from AY2022-23. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS

Attendees	
Prof. (Dr.) Subrata Kumar Dey (Chairperson, BoS)	Honorable Vice Chancellor, SVU
Dr. Pinak Pani Nath (Convenor, BOS)	Honorable Registrar, SVU
Dr. Soumen De (External Expert from Academics)	Associate Professor, Department of Applied Mathematics,University of Calcutta, Kolkata 700009
Dr. Gour Chandra Mahata (External Expert from Academics)	Associate Professor, Department of Mathematics, Sidho-Kanho-Birsha University

Agenda

- Implementation of Mathematics syllabus of the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Data Science (DS), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments.
- Implementation of Mathematics syllabus of the M. Tech course curriculum for the students of Computer Science and Engineering (CSE), Civil Engineering (CE), Electronics and Communication Engineering (ECE).
- Implementation of Mathematics syllabus of the Diploma course curriculum for students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE).
- Implementation of Mathematics syllabus to School of Agriculture and School of Allied Health Sciences.

Prof. (Dr.) Subrata Kumar Dey, Hon'ble Vice Chancellor discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda 1: Implementation of National Education Policy 2020 in UG (Mathematics).

Proposition: The implementation of National Education Policy (NEP 2020) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students flexibility, choice, and interdisciplinary learning opportunities, NEP 2020 empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of NEP 2020 into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 2: Revision of Mathematics syllabus: Modification of the name of courses and course codes in the existing B. Tech & M.tech courses curriculum.

Proposition: The existing syllabus of Mathematics of all the B. Tech & M.Tech courses have been reviewed and some of the names of courses and course codes have been modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 3: Review of course content of the existing Mathematics syllabus of the B. Tech & M.Tech course curriculum.

Proposition: The detailed Mathematics syllabus of the B. Tech courses have been reviewed and some portions were modified and some parts were excluded accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 4: Review of the name of courses and course codes in the existing Mathematics syllabus of the Diploma course curriculum.

Proposition: The existing name of courses and course codes of Mathematics syllabus of the Diploma course curriculum have been reviewed and modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 5: Review of Mathematics course content of the Diploma course curriculum.

Proposition: The detailed syllabus of Mathematics for the Diploma courses has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda

- Revision of Mathematics syllabus: Modification of the name of courses and course codes in the existing B. Tech & M.Tech courses curriculum.
- Review of course content of the existing Mathematics syllabus of the B. Tech & M.Tech course curriculum.
- Review of the name of courses and course codes in the existing Mathematics syllabus of the Diploma course curriculum.
- Review of Mathematics course content of the Diploma course curriculum.
- Implementation of **Choice Based Credit System** in M.Sc (Mathematics).

Dr. Subhabrata Mondal, Convenor of the meeting Dept. of Mathematics, nominated by Hon'ble Vice Chancellor discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda 1: Revision of Mathematics syllabus: Modification of the name of courses and course codes in the existing B. Tech & M.Tech courses curriculum.

Proposition: The existing syllabus of Mathematics of all the B. Tech & M.Tech courses have been reviewed and some of the names of courses and course codes have been modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 2: Review of course content of the existing Mathematics syllabus of the B. Tech & M.Tech course curriculum.

Proposition: The detailed Physics syllabus of the B. Tech & M.Tech courses have been reviewed and some portions were modified and some parts were excluded accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 3: Review of the name of courses and course codes in the existing Mathematics syllabus of the Diploma course curriculum.

Proposition: The existing name of courses and course codes of Mathematics syllabus of the Diploma course curriculum have been reviewed and modified accordingly.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 4 : Review of Mathematics course content of the Diploma course curriculum.

Proposition: The detailed syllabus of Mathematics for the Diploma courses has been reviewed and some portions were modified.

Resolution: The board unanimously agreed and welcomed the proposal.

Agenda 5 : Implementation of **Choice Based Credit System** in M.Sc (Mathematics).
Proposition: The implementation of Choice Based Credit System (CBCS) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students' flexibility, choice, and interdisciplinary learning opportunities, CBCS empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.
Resolution: The board unanimously agreed and welcomed the change.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University, and the Chairperson of BOS.

Agenda

- Implementation of **National Education Policy 2020** in UG (Mathematics).
- Revision of Mathematics syllabus: Modification of the name of courses and course codes in the existing B. Tech & M.Tech courses curriculum.
- Review of course content of the existing Mathematics syllabus of the B. Tech & M.Tech course curriculum.
- Review of the name of courses and course codes in the existing Mathematics syllabus of the Diploma course curriculum.
- Review of Mathematics course content of the Diploma course curriculum.

Dr. Subhabrata Mondal, Convenor of the meeting discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of Board of Studies (BOS) Meeting

Agenda 1: Implementation of Mathematics syllabus of the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Data Science (DS), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments.

Proposition: A new Mathematics syllabus has been designed for the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabus has been modified accordingly as per suggestions of the learned members.

Resolution: The board unanimously agreed and approved the syllabus.

Agenda 2: Implementation of Mathematics syllabus of the Diploma course curriculum for students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE).

Proposition: A new Mathematics syllabus has been designed for the Diploma course curriculum for the first year students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE) departments. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabus has been modified accordingly as per suggestions of the learned members.

Resolution: The board unanimously agreed and approved the syllabus.

Agenda 3: Implementation of Mathematics syllabus of the M. Tech course curriculum for the students of Computer Science and Engineering (CSE), Civil Engineering (CE), Electronics and Communication Engineering (ECE).

Proposition: A new Mathematics syllabus has been designed for the M.Tech course curriculum for the first year students of Computer Science and Engineering (CSE), Civil Engineering (CE), Electronics and Communication Engineering (ECE) departments. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabus has been modified accordingly as per suggestions of the learned members.

Resolution: The board unanimously agreed and approved the syllabus.

Agenda 4: Implementation of Mathematics syllabus to School of Agriculture, School of Management and School of Allied Health Sciences

Proposition: A new Mathematics syllabus has been designed for the School of Agriculture, School of Management and School of Allied Health. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabus has been modified accordingly as per suggestions of the learned members.

Resolution: The board unanimously agreed and approved the syllabus.

The minute is issued in concurrence with the Registrar, Swami Vivekananda University and the Chairperson of BOS.

Dr. Kalipada Pal (External Expert from Academics)	Associate Professor (retd.) Department of Chemistry, RKMVC College, Rahara, Kolkata

Agendas of the meeting:

1. Implementation of Chemistry syllabus of the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Data Science (DS), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments.
2. Implementation of Chemistry and Environmental Science syllabus of the Diploma course curriculum for students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE).
3. Implementation of Chemistry and Environmental Studies and Disaster Management syllabus of the B. Tech course curriculum for the students of Agricultural Engineering department.
4. Implementation of Environmental Science syllabus for all the undergraduate courses.

Prof. (Dr.) Subrata Kumar Dey, Hon'ble Vice Chancellor discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Agenda 1: Implementation of Chemistry syllabus of the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Data Science (DS), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments.

Resolution: A new Chemistry syllabus has been designed for the B. Tech course curriculum for the students of Computer Science and Engineering (CSE), Civil Engineering (CE), Mechanical Engineering (ME), Electronics and Communication Engineering (ECE), Electrical Engineering (EE) departments. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabus has been modified accordingly as per suggestions of the members present in the meeting. The board unanimously agreed and approved the syllabus.

Agenda 2: Implementation of Chemistry and Environmental Science syllabus of the Diploma course curriculum for students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE).

Resolution: A new Chemistry and Environmental Science syllabus have been designed for the Diploma course curriculum for the first year students of Computer Science and Technology (CST), Civil Engineering (CE), Mechanical Engineering (ME), Electrical Engineering (EE) departments. The detail course content along with the course structure have been discussed with the member present in the meeting. The syllabuses have been modified as per the suggestions of the external members. The board unanimously agreed and approved the syllabus.

Agenda 3: Implementation of Chemistry and Environmental Studies and Disaster Management syllabus of the B. Tech course curriculum for the students of Agricultural Engineering department

Resolution: A new Chemistry syllabus as well as an Environmental Studies and Disaster Management syllabus have been designed for the B.Tech course curriculum for the first year students of Agriculture department. The detail course content along with the course structure have been discussed with the member present in the meeting. The necessary modification of the syllabus has been done as per suggestions of the learned members. The board unanimously agreed and approved the syllabus.

Agenda 4: Implementation of Environmental Science syllabus for all the undergraduate courses

Resolution: A new Environmental Science syllabus has been designed for all the undergraduate courses. The detail course content along with the course structure have been discussed with the member present in the meeting and the syllabus has been modified accordingly as per suggestions of the learned members. The board unanimously agreed and approved the syllabus.

Agendas of the meeting:

1. Revision of course curriculum/syllabus for the Chemistry course in the B.Tech CE/ME/ECE/EE/CSE/DS) program.
2. Miscellaneous (if any)

Prof. (Dr.) Subrata Kumar Dey, Hon'ble Vice Chancellor discussed the following agenda in presence of all the Board of Studies members.

Agenda1: Revision of course curriculum/syllabus for the Chemistry course in the B.Tech (CE/ME/ECE/EE/CSE/DS) program.

Resolution: Dr. Pinak Pani Nath informed the external members that previously the chemistry course was running in the first semester for the B. Tech ECE and B. Tech EE and for other programs it was running in second semester. In the new curriculum the same thing will be followed that chemistry course will run in the first semester for the B. Tech ECE and B. Tech EE

Vice Chancellor
Swami Vivekananda University

and for other programs it will run in second semester. He asked the external members to go through the proposed syllabus of Chemistry for B. Tech program that will run in the University in semester-II as per the new curriculum and requested them to suggest any changes if required. External member Dr. Kalipada Pal suggested few changes in the syllabus of Chemistry theory course.

He suggested to replace the topic Schrödinger equation by ''time independent Schrödinger equation''. There was a discussion on Crystal field theory also and everyone well agreed to the decision that for Crystal field theory the Jahn teller distortion should be omitted for B. Tech program and only the basic part of this theory related to the octahedral and tetrahedral splitting diagram will be discussed. Dr. Soumya K Biswas suggested that for Acid-Base in the fourth unit of the syllabus all the acid base theories should be properly indicated in the syllabus and HSAB (hard soft acid base) theory should not be incorporated. In addition to this he also advised to clearly mention the topics of water chemistry that will be covered in this syllabus.

Dr. Kalipada Pal also suggested to remove "isomerism in transition metals" from the syllabus. Apart from these he also recommended to mention the name of the drugs that will be taught in the "Synthesis of a commonly used drug molecule' topic in the last unit of this syllabus.

The second semester's Chemistry syllabus (for B. Tech) was finally agreed upon by all the members and the second semester's Chemistry Lab syllabus was discussed. Other details related to the Chemistry Lab in the second semester were also discussed. The external expert Dr. Kalipada Pal gave few suggestions regarding the Chemistry Lab syllabus and conduction of those experiments in the lab. He advised to remove the following experiments from the syllabus:

Determination of the rate constant of a reaction
Determination of the partition coefficient of a substance between two immiscible liquids
Adsorption of acetic acid by charcoal

All the suggestions from the external experts were discussed and accepted by all the members present in these meeting and at the end of the meeting the second semester's syllabus of Chemistry and Chemistry Lab for various B. Tech Engineering programs running in the University were finalized.

Agenda2: Miscellaneous (if any)

There were no other issues to discuss so, the meeting was finally concluded by the Chairman with vote of thanks.

Meeting Details		
Meeting Name: **Board of Studies**	Meeting Mode: **Offline**	Date: **19/05/2023**
Convenor: Mr. Souvik Roy	Start time **11 a.m.**	End time: **1:00 p.m**
Venue: Swami Vivekananda University Campus		

Attendees	
Dr. Arpita Sarkar (Chairperson, BoS)	Associate Professor and Head, Department of Chemistry, Swami Vivekananda University
Mr. Souvik Roy (Convenor, BOS)	Assistant Professor, Department of Chemistry, Swami Vivekananda University
Dr. Soma Mukherjee (External Expert from Academics)	Professor Department of Environmental Science, University of Kalyani, Kalyani
Dr. Kalipada Pal (External Expert from Academics)	Associate Professor (retd.) Department of Chemistry, RKMVC College, Rahara, Kolkata

Agendas of the meeting:

1. Modification of the BOS committee for the Dept. of Chemistry
2. Revision of syllabus for the Environmental Science course in the undergraduate program.
3. Miscellaneous (if any)

The chairman of the board of studies, Dr. Arpita Sarkar welcomed all the external members and introduced the agenda of the meeting. Approval was taken from the members regarding all the agendas.

1. **Modification of the BOS committee for the Dept. of Chemistry**

The chairman proposed to remove the name of Dr. Soumya K Biswas (external member) from the BOS committee and incorporate the name of new external member Dr. Soma Mukherjee. All the members accepted this change.

Vice Chancellor
Swami Vivekananda University

2. **Revision of syllabus for the Environmental Science course in the undergraduate program.**

Dr. Arpita Sarkar explained the changes in new curriculum and the syllabus for the Environmental Science course in the under graduate program and also informed that the course will be considered as a value-added course as per new education policy. Dr. Sarkar informed the external members that the Environmental Science course will run in the first semester and second semester both for all the under graduate programs and the credit of the courses are 2. She asked the external members to go through the proposed syllabus of the above said course and requested them to suggest any changes if required. External member Dr. Soma Mukherjee suggested few changes in the syllabus of Environmental Science course. All the suggestions from the external experts were discussed and accepted by all the members present in the meeting and at the end of the meeting the syllabus of Environmental Science for under graduate programs running in the University were finalized.

3. **Miscellaneous (if any)**

There was another issue to discuss which was the change in the curriculum of Chemistry course (theory and lab both) in B. Tech program. Dr. Arpita informed the external members that the chemistry course will run in the first semester for the B. Tech CSE and B. Tech DS and for other programs (i.e, for B. Tech EE, ECE, ME and CE) it will run in the second semester as per the new curriculum.

There were no other issues to discuss so, the meeting was finally concluded by the Chairman Dr. Arpita Sarkar with vote of thanks.

The minute is issued in concurrence with Dr. Arpita Sarkar, Chairperson of BOS, Swami Vivekananda University.

Meeting Details		
Meeting Name: **Board of Studies**	Venue: **Online (Google meet)**	Date:**11/04/2023**
Convenor: **Prof. (Dr.) Subrata Kumar Dey**	Start time:**12.00 pm**	End time: **2.00pm**
Meeting Mode: Offline	Venue: NND309	

Attendees
Prof. (Dr.) Subrata Kumar Dey (Chairman, BoS)
Dr.Joy Basu (External Expert from Academics)
Associate professor Dr. Sandip Mukherjee (External Expert from Academics)
Professor. Dr. Mausumi Sikdar (External Expert from Academics)

Agenda
❖ Implementation of **Choice Based Credit System** in B.Sc (Medical Laboratory Technology)
❖ Introduction of New Coding Scheme implemented in all the B.Sc program.
❖ Introduction of New Value-Added Courses beyond the Course Curriculum
❖ Revision of the syllabus framed 2021(CBCS)
❖ Employability/Entrepreneurship/skill development centric curriculum Implementation.

Prof. (Dr.) Subrata Kumar Dey, Vice Chancellor, SVU, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 2nd Board of Studies (BOS) Meeting

Agenda 1: Implementation of Choice Based Credit System in B.Sc (Medical Laboratory Technology)

Proposition: The implementation of Choice Based Credit System (CBCS) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students' flexibility, choice, and interdisciplinary learning opportunities, CBCS empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.
Resolution: The board unanimously agreed for the formation of the syllabus.

Agenda 2: Introduction of New Course Coding Scheme

Proposition: A new Course Coding Scheme is being introduced in the University for all programs to be followed from AY2023-24. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Agenda 3: Introduction of New Value-Added Courses beyond the Course Curriculum

Proposition: The introduction of value-added courses beyond the course curriculum presents an exciting opportunity to enrich the educational experience and enhance the employability of our students. By offering practical skills, industry insights, and hands-on experiences, these courses align our institution with the evolving needs of the workforce and contribute to the success and competitiveness of our students in their future careers. Through careful planning, collaboration, and evaluation, we can ensure the successful implementation and ongoing success of value-added audit courses at our institution.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 4: Revision of the syllabus framed 2022-23(CBCS)

Proposition: With due consideration the syllabus has been revised the GE baskets has been upgraded and approved by the committee members.
Resolution: The overall framework was highly appreciated believed by industry and academia.

Agenda 5: Employability/Entrepreneurship/skill development centric curriculum Implementation.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on courses in focused on Employability/Entrepreneurship/skill development to enhance the possibility of developing entrepreneurship skills within students.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Minutes of the Board of Studies Meeting

Date: 21.06.24

Venue: NND 309, Swami Vivekananda University

Chairperson: Prof. Dr. Subrata Kumar Dey

Members Present:
Dr. Joy Basu (External Expert from Academics)
Dr. Sandip Mukherjee (External Expert from Academics)
Dr. Alak Kumar Syamal (External Expert from Academics)

Agenda: Discussion on curriculum enhancement and introduction of new value-added and skill development courses.

1. Introduction of New Value-Added Courses Beyond the Curriculum

Proposition:
The Board proposed the introduction of value-added courses to complement the existing curriculum and enhance students' interdisciplinary knowledge and employability.

Recommendation:
It was recommended to introduce selective value-added courses aligned with industry requirements and emerging technologies. The Board emphasized periodic review to keep them relevant.

2. Continuation of Majority of Existing Courses

Proposition:
The Board reviewed the current set of value-added and core courses.

Recommendation:
It was unanimously recommended to retain the majority of the existing courses, as they are well-structured and continue to serve academic and professional development needs effectively.

Vice Chancellor
Swami Vivekananda University

3. Minor Changes and Revisions in Existing Courses

Proposition:
Feedback from faculty and industry experts indicated the need for certain updates in the course content.

Recommendation:
Minor changes in terms of content updates, credit structures, and inclusion of current trends were proposed and incorporated. These revisions were appreciated and endorsed by external experts as constructive and necessary for curriculum refinement.

4. Introduction of Skill Development Courses

Proposition:
The Board discussed the growing need for students to acquire hands-on skills aligned with practical industry requirements.

Recommendation:
It was recommended to introduce dedicated skill development courses across all disciplines. These should focus on tools, technologies, and methodologies currently in demand in the job market.

5. Orientation Towards Practical Learning

Proposition:
A need was identified to bridge the gap between theoretical knowledge and its practical application.

Recommendation:
The Board strongly recommended that newly introduced and existing courses should be made more practical-oriented, with increased focus on case studies, lab-based learning, industrial visits, live projects, and internships.

Conclusion:
The meeting concluded with a consensus on the above recommendations. The Chairperson thanked all members for their valuable insights and contributions. The approved suggestions will be implemented from the upcoming academic session.

Vice Chancellor
Swami Vivekananda University

Swami Vivekananda University

School of Humanities and Social Sciences

Department of Journalism and Mass Communication

Board of Studies (BOS) Meeting, AY 2023-24

Minutes of Board of Studies (BOS) Meeting:

1. **Organizing Induction Cum Lecture Series by Industry Professionals.**

   Proposition: The Board proposes the organization of an induction cum lecture series facilitated by industry professionals to provide students with practical insights and real-world perspectives.

   Resolution: The Board resolves to coordinate the scheduling and execution of an induction cum lecture series featuring industry experts. This initiative aims to enrich students' understanding of industry dynamics, career prospects, and emerging trends, fostering a deeper connection between academic learning and professional practice.

2. **Re-evaluating the NEP 2020 Guidelines for Smoother Implementation.**

   Proposition: The Board suggests a thorough review of the National Education Policy (NEP) 2020 guidelines, with a focus on enhancing implementation strategies to better accommodate provisions such as multiple entry and exit options.

   Resolution: The Board resolves to conduct a comprehensive reassessment of the NEP 2020 guidelines, considering adjustments to facilitate smoother implementation processes, especially concerning provisions related to multiple entry and exit points and course flexibility. This re-evaluation aims to optimize institutional practices in alignment with NEP objectives, thereby promoting student empowerment and academic success.

3. **Regarding Placement Opportunities in Industry and Academic Institutions**

Vice Chancellor
Swami Vivekananda University

Proposition: The Board proposes strategic discussions on enhancing placement opportunities for final-year students, encompassing both industry placements and admissions to higher academic institutions.

Resolution: The Board resolves to strategize initiatives aimed at improving placement prospects for final year students, including strengthening industry partnerships, expanding internship programs, and facilitating collaborations with academic institutions offering advanced degree programs. This endeavor seeks to equip students with diverse career pathways and support their transition into professional roles or further academic pursuits.

4. **Providing Guidance for Competitive Exams like NET, SET, etc.**

Proposition: The Board proposes that teachers take additional classes to provide guidance and support for students preparing for competitive exams like NET, SET, etc. This includes offering study materials.

Resolution: The Board resolves to mandate teachers to conduct extra classes specifically tailored to help students prepare for competitive exams such as NET, SET, etc. Additionally, teachers will be tasked with providing study materials to further assist students in their exam preparation. This initiative aims to ensure that students receive comprehensive support and guidance to excel in competitive examinations, enhancing their academic and professional prospects.

5. **Discussion on Organizing National/International Conference, Seminar, Workshop, Hands-on Training**

Proposition: The Board proposes a discussion on organizing a National/International Conference, seminar, workshop, or hands-on training session to facilitate knowledge

Vice Chancellor
Swami Vivekananda University

exchange and skill development among students and faculty members.

Resolution: The Board resolves to explore the feasibility and potential benefits of organizing a National/International Conference, seminar, workshop, or hands-on training session within the department. This discussion will involve brainstorming ideas, identifying potential topics and themes, and outlining strategies for effective organization and execution. The aim is to provide opportunities for networking, collaboration, and professional growth for both students and faculty members, contributing to the overall academic enrichment of the department.

6. **Agenda Item: Planning to Introduce Certificate Courses AY 2023-24 Onwards**

Proposition: The Board proposes to explore the introduction of certificate courses starting from the Academic Year (AY) 2023-24, aimed at offering specialized training and skill development opportunities in specific areas related to journalism and mass communication.

Resolution: The Board resolves to initiate discussions and planning for the introduction of certificate courses starting from the Academic Year (AY) 2023-24. These certification courses, namely Digital Marketing & Graphics for UG & PG final year (MJMC 4th Semester & BJMC 6th Semester), and Certification Course on AI & 2D & 3D Animation for UG & PG pre-final year (BJMC 4th Semester & MJMC 2nd Semester) will be meticulously designed to provide students with focused training and practical skills in niche areas of journalism and mass communication. These courses are intended to complement the existing academic curriculum, offering students specialized knowledge and expertise aligned with industry demands and emerging trends in the field.

Department of Journalism and Mass Communication
Board of Studies (BOS) Meeting

Mode of the meeting: Offline
Venue: JCB First Floor
Date and Time : 17-01-2025, 02:00 PM

Agenda of the BOS meeting:

1. Finalization of External Moderator lists for the Department of Journalism and Mass Communication.
2. Discussion on Even Semester 2025 Paper setters, Internal moderators, Examiners and Scrutineers.
3. Discussion on the type of questions to be set and date of submission of question papers.
4. Miscellaneous (if any).

Members present:

Sl. No.	Name	Designation	Signature
1	Dr. Pramiti Roy, Associate Professor,Head Department of Journalism & Mass Communication Director, School of Humanities and Social Sciences, SVU	Member	Pramiti Roy
2	Dr. Moumita Chakraborty, Assistant Professor, SVU	Member	Moumita Chakraborty
3	Miss. Pritha Misra, Teaching Assistant, SVU	Member	Pritha Misra
4	Mr. Kishor Kumar Hira, Senior Graphic Instructor, SVU	Member	

Vice Chancellor
Swami Vivekananda University

5	Mr. Sujoy Goswami, Senior Technical Officer, SVU	Member	
6	Prof. (Dr.) Buroshiva Dasgupta, Professor, School of Media and Communication, Sister Nivedita University.	External Member	
7	Prof. (Dr.) Manas Roy, Professor and former head Centre for Journalism and Mass Communication, Visva-Bharati University.	External Member	
8	Dr. Rajesh Das, Assistant Professor, Former head of Department of Mass Communication, The University of Burdwan.	External Member	

Vice Chancellor
Swami Vivekananda University

Discussion was held about the agendas of the meeting. Approval was taken from the members regarding all the agendas.

1. Finalisation of External Moderator lists for the Department of Journalism and Mass Communication.

The list of external moderators' names for the Department of Journalism and Mass Communication was shown to all the members of the committee for the confirmation of the names of the moderators. All the members confirmed the list of external moderators.

2. Discussion on the list of internal moderators, paper setters, scrutineers and examiners:

It was decided in the meeting that one of the departmental faculty would serve as an internal moderator and the subject teachers other than internal moderators would serve as paper setter and examiner. It was informed that the internal faculty members other than the examiner would perform the scrutiny of the papers. All these decisions were finalized after taking opinions from all the members.

3. Discussion on the type of questions to be set and date of submission of question papers.

All the members present in the meeting agreed that the paper setters should have to execute their maximum efforts in preparing question papers by setting the questions from each unit/module of the syllabus and MCQs should be set in an unambiguous way. During moderation the questions will be taken from both the sets to prepare the final set of moderated question papers. It was also resolved in the meeting that after moderation all the question papers should be submitted to the exam cell on or before 31st January, 2025.

4. Miscellaneous (if any)

There were no other issues to discuss, so the meeting was finally concluded with a vote of thanks by Dr. Pramiti Roy, Associate Professor,Head Department of Journalism & Mass Communication, Director, School of Humanities and Social Sciences, SVU.

Vice Chancellor
Swami Vivekananda University

Board of Studies Committee

The meeting of the Board of Studies of the Department of Journalism and Mass Communication was held on 18th June 2025 in online mode to discuss the following agendas.

Dr. Pramiti Roy, Director of the Department of Journalism and Mass Communication, welcomed the members present at the meeting. Following this, the convener requested Mr. Kishor Kumar Hira, Senior Graphics Instructor, Department of Journalism and Mass Communication, SVU, to officially commence the meeting and initiate the agenda-wise discussions.

The following resolutions were adopted after detailed deliberation:

Agenda: I

Finalization of the National Education Policy (NEP) framework for UG courses:

The draft framework of Undergraduate Courses under the National Education Policy (NEP) 2020 guidelines was presented at the meeting. The subject selection pattern, coding system for each subject, and distribution of credit patterns were also put before the committee members for necessary discussion.

The committee found the framework to be conclusive in accordance with the guidelines of NEP 2020. After detailed discussion, the draft framework was unanimously accepted and approved by the committee.

Agenda: II

Finalization of the draft syllabus of BAJMC of the 2023, 2024, 2025 batch and beyond:

The convener of the meeting presented the detailed four-year draft syllabus for undergraduate courses, including Bachelors of Journalism and Mass Communication (BAJMC), in accordance with the National Education Policy (NEP) 2020 guidelines.

Vice Chancellor
Swami Vivekananda University

After detailed discussion and incorporating the necessary changes advised by the expert members, the draft syllabus for all the disciplines was unanimously accepted and approved by the committee. The committee also noted and approved the change in nomenclature of a few courses as suggested by the members.

Semester 1 - Change of the Subject Names from Software Training for Print Media to Basics of Print Media and Design.

Semester II- Change of the Subject Names from Software Training for Audio and Video Production to Basics of Graphic Design and Animation.

Semester III- A. Change of the Subject Names from PR and Corporate Communication to Public Relations and Corporate Communication.

B. Change of the Subject Names from Basics of Graphic Designing to Print Layout and Design.

SEMESTER V- Change of the Subject Names from Multimedia Journalism to Multimedia Production.

The committee praised the preparation of a robust syllabus that meets the needs of modern times.

Agenda: III

Miscellaneous:

As per valuable suggestions of the External Expert members, further the followings are unanimously resolved:

1. Emphasis should be placed on acquiring basic knowledge about Journalist/ Video Graph/ Photography/ - related subjects and their applications. Extensive technical sessions and orientation programs led by industry experts should be encouraged to minimize the knowledge gap.
2. Programs like as extra-curricular activities, particularly for the students.

Vice Chancellor
Swami Vivekananda University

3. Industrial training or apprenticeship is required for a couple of days or months for the Business Management students to equip them with industry exposures.

The meeting ended with a vote of thanks to the chair and other members.

Agenda

- Implementation of **Choice Based Credit System** in B.Sc **In MRIT**
- Introduction of New Coding Scheme implemented in all the B.Sc program.
- Introduction of New Value-Added Courses beyond the Course Curriculum
- Revision of the syllabus framed 2021(CBCS)
- Employability/Entrepreneurship/skill development centric curriculum Implementation.

Prof. (Dr.) Subrata Kumar Dey, Vice Chancellor, SVU, discussed the following agenda in presence of all the Board of Studies members.

Vice Chancellor
Swami Vivekananda University

Minutes of 2nd Board of Studies (BOS) Meeting

Agenda 1: Implementation of Choice Based Credit System in B.Sc (IN MRIT)

Proposition: The implementation of Choice Based Credit System (CBCS) in the curriculum is a transformative step towards enhancing the quality and relevance of higher education. By offering students' flexibility, choice, and interdisciplinary learning opportunities, CBCS empowers them to pursue their academic interests and career aspirations. Through effective planning, stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational ecosystem, ultimately benefiting students, faculty, and the society at large.
Resolution: The board unanimously agreed for the formation of the syllabus.

Agenda 2: Introduction of New Course Coding Scheme

Proposition: A new Course Coding Scheme is being introduced in the University for all programs to be followed from AY2023-24. The new Codes are embedded in the Course Structure.
Resolution: The Course Structure with new course codes was approved.

Agenda 3: Introduction of New Value-Added Courses beyond the Course Curriculum

Proposition: The introduction of value-added courses beyond the course curriculum presents an exciting opportunity to enrich the educational experience and enhance the employability of our students. By offering practical skills, industry insights, and hands-on experiences, these courses align our institution with the evolving needs of the workforce and contribute to the success and competitiveness of our students in their future careers. Through careful planning, collaboration, and evaluation, we can ensure the successful implementation and ongoing success of value-added audit courses at our institution.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 4: Revision of the syllabus framed 2022-23(CBCS)

Proposition: With due consideration the syllabus has been revised the GE baskets has been upgraded and approved by the committee members.
Resolution: The overall framework was highly appreciated believed by industry and academia.

Agenda 5: Employability/Entrepreneurship/skill development centric curriculum Implementation.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on courses in focused on Employability/Entrepreneurship/skill development to enhance the possibility of developing entrepreneurship skills within students.
Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Vice Chancellor
Swami Vivekananda University

Minutes of 4th Board of Studies (BOS) Meeting:

Agenda 1: Implementation of the Choice Based Credit System (CBCS) in B.Sc (Medical Laboratory Technology)

Proposition:
The implementation of the Choice Based Credit System (CBCS) in the curriculum is a transformative step toward enhancing the quality and relevance of higher education. By offering students greater flexibility, a range of choices, and opportunities for interdisciplinary learning, CBCS empowers them to pursue their academic interests and career aspirations. With effective planning, active stakeholder engagement, and continuous evaluation, we can ensure the successful adoption and integration of CBCS into the educational framework, ultimately benefiting students, faculty, and society as a whole.

Resolution:
The Board unanimously agreed to proceed with the formation of the syllabus.

Agenda 2: Introduction of New Course Coding Scheme

Proposition: A new Course Coding Scheme is being introduced in the University for all programs to be followed from AY2021022. The new Codes are embedded in the Course Structure.

Resolution: The Course Structure with new course codes was approved.

Agenda 3: Introduction of New Value added Course beyond the Course Curriculum

Proposition: The introduction of value added course beyond the course curriculum presents an exciting opportunity to enrich the educational experience and enhance the employ-ability of our students. By offering practical skills, industry insights and hands-on experiences, these courses align our institution with the evolving needs of the workforce and contribute to the success and competitiveness of our students in their future careers. Through careful planning, collaboration and evaluation, we can ensure the successful implementation and ongoing success of value-added course at our institution.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Agenda 4: Revision of the syllabus framed 2023 (CBCS)

Proposition: With due consideration the syllabus has not required any such changes as it remains up to the mark with current trend.

Resolution: The overall framework was highly appreciated believed by industry and academia.

Agenda 5: Employability/Entrepreneurship/Skill development certric curriculum implementation.

Proposition: With due consideration of the shrinking job market, the Department proposed to offer add-on course in focused on Employ-ability/Entrepreneurship/Skill development to enhance the possibility of developing entrepreneurship skills for students.

Resolution: The overall framework was highly appreciated form industry perspective. The board gave a go ahead to design the detail syllabus.

Minutes of the Board of Studies Meeting of the Department of Education on February 18th, 2025, regarding the Term End Examination, 2025

Date: 18.02.2025
Time: 02.00 PM
Venue: Annex, 101
Agenda of the meeting:

• Finalization of the names of external moderators for Term-End Examination of the odd semester 2025.

Minutes of the Meeting:

The meeting was presided over by the Head of the Department, who started off by outlining the agenda. The chairman recommended eight names for potential external moderators, which are as follows:

Dr. Aniruddha Saha
Assistant Professor, Department of Education, Asannagar MMT College

Dr. Bijoy Krishna Panda
Assistant Professor, Department of Education, Jadavpur University

Dr. Abhijit Banerjee
Assistant Professor, Dept. of Bengali, Diamond Harbour Women's University

Dr.Manajat Ali Biswas
Assistant Professor, Dept. of Education, Gobardanga Hindu College

Dr. Manikanta Paria
Assistant Professor, Department of Education, Jadavpur University

Dr. Bikash Shaw
Assistant Professor,Department of Hindi,Pandaveswar College

Dr. Pranay Pandey
Assistant Professor, Department of education, Bhatter College

Dr. Nabin Thakur
Assistant Professor, Department of education, St. Xavier's College

Vice Chancellor
Swami Vivekananda University

Amongst them, following four members were chosen by the external members based on their subject specialization and expertise:

Dr. Aniruddha Saha
Assistant Professor, Department of Education, Asannagar MMT College

Dr.ManikantaParia
Assistant Professor, Department of Education, Jadavpur University

Dr. Abhijit Banerjee
Assistant Professor, Dept. of Bengali, Diamond Harbour Women's University

Dr. Bikash Shaw
Assistant Professor, Department of Hindi, Pandaveswar College

Dr. Pranay Pandey
Assistant Professor, Department of education, Bhatter College

Dr. Nabin Thakur
Assistant Professor, Department of education, St. Xavier's College

After a thorough discussion with all the members of the department, and the externalmembers, the subject-wise moderators (both external and internal) and scrutineers were finalized for the smooth conduction of thequestion paper-making and evaluation process. (attached herewith)

After the fruitful discussion, the meeting ended with a vote of thanks to all.

Vice Chancellor
Swami Vivekananda University

Minutes of the Board of Studies Meeting of the School of Management on November 3rd, 2023, via online mode regarding the following agenda:

Agenda of BOS meeting:

1. Finalization of Four years UG (BBA, BBA DM, BBA HM, BBA HHA) syllabus as National Education Policy (NEP), 2020 guidelines.
2. Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination.
3. Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination.
4. Miscellaneous

Meeting Link: https://meet.google.com/uaj-vkqy-pde

Date: 03-11-2023

Time: 02:00 pm

Prof. (Dr.) Kallal Banerjee, *Director*, School of Management, has requested to preside over the meeting and hold the chair. To start with, Mr. Soumen Nath, convener welcomed the presented members and officially commended the meeting for agenda wise discussion.

The following resolutions were adopted after detail deliberation:

Agenda-1

Finalization of Four years UG (BBA, BBA DM, BBA HM, BBA HHA) syllabus as per National Education Policy(NEP), 2020 guidelines:

Convenor of the meeting put the detailed four years draft syllabus of Under Graduate courses vide Bachelor of Business Administration (BBA), Bachelor of Business Administration in Digital Marketing (BBA DM), Bachelor of Business Administration in Hospital Management (BBA HM) and Bachelor of Business Administration in Hotel and Hospitality Administration (BBA HHA) as per National Education Policy(NEP), 2020 guidelines.

Vice Chancellor
Swami Vivekananda University

Convenor also described the subject selection pattern, coding system of each subjects and distribution of credit pattern before the committee members.

After detailed discussion and incorporating necessary changes, as advised by the expert members, the Draft syllabus of all the disciplines has been unanimously accepted and approved as well by the committee. The committee has praise for preparing the robust syllabus as per the need of the modern times. (Annex-I)

Agenda-2

Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

After detailed discussion the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee. (Annex-II)

Agenda-3

Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

Vice Chancellor
Swami Vivekananda University

After detailed discussion the draft list of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee.

Agenda-4

Miscellaneous:

As per valuable suggestions of the External Expert members, further the followings are unanimously resolved:

1. Thrust should be given to basic knowledge about the Hospital Management related subjects and their applications. Extensive technical sessions and orientation programs by the Industry Experts are need to encouraged to minimize the knowledge gap.

2. Programs like CPR, NABH, and NABL need to be incorporated as extra-curricular activities, particularly for the Hospital Management Students.

3. Industrial training or apprenticeship is required for a couple of days or months for the Business Management students to equip them with industry exposures.

The meeting ended with a vote of thanks to the chair and other members.

Minutes of the Board of Studies Meeting of the School of Management on **26th September 2024**, in hybrid mode regarding the following agenda:

Prof. (Dr.) Malayendu Saha, Director of the School of Management, requested to preside over the meeting and held the chair. To start, Dr. Pramiti Roy, the convener, welcomed the members present at the Board of Studies meeting. The convener then asked Mr. Neelanjan Mitra, Assistant Professor, Department of Business Management, SVU, to officially commence the meeting on behalf of the School of Management for agenda-wise discussions.

The following resolutions were adopted after detailed deliberation:

Agenda: I

Finalization of the National Education Policy (NEP) framework for UG courses:

The draft framework of Undergraduate Courses under the National Education Policy (NEP) 2020 guidelines was presented at the meeting. The subject selection pattern, coding system for each subject, and distribution of credit patterns were also put before the committee members for necessary discussion.

The committee found the framework to be conclusive in accordance with the guidelines of NEP 2020. After detailed discussion, the draft framework was unanimously accepted and approved by the committee. **(Annex-I)**

Agenda: II

Finalization of the draft syllabus of BBA, BBA DM, BBA HHA, BBA ABM & BBA HM for the 2024 batch and beyond:

The convener of the meeting presented the detailed four-year draft syllabus for undergraduate courses, including Bachelor of Business Administration (BBA), Bachelor of Business Administration in Digital Marketing (BBA DM), Bachelor of Business Administration in Agri Business Management (BBA ABM), Bachelor of Business Administration in Hospital

Vice Chancellor
Swami Vivekananda University

Management (BBA HM), and Bachelor of Business Administration in Hotel and Hospitality Administration (BBA HHA), in accordance with the National Education Policy (NEP) 2020 guidelines.

After detailed discussion and incorporating the necessary changes advised by the expert members, the draft syllabus for all the disciplines was unanimously accepted and approved by the committee. The committee praised the preparation of a robust syllabus that meets the needs of modern times.**(Annex-II)**

Agenda: III

Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2024:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2024 before the committee. The selection criteria and procedure are also described by the convenor in detail.

After detailed discussion the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2024 has been unanimously accepted and approved as well by the committee. .**(Annex-III)**

.**Agenda: IV**

Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination, 2024:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2024 before the committee. The selection criteria and procedure are also described by the convenor in detail.

After detailed discussion the draft list of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination for Term End Odd Semester Examination, 2024 has been unanimously accepted and approved as well by the committee

Vice Chancellor
Swami Vivekananda University

Agenda: V

Miscellaneous:

As per valuable suggestions of the External Expert members, further the followings are unanimously resolved:

1. Emphasis should be placed on acquiring basic knowledge about Hospital Management-related subjects and their applications. Extensive technical sessions and orientation programs led by industry experts should be encouraged to minimize the knowledge gap.
2. Programs like CPR, NABH, and NABL need to be incorporated as extra-curricular activities, particularly for the Hospital Management Students.
3. Industrial training or apprenticeship is required for a couple of days or months for the Business Management students to equip them with industry exposures.

The meeting ended with a vote of thanks to the chair and other members.

Minutes of the Board of Studies Meeting of the School of Management on November 3rd, 2023, via online mode regarding the following agenda:

Agenda of BOS meeting:

1. Finalization of Four years UG (BBA, BBA DM, BBA HM, BBA HHA) syllabus as National Education Policy (NEP), 2020 guidelines.
2. Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination.
3. Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination.
4. Miscellaneous

Meeting Link: https://meet.google.com/uaj-vkqy-pde

Date: 03-11-2023

Time: 02:00 pm

Prof. (Dr.) Kallal Banerjee, *Director*, School of Management, has requested to preside over the meeting and hold the chair. To start with, Mr. Soumen Nath, convener welcomed the presented members and officially commended the meeting for agenda wise discussion.

The following resolutions were adopted after detail deliberation:

Agenda-1

Finalization of Four years UG (BBA, BBA DM, BBA HM, BBA HHA) syllabus as per National Education Policy(NEP), 2020 guidelines:

Convenor of the meeting put the detailed four years draft syllabus of Under Graduate courses vide Bachelor of Business Administration (BBA), Bachelor of Business Administration in Digital Marketing (BBA DM), Bachelor of Business Administration in Hospital Management (BBA HM) and Bachelor of Business Administration in Hotel and Hospitality Administration (BBA HHA) as per National Education Policy(NEP), 2020 guidelines.

Vice Chancellor
Swami Vivekananda University

Convenor also described the subject selection pattern, coding system of each subjects and distribution of credit pattern before the committee members.

After detailed discussion and incorporating necessary changes, as advised by the expert members, the Draft syllabus of all the disciplines has been unanimously accepted and approved as well by the committee. The committee has praise for preparing the robust syllabus as per the need of the modern times. (Annex-I)

Agenda-2

Finalization of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

After detailed discussion the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee. (Annex-II)

Agenda-3

Finalization of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination:

The Convenor of the meeting has presented the draft list of Paper Setter, Internal Moderator and External Moderators of question papers for Term End Odd Semester Examination, 2023 before the committee. The selection criteria and procedure are also described by the convenor in detail.

Vice Chancellor
Swami Vivekananda University

After detailed discussion the draft list of Examiners and Scrutinizers name of question papers for Term End Odd Semester Examination for Term End Odd Semester Examination, 2023 has been unanimously accepted and approved as well by the committee.

Agenda-4

Miscellaneous:

As per valuable suggestions of the External Expert members, further the followings are unanimously resolved:

1. Thrust should be given to basic knowledge about the Hospital Management related subjects and their applications. Extensive technical sessions and orientation programs by the Industry Experts are need to encouraged to minimize the knowledge gap.

2. Programs like CPR, NABH, and NABL need to be incorporated as extra-curricular activities, particularly for the Hospital Management Students.

3. Industrial training or apprenticeship is required for a couple of days or months for the Business Management students to equip them with industry exposures.

The meeting ended with a vote of thanks to the chair and other members.

Minutes taken by,

Soumen Nath
