(57) Abstract :

The body-shaped pesticides sprayer, integrated with voice control for on/off commands, is designed for farmers in high-temperature settings. This innovative device shields the upper body with pesticides liquid, protecting against direct sunlight and extreme heat. The voice control feature enables hands-free operation, enhancing convenience. Combined with an adjustable sprinkler system and dual power sources (solar/electricity), this invention revolutionizes farming safety, prioritizing comfort, efficiency, and productivity.
