(57) Abstract :

This research focused on the redesign the main body of automatic air freshener dispenser. Automatic air freshener dispenser used for spraying fragrance automatically according to the setting provided. This type of air freshener no need to spray manually, labour saving and more convenient. This automatically air freshener dispenser will automatically spray the fragrance into the whole room space to purify air and remove smelly odour. Other than that, the objectives of this mini project are to redesign the main body of the automatic air freshener dispenser.
