### Infrastructural Development

A layout for further university infrastructural development is in progress which zoned the campus for multi-dimensional usage.

### Event Participation

The department of Civil Engineering organized a Faculty Development Program related to the acquaintance and usage of the working of Total Station, with a preliminary class focus on contour mapping and data processing using Total Station.

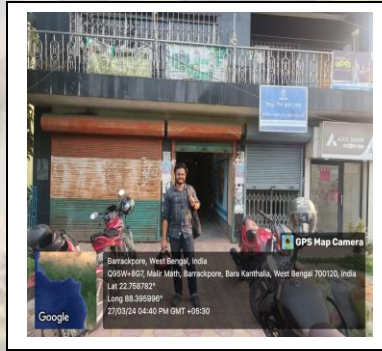

## Activities & Placements

The arrival of companies for recruitment in any educational organization demonstrates their contribution to the future workforce. The department of civil engineering hereby announces that students of this department has been selected into two prestigious companies viz. Shyam Steel Industries Ltd. and Royal Enfield.

### Community Development and Outreach Hub

Led by Dr. Ashes Banerjee from Civil Department, long with members of other department, the outreach hub is a deep routed foundation between college and Govt. with an aim of mutualism for betterment of society by solving issues combining technology, expertise and experience. A planned nearby Panchayat visit, as a part of this was the first step to achieve the greater goal.
